THE MISSIONARY CONFERENCE.

The great missionary conference in session in New York is the third and most important of world conferences held in the interest of missions.

Among the many things which are demonstrated by such a gathering is the fact that modern material progress has, by multiplying means of communication, made it possible to bring men from distant countries into closer contact.

a state park, has just arranged through its forest preserve board to purchase 30,000 more acres.

The republican state convention, which meets at Raleigh this week, has to deal with a subject that rises above partisan politics and concerns the whole people of this state as has no public question for a generation.

The second part of Mr. W. R. Henry's article on the issues of the political campaign in this state will be published in the Gazette Tuesday morning.

The war department announces that the rebellion in the Philippines is practically at an end. The only part of Luzon in which there was any important force of rebels at the beginning of the present year was south of Manila.

Whether the Citizen has regarded the Gazette as a democratic paper or not the aim of the former has always been the same—to make it as disagreeable as possible for the latter.

New subscribers who receive the Gazette with this paragraph marked will understand that their subscription has been received.

The Boston Transcript suggests the following cure for the nuisance of having circulars thrust into one's letter box: "Take what is sent you and add liberally to it."

MILLIONS GIVEN AWAY. It is certainly gratifying to the public to know of one concern which is not afraid to be generous.

TOPICS OF THE WEEK IN WASHINGTON

Legislation of Importance to Farmers - The Quay Case—No Poll Tax Restriction on Voting in Hawaii.

Gazette Bureau, Washington, April 1. A bit of legislation of importance to farmers was accomplished during the week when the increased appropriation made by the house for bulletins and records pertaining to agriculture was sustained by the senate.

The conference report on the bill to provide a government for the territory of Hawaii was presented last Wednesday by Mr. Cullom and fully explained. The conference committee, he said, had struck out the provisions requiring the payment of taxes before registration for voting and had inserted a provision that no person shall be imprisoned for non-payment of taxes or for debt.

North Carolina republicans felt keenly disappointed over the defeat of Senator Quay. As many of them as could find seats in the galleries were present when the vote was taken. Southern republicans have probably never had a better friend on the national committee. It is customary in this land of the free to abuse all political leaders.

He chafed in his bony fingers a paper the character of which, however, a few friends of Quay understood. It was an appeal from his long-time chum to aid a friend in need and vote for the resolution to seat him and thus save him from political ruin.

Now the question is, if Mr. Quay is the bad man some people say he is, would such a man as Senator Vest feel that way towards him?

Governor Taylor of Kentucky was present when the vote was taken in the Quay case and was afterwards engaged in conversation with a number of North Carolinians, who are contributing their mite towards his assistance by letting him have some court records.

Warren Vines Hall, president of the North Carolina state league of republican clubs, has been appointed an assistant sergeant-at-arms to serve at the national republican convention.

Owing to the fact that an erroneous report has been circulated North Carolina members in congress have recently been bombarded by applications for positions in the census department.

The national society of Colonial Dames of America has been in session here during the week. The North Carolina delegates are: Mrs. George W. Kidder, Mrs. Gaston Mears, Mrs. Emma Maffit, Mrs. Theodore F. Davidson, Mrs. Oroline G. Meares; alternates, Mrs. James Sprunt, Mrs. Clayton Giles, Mrs. Edwin Parker, Mrs. P. M. Wilson, Mrs. Hilliard.

Judge Adams, who has been here from Greensboro, left tonight for his home.

Beriff Hoskins is here from Greensboro.

Professor Horsford's

Scheme for separating matter by means of heat—one of the greatest discoveries of the present century—was discovered in 1858.

His idea to separate matter by the means of air or gas generated by heat. This idea was shown in a rude way, as far back as 1200 B. C., but was never made a success till 1858. Since that time the article which produces the gas has been perfected and surpasses anything in that line.

PAPER NOVELS. A carefully selected line of these. Also a large stock of New Books, Standard Works, Etc. I make a specialty of ordering rare and curious books. F. F. BAINBRIDGE, 47 Patton Avenue. BOOKSELLER.
