

# A Safe Medicine

The public should understand that many medicines contain ingredients that were never intended by Nature to enter the human system. Such dangerous things as lead, copper, zinc, mercury and arsenic are frequently used, to say nothing of stimulants and opiates.

## Dr. David Kennedy's Favorite Remedy

on the other hand, is an absolutely safe and harmless medicine for all diseases of the Kidneys, Liver, Bladder and Blood. It contains no minerals in any form, no dangerous stimulants, no mercury or poison. It contains vegetable juices only. Invalids and children can take it with perfect safety. It is a grand medicine for aged people, who are growing weak as the years pass by. For all distressing forms of Kidney Troubles and for stubborn Constipation it is incomparable. It goes deep and cures.

Wm. Brown, of Danbury, Conn., had Kidney Trouble the very worst way. He could not sleep, and had to get up constantly during the night. Urine passed from him involuntarily in the daytime also. Two or three bottles of Dr. David Kennedy's Favorite Remedy restored his Kidneys to perfect action.

A large bottle of Favorite Remedy can be bought at drug stores for \$1, or six bottles for \$5.

### MORPHINE BEAT THE GAME.

It Made a Young Gambler Quit While He Was a Winner.

"I see gambling is running wide open in Colorado again," said a cattleman of Topeka. "I don't suppose, though, it is as wide open now as it was in the late eighties. I was in Manitou every summer at that time, and the high games that used to run at some of the clubs would be an eye opener to the gamblers of the present day. Cattlemen were making money then, as were the miners, and they used to meet in Manitou and try for each other's pocketbooks, with the result that the professional gamblers got the money."

"I remember how one young fellow was made to quit a winner against his will. His name was Rich. He was a nephew of one of the big reaper men, and his folks kept him supplied with money, a regular allowance. He had been gambling every cent of it, letting bills pile up for hotel and livery and everything else. His people sent word that they wouldn't send any more money and said if he got into trouble he'd have to get out himself. His creditors were just about ready to jump on him, when one night he made a big winning. He was playing faro in the club that's torn down now. It used to stand over from the depot and was the place for high play."

"I suppose he had \$4,000 or \$5,000 in front of him when his friends began trying to persuade him to quit. He was just like all the rest of them, going to break the bank and all that sort of thing, and he wouldn't quit."

"It was a red hot night for Manitou and with the excitement and all Rich had pulled off his coat and rolled up his sleeves. There was a doctor among his friends, and though he hadn't said anything to Rich, I suppose he felt a responsibility, because the young fellow had come out here for his health and had been referred to the Manitou doctor by the doctor he had at home."

"I was watching the play, though I didn't know any of the people. I saw the doctor turn his back to the crowd for a minute and fiddle with something he had taken out of his pocket. Then he walked over to Rich and put his hand on his bare arm. 'You need a sedative,' he said. Quick as a flash he took the hypodermic syringe he had in his hand and fired a charge into Rich's arm."

"Rich said 'ouch' and grabbed at the place where he had been pricked, but the deal was going on, and he turned to that again. Before half the cards were out, his head settled on the table, he com-

A rich man died the other day. He died in the very midsummer of life, and he left his family \$1,000,000.

The doctor's certificate showed that death resulted from typhoid fever. The doctor himself said to a friend: "That man was a suicide. He had a splendid constitution, I could have pulled him through if his stomach had been sound. But he ruined his stomach by hasty meals, snatched in intervals of business and by neglect of symptoms which have been warning him a year past, that his stomach was failing in its duties."  
The symptoms of a disordered condition of the stomach and the organs of digestion and nutrition are, among others, variable appetite, sour rising, undue fullness after eating, dull headache, dizziness, complexion, discolored eye, fluctuations in physical strength, nervousness, sleeplessness, despondency. No one person will have all these symptoms at once, but any one of them calls for prompt aid for the suffering stomach.  
The restoration of the stomach, digestive health, begins with the first dose of Dr. Pierce's Golden Medical Discovery. The cure progresses from that dose until the functions of the stomach and its related organs are in healthy operation. Then the nerves are quiet, the appetite healthful, the sleep restful, the eye bright, the complexion clear. In one word the body is in a condition of perfect health.

"I was troubled with indigestion about two years," writes Wm. Bowker, Esq., of Julietta, LaSalle Co., Idaho. "I tried different doctors and remedies but to no avail, until I wrote to you and you told me what to do. I suffered with pain in my stomach and left side and thought that it would kill me. Now I am glad to write this and let you know that I am all right. I can do my work now without pain and I don't have that tired feeling that I used to have. Five bottles of Dr. Pierce's Golden Medical Discovery and two vials of his 'Pleasant Pellets' cured me."

Don't let the dealer sell you a substitute, if you want a cure. Insist on having "Golden Medical Discovery."

Dr. Pierce's Pleasant Pellets surpass all complexion powders. They make the skin healthy and the complexion clear.

Don't draw good long breaths and was asleep.

"The doctor took the chips, cashed them in, then took and wrote a receipt for the money and gave it to another friend of Rich's to keep. Then he took Rich, loaded him into a carriage, took him up to his office and watched over him until he came around the next day. Rich paid his bills, but he did no more gambling in Manitou. They wouldn't let him play again."—Denver Republican.

### PLATONIC FLIRTIATION.

#### Philosophical View of the Advantages of American Lovemaking.

Since the emancipation of women, especially in the United States, the relations of the sexes have gained new intellectual aspects. The better educated youth of both sexes now use the word "friendship" to cover investigations in love. It allows ampler experiments. What was once compromising is now but introductory. In some lands, to invite a girl to a solitary walk is equivalent to a proposal. With us, a hundred strolls, full of discussion, may end in a negative conclusion that will be without bitterness. In other days marriage was an estate that had to be purchased on a distant view. Now many of its pleasantest groves and avenues may be visited at leisure. "He who sees a woman's heart may take it," said one of the older school. Not only that, he was morally bound to take it. Today she may read specimen pages to a score of men before she chooses the final listener.

The advantages of the new system are mainly for the intelligent. Many girls will fall to comprehend the higher flirtation and proceed in the same old way, and men will ignorantly marry the piquant face and vivacious manner. But to the marriage of true minds impediments have been removed. The freedom of our education develops platonic flirtation to its noblest uses. If American men make the best husbands, the reason is related to the training they have in meeting, on terms of equality, with many women. It is stupid in men or women to lack the instinct for flirtation, but this instinct, like so many others, can be turned to the deepest or the emptiest uses. To make yourself attractive, comprehending and sympathetic is the way to draw out another nature and obtain full knowledge, and to condemn all coquetry is like recommending swimming and forbidding water. Sentimental people fear

#### A FIENDISH ATTACK.

An attack was lately made on C. F. Collier of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stoop without great pain, nor sit in a chair except propped by cushions. No remedy helped him until he tried Electric Bitters which effected such a wonderful change that he writes he feels like a new man. This marvelous cure cures headache and kidney trouble, purifies the blood and builds up your health. Only 50c. at all druggists.

## The Eminent Kidney and Bladder Specialist.

The Discoverer of Swamp-Root at Work in His Laboratory.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, or the kidneys themselves break down and waste away cell by cell. Then the richness of the blood—the albumen—leaks out and the sufferer has Bright's Disease, the worst form of kidney trouble. Dr. Kilmer's Swamp-Root is the new discovery is the true specific for kidney, bladder and urinary troubles. It has cured thousands of apparently hopeless cases, after all other efforts have failed. At druggists in fifty-cent and dollar sizes. A sample bottle sent free by mail, also a book telling about Swamp-Root and its wonderful cures. Address Dr. Kilmer & Co., Binghamton, N. intimacies which do not end seriously, but the increase of knowledge and security is worth some hearts broken before marriage instead of after. Few objects are more readily mended, and few improve so much through injury and repair.

Platonic flirtation is one of the safeguards of the human race. As one after another my friends have passed through this gate to the altar I have been tempted to declare that most platonic friendships end in matrimony, but a calmer memory recalls numberless escapes, through this probation, from impending wedlock.—Norman Hapgood in Atlantic Monthly.

Fortunately the pickpocket was detected and jailed.
