clared a Draw.

New York, Dec. 4.-Frank Erne, of tonight at the Coney Island Sporting club, met more than his match in Jack O'Brien, of this city, who for twentyfive rounds did all the real forcing and fighting. In only a few rounds did Erne have any pronounced advantage, yesterday and arrived here. He says but Siler declared the fight a draw that 15,000 Boers are holding Colenso, much to the satisfaction of Erne's and that Joubert is in command. supporters who believed their money, put out at 100 to 60, had been burned

Erne is undoubtedly a beautiful boxer but he is not the fighter such as the former champions, McAuliffe and La-WILL STATE BOARD vigne. The local man was forever coming with swings, hooks and great body blows, which in the latter part of the fight wore Erne down. The champion was faster in leg work and in the manipulation of his hands.

He landed numberless face blows, none of which had power enough to knock O'Brien down, whereas the latter sent the champion to the floor twenty-second rounds. Erne's hitting was weak for a champion. He reached the jaw and eyes with repeated jabs, but that was all. O'Brien punched his stomach all through the mlil and was as strong at the finish as when he started.

Information Received MEMBERSHIP COMMITTEE ASKS LADIES TO HELP

Newspaper Articles on Appalachian National Park Movement.

The membership committee of the Appalachian National Park association met yesterday morning in the office of the chairman L. P. McLoud, to formulate plans for securing new members of the association. They decided to ask the mayors of the different towns for names of persons who might become members. A resolution was passed to the effect that the ladies of the country who were interested in the park movement, would be asked to form an auxiliary or independent association for the furtherance of the movement.

The different papers of the southern states are agitating the park movement very strongly. The principal articles are appearing in those papers that had representatives here. P. A. Stovall, the president of the Savannah Press, recently wrote a two-column article on the attractions of this country for the proposed park. W. A. Mc-Dougald, of the staff of the Atlanta Journal, who is in the city, has written an extended article on the park movement for his paper. He gives a review of the park convention, the claims of the south and especially Western North Carolina for a national park. He quotes one authority who says that there are more indegenious trees in that Aguinaldo was then at Cervantes Western North Carolina than one from Turkey to England, or from the Atlantic coast to the Rocky Mountain plateau. He says the Scientific American gives Western North Carolina the credit of having a climate in which every sort of North American animal or fish would thrive. He gives a review of the organization of the movement, and in an interview with Dr. C. P. Ambler as to a suitable location.

Atlanta is working for a national park also. The site considered is the Peachtree creek batlefield, on which President McKinley, then a major of the federal troops; ex-President Benjamin Harrison, then a general, who was seriously injured there, and a number of prominent confederate generals were engaged. Bills will be introduced into the senate and house of representatives and the legislature of Georgia this week for the purchase of about 1,300 acres, for which options have already been secured. The price for the land will be about \$155,000. This movement will not interfere with the Appalachian National Park asso-

OF CONGRESS

Indications of Trouble Over Roberts of Utah.

NO ACTION UNTIL TODAY

Some Revolt Against Adoption of Reed Rules.

BAILEY LED THE MOVEMENT BUT HIS PARTY FAILED TO BACK HIM UP-SENATOR FRYE, ACTING VICE PRESIDENT, MOST CONSPICUOUS MAN IN SENATE.

Washington, Dec. 4.-With surprising smoothness and apparently with party unity, the organization of the Fiftysixth congress was perfected today. There was only one slight hitch in the day's proceedings. It was a preliminary skirmish that indicated possible trouble over the determination of the republicans to keep Roberts, of Utah, out of his seat, but both sides were willing today to consent to the

case going over till tomorrow. Very early in the day a monster petition, said to consist of seven million names, protesting against the seating of Roberts, was brought into the house. It has been collected by a New York newspaper. It consisted of twentyeight rolls of names each about two feet in diameter encased in the American flag. Thes rolls were stacked up in the area in front of the clerk's desk and viewed with great curiosity. Later Major McDowell, clerk of the house, ordered all except two rolls to be taken out into the lobby.

The republican caucus nominees, beginning with Speaker Henderson, were elected, the opposition voting for the gentlemen nominated in the democratic caucus Saturday.

AGAINST REED RULES.

Ex-Democratic Leader Bailey became restive and gave symptoms of a desire to lead a revolt against the adoption of the Reed rules but the party failed to back him up and after a little tilt Bailey was bowled over and the Reed rules adopted.

In the senate the most conspicuous man was Senator Frye, who will be acting vice president, and in the house the new speaker, Henderson, was the center of attraction.
