NEWS

Mr. W. T. Powe, of Greensboro, was in Charlotte yesterday. Mr. Powe is president of the Southern Bobbing company, which will start in operation on the first of March. This will be the only company in the south that will manufacture exclusively bobbins and skewers. It will turn out 10,000 bobbins a day.-Charlotte Observer.

It is reported that one man coming into court last week in a one-horse wagon mired down a mile or so from town. It was dark and so he let his mule stand mired in the-mud all night while he slept quiely in the wagon. Next morning the county road force prized the mule and wagon out and he came on to town .- Chatham Citizen.

A white man named Jackson was sent to jail from Spray Tuesday, charged with a felonious assault upon his own daughter. Should the man be convicted of the charge, another petition to set aside the legal penalty will be in order. There ought to be no discrimination against this white man on account of his color .- Leaksville Gazette.

Dr. Newton, of Richmond. was tried before a magistrate last week in Winston on the charge of vaccinating a colored girl after she resisted and claim ed she had been vaccinated. The girl claimed she was vaccinated. The girl exhibited certificates to the court, showing that she had been vaccinated twice. The evidence was not damaging and those who attended the trial were surprised when the court imposed a fine of \$1 and cost upon the physician. An appeal was at once taken to the criminal court .- Lenoir Topic.

Italian Policemen. Everywhere we go in Italy we see a

pair of gendarmes standing in the railway stations or in a lazy way parading in black, with cocked hats, white gloves and swords. They never appear to be doing anything but looking about and are apparently too well dressed to think of soiling their clothes with ordinary policemen's duties. Their existence has no doubt been a mystery to many a traveler. They must be exceedingly numerous, for they are seen at even the smaller stations aud always in inseparable couples.

They are known as carabinari and are made up of picked men from the Italian army, who receive increased pay, serve for eight years and then have a claim for civil post in the public service. They are said to form a very creditable and efficient national police, and without their watchful surveillance acts of brigandage would be frequent in Italy as in former times and perhaps political outbreaks also.-Letter in Detroit News.

WAYNESVILLE TOPICS.

Death of Jerkin Willis, Formerly of Asheville.

Waynesville, Feb. 23 .- Mr. J. Willis died last night at 12 o'clock. He came home from his work at W. H. Cole's about two o'clock yesterday afternoon, being very unwell. In fact he had not been like himself for some time past; he seemed melancholy and despondent. owing, perhaps, to the fact that he had in past years been a slave to strong drink, although he had been duly sober for about a year previous to his death. It is thought he had taken a large amount of laudanum, which was doubtless the immediate cause of his death. Mr. Willis was a competent business man-genial, affable and polite. He was well known in Asheville, where he worked a number of years in W. B. Williamson & Co.'s furniture store. The past year he had been engaged as bookkeeper and salesman in the W. H. Cole Lumber & Manufacturing Co. store. Mr. Willis leaves a wife, a son and a little daughter to mourn his death. The funeral obsequies will likely occur tomorrow. Throat, Chest and Lung Diseases. Only Mr. Thomas W. Underwood, who 50c and \$1.00. Trial bottles free at all clerks in Wells & Lee's store, is ill, having been confined to his bed for the past two days.

Sternberger, one of the owners, who is superintending the erection and equipment of the mill, was seen by a Telegram man today, and says work is progressing very satisfactorily and he hopes soon to have the wheels ready to turn. The mammoth boilers are already in position. The engine (500 horse power) has arrived and the work of erecting it was begun today. Part of the machinery of the manufacture of goods has also arrived and will be equipped with twelve thousand spinners and 376 looms .- Greensboro Telegram.

An association of banking houses in New York and London is said to be interested in a new combination designed to control the entire lumber busi-10.4 ness of North Carolina. It is proposed to unite seven different companles, who own about 4,000,000,000 feet of 12.10 lumber and control about 600 miles of railroad. Their saw mill capacity is 1,500,000 feet a day, and they have large planing mills and box factories. Together they sell about 80 per cent of all the North Carolina pine distributed, the total output being about 600,000;000 feet a year. Tangible assets of these seven 9.10 10.1 large companies are estimated at \$23,-10.5 000,000, and it is proposed to capitalize 11.1 them at \$28,000,000 upon which it is 12.34 expected that *widends* can be carried 2.1 hrough the economies of consolidation. 2.20

2.4 President S. G. Atkins, of the Slater 5.5 school in his city, has just returned 7.4 from a trip north in the interest of the 11.35 proposed hospital and nurse training 7.10 school, to be established in connection with the Slater Industrial college. He reports splendid encouragement and says the offer made by Mr. R. J. Rey-7.5 nolds to contribute \$5,000 if the school would raise a like amount, will certain-7.30 ly be accepted. More than two-thirds of the amount to be raised by the institution is in sight and President Atkins says that a meeting is to be held in New York in April at which he expects to secure the required amount needed. Rev. H. Durham is at present No in the New England states in the inter-7.0 est of the work and is meeting with gratifying success. President Atkins 8.1 feels safe in saying that the corner 9.0 stone for the colored hospital and nurse 10.1 11.1 training school will be laid at the next 8.2 commencement of Slater academy .-Winston Republican.

TO BE PREPARED

For war is the surest way for this nation to maintain peace. That is the opinion of the wisest statesmen. It is equally true that to be prepared for spring is the best way to avoid the peculiar Campers of the season. This is a lesson multitudes are learning, and at this time, I contracted a bad cold which settledo n when the blood is sure to be loaded with impurities and to be weak and sluggish, feared that consumption had appeared the millions begin to take Hood's Sarsain an incipient state. I was constantly parilla, which purifies, enriches and vicoughing and trying to expel something talizes the blood, expels all disease germs, sheates a good appetite, gives strength and energy and puts the whole system in a healthy condition, prevent-Remedy and the result was immediate ing pneumonda, fevers, and other danimprovement, and after I had used three gerous diseases which are liable to attack a weakened system.
