

Copper Colored Splotches.

There is only one cure for Contagious Blood Poison—the disease which has completely baffled the doctors. They are totally unable to cure it, and direct their efforts toward bottling the poison up in the blood and concealing it from view. S. S. S. cures the disease positively and permanently by forcing out every trace of the taint.

I was afflicted with a terrible blood disease, which was in spots at first, but afterwards spread all over my body. These soon broke out into sores, and it is easy to imagine the suffering I endured. Before I became convinced that the doctors could do no good, I had spent a hundred dollars, which was really thrown away. I then tried various patent medicines, but they did not reach the disease. When I had finished my first bottle of S. S. S. I was greatly improved and was delighted with the result. The large red splotches on my chest began to grow paler and smaller, and before long disappeared entirely. I regained my lost weight, became stronger, and my appetite greatly improved. I was soon entirely well, and my skin as clear as a piece of glass.

Don't destroy all possible chance of a cure by taking the doctor's treatments of mercury and potash. These minerals cause the hair to fall out, and will wreck the entire system.

S.S.S. For the Blood

is PURELY VEGETABLE, and is the only blood remedy guaranteed to contain no potash, mercury, or other mineral. Books on the disease and its treatment mailed free by Swift Specific Company, Atlanta, Georgia.

THE MARKETS BY TELEGRAPH

YESTERDAY'S QUOTATIONS ON NEW YORK EXCHANGES AND CHICAGO GRAIN BOARD.

Little Business Transacted in the Stock Market.

Highest, Lowest and Closing Quotations for Active Stocks by Special Telegram from the various Exchanges.

Reported by Murphy & Co., brokers, 11 Church street, Asheville.

New York, March 16.—The stock market opened with the dealings in rather slight volume and with a somewhat uncertain tone. Considerable pressure appeared in the early dealings in Third Avenue, Sugar and Rapid Transit, but subsequently all of the stocks recovered to about their final figures of yesterday.

The granger group, with St. Paul and C. B. & Q. the conspicuous features, continued strong. There was little doing otherwise in the railway list and the transactions showed slight price changes. Aside from Sugar the dealings in the industrials were unusually limited. Tennessee Coal and Iron was the only active feature in that group. The London market showed irregular changes and an uncertain tone was reported in the dealings there. The common expectations that by reason of the losses the banks have suffered on one account or another, tomorrow's bank statement may show the surplus reserves wiped out, did not appear to figure as a factor of any weight in the trading. There was very little news of any financial importance overnight bearing upon the market or particular stocks.

Strong Bones

In speaking about Scott's Emulsion for children, you should not forget that it contains lime and soda, just what the child must have to form strong bones and good teeth. It's this forming time you want to look after.

Growing bodies must have an easily digested fat. Just think how much of it there is in milk, as cream.

Scott's Emulsion

is even more easily digested than cream. It's surprising how children thrive when given it.

Don't keep the children living on the edge of sickness all the time. Make them strong and rugged, plump and hearty. Scott's Emulsion of Cod-liver Oil and the Hypophosphites of Lime and Soda will do this for them.

At all druggists; get and \$1.00. SCOTT & BOWNE, Chemists, New York.
