The Commonwealth states a fact that is not generally known, and that is that Scotland Neck is the largest peaout market in the world. That is to say, more Spanish peanuts are handled on that market than on any other market in the world.

The Commonwealth says that Mr. W. E. Smith, an energetic and prosperous young farmer of Halifax county, has realized a very large yield from . his peanut crop. He raised 630 bushels of Spanish peanuts on eight acres. The land has been cultivated in cotton 55 years consecutively before this year's peanut crop.

A cotton mill, controlled by colored people and to be operated by colored labor, has about been completed at Concord, and will be in operation, it is expected, by the first of the year. There will be 7,000 spindles and 150 looms. Warren Coleman, colored, the president, says 350 operatives will be employed with two white bosses and one colored boss.

No doubt, could she have had her choice, Aunt Lucy Vanstory, colored, would have preferred to meet-her Maker just as she did. She went to the Methodist church last night in Jonesboro, where she has worshipped for many years, and during prayer knelt down. When the minister had finished it was noticed she did not rise, and after waiting a moment or two, some one, knowing she was old and feeble, went to her assistance, but her spirit had taken its flight-she was dead. Her age was over eighty, and she was a good old soul, revered and respected by the white people who knew her and loved by her own race.-Greensboro

Our Taylorsville correspondent mentioned in the last issue of the Landmark that two daughters of Mr. Sion Watts, who were employed in the Molore cotton mill, near Taylorsville, had become demented and had to be taken home. The Landmark learns that these young girls became insane on the subject of religion. They had been attending a meeting conducted by a sanctification preacher and had become so wrought up on the subject that they decided that they could pass through fire without damage-even as Shadrach, Meshach and Abednego, in days of old. They therefore divested themselves of their clothing and saturated their bodies, the room and the furniture with kerosene and were about to apply the match and try the actual experiment when they were discovered and prevented from endangering their lives. At last accounts one of the girls was slightly improved, but application has been made to send the other to the state hospital. It is a pitiable case.—Statesville Landmark.

It has been discovered that there is a plot to burn the locality known as Smoky Hollow, a disreptuable suburb of Durham. A few nights ago a house in that locality occupied by a white woman named Pearl Smith was fired and burned to the ground. The woman barely escaped with her life. Saturday a note was sent to Mamie House, another woman of that community. warning her that her house would be burned if Pearl Smith was allowed to stay there. The writer said that every house in that section was to be burned. Sunday night this house was fired and would have burned but for some hard work, it being the third attempt to destroy the property. The police have this note and other evidence and are working on the case. During the past year four houses in Smoky Hollow have been burned, all the fires of incendiary origin.

Do Animals Reason? A little girl fell off the dock at High Bridge. Her mother screamed for help. A stray Newfoundland dog responded to the call, rushed down the dock and, see-Wanted to | ing the situation, jumped into the water, or Man wanted to me taught the girl and swam with her to appoint agents, \$60 per the dock. Then a policeman ran down, swung himself over the dock and lifted first the child and then the dog to land.

> Not long since an alleged philosopher proved to his own satisfaction, in a magazine article, that "animals do not reason." If this dog, now adopted by the police of the High Bridge precinct, did not reason, did the policeman who took him and the girl from the water reason. -Brooklyn Citizen.
