## THE TELEPHONE.

The wonder of the world is the telephone. Everything else can be accounted for and explained, but when the explanation is made in full of how the telephone works, the mystery still remains, for, lo, the voice of a friend hundreds of miles away comes sounding beside one, as though face to face, and the fact is made clear that there is a divinity in what voice that distance, and roaring storms and all the clamors of a mighty world cannot break one tone of. It is as when the infinite spoke to Moses on Sinai, as when, after all the clamors had passed, the still small voice smote upon the ears of the seer and he knew God was nigh. One asks a question, his own klies away in the room in which he sits, but a moment later out of the darkness a voice replies, and he knows that his question has penetrated all the space for hundreds of miles, and that the answer has come and brought with it all the tomes that love or friendship would demand for identification. It is easier than formerly to believe that the prayer preferred is recorded on the receiver of man's dominion over not only the earth but all its elements, and that he has been from the first possessed of divinity which is sufficient to command and make a servant of mere matter, that his place is, after all, only a little lower than the angels, and that when the environments of this world shall be cast off, he will find that instead of death being a close. it is but the opening gate to a higher and freer life. We hear a bell, and a voice that we have not heard for months or years responds, and so we know that voice is still, with all the old tones, to be heard. Who shall say that when another summons comes we shall not hear voices that we thought had gone out forever in whispers, hear them with all the old rythm and sweetness? Listening. there is brought to us the music of an orbestra playing hundreds of miles away. What music shall we hear when the final

key is touched? ## NORTH CAROLINA NEWS OF THE DAY

SALISBURY IN A LITTLE FLUT-TER OVER SMALL-

POX.

Events of Interest in Various Parts of the State.

Free and Unlimited Discussion, of Silver-The National Cemetery at Salisbury-Need of Anti-Amendment Information in Rowan.

Salisbury, N. C., Oct. 10 .- On account of the smallpox scare the doctors are visiting the public schools and vaccinating the children. The grown people take the virus at home. Last week it was reported that eight developed cases were in the pest house, with twenty-eight suspects, but I noticed yesterday's paper said no new cases were reported. It seems that all the cases and suspects are negroes. No one has died as far as is known.

Salisbury needs to be put in better sanitary condition. Here are railway junctions, and all tramps find a handout at the door with a piece of bread and meat-and no wood to saw either. So they hang around.

I went into a business house yesterday and asked to get some change for a \$10 note. "No, sir," was the reply, 'we have no silver. The government won't let it out." I was so forcibly struck with this exclamation that stopped at the Mt. Vernon hotel to ask Captain John Bryan about it, and behold, when I got there, Mr. Henderson, formerly a member of congress from this state, was talking on the same subject. He said that the south could not get a dollar in silver from the treasury unless it took silver certificates and demanded silver. "You," he said, "cannot take any kind of mone and get silver with it unless it be silver certificates." I said: "Mr. Henderson, do you mean to say that I he said, "you can take gold and get greenbacks or greenbacks and gold, but no national bank notes will

be cashed unless the bank is busted. This was a stunenr to me. Why could not take gold and get silver with it, or a bill issued by the Blue Ridge national bank, of Asheville, and get any kind of money I wanted at the treasury. I would like for you to tell me if this is so, and if so why.

Mr. Henderson says that the south is suffering from lack of silver dollars, while millions are in the treasury, becertificates together to do anything with-that all our paper money in use is either national bank or treasury notes. If this is so there ought to be speedy act of congress.

I visited the national cemetery here today where lie 11,700 union soldiers of the civil war. There are living today 1 in our mountains in Western North Carolina union soldiers who were confined in the Salisbury prison. What a contrast now and then. Old Glory is floating all over the town, and people have forgotten all about the old war. The victory of American arms at Manila and Santiago are the present war

The negro and the amendment to the constitution is the political talk. Some democrats don't like it much; republicans like the act less. Rowan will rity for the amendment, unless sound preaching is done. These people, as far as I have observed, are not foolish enough to listen to argument. I would like to give out about ten copies a day of the Gazette down here. With the thinking democrats the Gazette takes

Wiley Shook was here yesterday. We hear that our friend W. F. Snider is going to move here. It is also stated that he is to be cashier of the Salisbury Savings bank.

Hendersonville, Oct. 10.-G. M. Glazener and Jones Barnett have formed a co-partnership and will open a store with a large stock of general merchandise on or about the 14th of this month. Both of these men are well known and liked and the firm has every prospect

Invitations are out for the marriage of Mr. J. Flemming Brooks and Miss Nellie Begg. The wedding will take place on the 18th of this month. The many friends of the young people unite in wishing them joy.
