Some from Norfolk were sent there today. A telegram from Surgeon Wasdin at

the home, received at 9 o'clock, said: "The situation is favorable and encouraging today. No new cases and no deaths."

Five physicians of the marine hospital arrived here today and were transferred to the quarantine ship Jamestown on a government tug. They were afterward sent from the Jamestown to the Old Point soldiers' home. Several of the doctors are yellow fever immunes. The government is evidently making a prodigious effort to prevent the spread of yellow fever and is apparently to be successful.

#### LAST NIGHT'S REPORT.

Newport News, Va., Aug. 3 .- "No new cases and no deaths" is the report. sent here tonight again by Governor P. T. Woodfin, of the Soldiers' home. There is every evidence that the yellow fever situation is improving daily, and some of the officials at the home telephoned to their friends here today that they expect to have their liberty inside of a week.

UNGUARDED WATER FRONTS. Newport News, Va., Aug. 3 .- The

board of health of Newport News tonight quarantined absolutely against the cities of Norfolk and Portsmouth on account of their laxity in providing an iron-bound quarantine for ther own protection. It is claimed there are fifteen miles of exposed water front near

the two cities by which people from the infected district can reach the cities in sailboats. The quarantine will be enforced until Norfolk and Portsmouth shall take suitable steps fo rtheir own protection.

It is currently rumored here that the bacteriologist who arrived from Washington had diagnosed the diseased at

the home as not yellow fever. No confirmation could be obtained. Local physicians say they would not be surprised if a mistake had been made in the diagnosis.

ATTEMPT TO BREAK QUARAN-TINE.

Norfolk, Va., Aug. 3.-Grimes' battery of volunteer artillery, an organization of Portsmouth, was encamped at Ocean View when the outbreak of yellow fever at Hampton occurred. The artillerists volunteered to patrol the shore of Chesapeake bay and enforce the quarantine regulations and thus prevent any jump-

ers from the peninsula from escaping to the mainland in which Norfolk is.
