North of Freere they encountered a party of Boers and began to withdraw. While retiring some of the trucks were derailed. THE ARMORED TRAIN.

Estcourt, Nov. 16 .- A correspondent who has just visited the Sanitarium hospital says all the armored train wounded are doing well. Captain Wylie in an interview said Sergeant Todd deserves special mention for having surrounded him with boulders to protect him from the rifle fire when lying helpless and wounded. Several men escaped marvelously. Winston Churchill requested Captain Wylie to call for volunteers to remove the unset truck bullets were dropping on the train "like rain." The men throughout stuck to their work, responding to the noble example set by Churchill and Lieutenant Franklin until the line was cleared. Churchill actually left with the engine but got out at the next station, took a rifle from a soldier, saying that he could not leave the wounded, and walked away in the direction of the boys. Sergeant Hassell, of the Dublin Fusiliers, behaved with the greatest gallantry. He took charge of the firing party and stood up unflinchingly under the Boers' hot fire. His example electrified the Fusiliers, who kept the Boers at bay by volleying. Captain Haldane fell early in the engagement, shot through the shoulder.. Lieutenant Franklin's conduct is highly praised. He exhibited great coolness during the critical period. He is reported missing.

Program of Naval Increase Adopted by the Board of Construction Yesterday.

Washington, Nov. 17 .- So far as it was within its ability to do so the naval board of construction today adopted a program of naval increase which includes three armored cruisers, three protected cruisers, six light draught gunboats of a thousand tons displacement and six light draught gunboats of eight hundred tons displacement. This program will be submitted to Secretary Long on his return from Colorado.

While there were differences in opinion as to how the vessels should be built, and the advisability of constructing more armorclads, and while the controversy with the armor plate makesrs remained unsettled, there was a unanimous feeling that the steady increase in the navy should be continued.

The three armored cruisers contemplated are to be much larger than the Brooklyn. They are to be even larger than any of the armored cruisers in the British navy. The idea of the board is to provide three vessels that will combine the elements of strength of a battle ship and the speed of an armored cruiser. The object is to have a trio of vessels second to none in the world in respect to speed and armament. They will be faster than the Brooklyn and carry rifles of at least ten inch cal-

REV. DR. DEXTER REACHES WASHINGTON

His Wife Requests Her Brother to Meet Him.

Nyack, N. Y., Nov. 17 .- Mrs. Dexter does not want her husband. Rev. W. H. Dexter, returned to Nyack. An Asheville clergyman telegraphed from Asheville yesterday that he and Dexter would leave in the afternoon for Nyack. Dexter telegraphed his wife from Washington to meet him at North Wales, Pa. Mrs. Dexter asked her brother, Prof. Van Slyke, of Geneva. N. Y., to meet her husband in her place. Prof. Van Slyke will, if possible, persuade Dexter to go with him to Geneva, and not return to Nyack. Mrs. Dexter and family are preparing to move to Springfield, Mass., and it Dexter does not come to Nyack he will probably join them in Springfield.

No Asheville clergyman accompanies Dexter, who left this city on Thursday. He went alone. The telegram received by Mrs. Dexter was doubtless sent by Dexter himself, as was a previous despatch notifying her of his presence here.

PULLIAM CASE CONTINUED.

The Stines Boys Were Acquitted Yesterday Afternoon. The case against Lawrence Pulliam

was brought up in the federal court yesterday on a motion for continuance. Judge Moore read an affidavit in support of the motion for continuance. It was set out that the defense would maintain that at time of the embezzlement Pulliam was, mentally and physically, in such condition that he was not responsible for his acts. In support of this it was necessary to have the attendance of Dr. John Hey Williams and Dr. Charles S. Jordan. The former is confined at home by a broken leg, while the latter is away on his wedding tour and it would be impossible to secure their attendance at this term. Counsel are not fully prepared in the case, is Judge Moore has been kept busy by a press of other out good eyes or good glasses. We cases, and Mr. McLoud has been absent from the city a part of the time. The first intimation the defense had that the case would be heard at this term was on Friday, November 3. In addition, the affidavit recited the fact that superior court is in session which requires the attendance of counsel

An interesting case tried yesterday was that of William and Robert Stines, charged with robbing the postoffice at Little Pine Creek, Madison county. The defendants are brothers, sixteen and seventeen years old. A large number of witnesses were examined but the evidence was all circumstantial. The prosecution was assisted by I. N. Ebbs and the defense was conducted by T S. Rollins. The boys were acquitted.

WIRELESS TELEGRAPHING.

London, Nov. 15.—Signor Marconi, who is a passenger on the steamship St. Paul, which reached Southampton Reported to be at Urdaneta tonight, sent this message to the signal station at the Needles when the vessel was forty miles away: "Ail aboard well; everything satisfactory." The new battleship Canopus will be fitted with Marconi's system of wireless telegraphy.

Marconi asked the signal station at the Needles for the latest Transvaal war news when the St. Paul was sixtysix miles away.

Marconi published a paper on the St. Paul which he called the Transatlantic Times. It contained all the news he Manila is Excited Over Reports of to his wireless telegraph inquiries. This included a brief summary of the situation in South Africa and a story about the loss of the American cruiser Charleston off the coast of Luzon. Copies of this paper were sold for \$1

each and the money thus received was donated to the Seamen's Fund.

Besides the news messages that were received, the passengers availed themselves of the opportunity to send messages to friends in England and the United States. One passenger when the steamer was forty miles from shore arranged for a supper party in London on his arrival. Immediately on the arrival of the

ship at Southampton six of Marconi's assistants started for Cape Town. Referring to the seizure of the wire-

less apparatus in Delagoa Bay, which was supposed to be intended for the Boers, Marconi said he had nothing to do with it, directly or indirectly.-New
