LETTERS OF CONGRATULATION.

Cotton Mills Appreciate Action Taken by Mr. Devenish

D. C. Devenish, treasurer of the Asheville cotton mills, is daily receiving congratulatory letters from the mills of the state for the action taken against Theo. Land for trying to take employees away from the mills.

This has been a menace to the state mills for years by various people, as the experienced operators were the ones taken away, leaving the mills to secure new and, of course, inexperienced men.

They have long been trying to prevent this but Mr. Devenish is the first to take legal steps against such people and it will be a lesson to them and also a precedent for the mills of the state.

The Paragon—opposite postoffice.

### CITY NEWS.

The Asheville Hardware Company.

Dr. J. H. Weaver will speak to men at the Y. M. C. A. this afternoon at 3:45.

The following have contributed to the Vance portrait fund: Mrs. Moses and Jas. M. Davis.

The First Regiment band gives the regular weekly concert at Lookout park this afternoon.

Edwin Hall, of New York, at the (old) Central Christian church this morning and night.

McConnell Brothers sold 100,000 pounds of watermelons on the Asheville market during the week ending last night.

The german at the Battery Park yesterday morning was well attended and everything combined to make it an enjoyable occasion.

Asheville Encampment No. 2 I. O. O. F. installed officers Friday evening. A number of applications for membership were received.

Train No 12. on the Southern from Knoxville yesterday, was four hours late caused by an engine breaking down. A freight engine was used to pull them and the time was lost in that way.

Tickets for the A. L. I. prize drill Monday night at the Swannanoa casino will be on sale at Carmichael's drug store and Swannanoa. The judges will be S. O. Smith, S. G. Bernard. There will be dancing after the drill.

C. F. Ray is making a series of pictures of the government Indian school at Cherokee, showing the buildings, pupils, etc., covering the working of the school, to be exhibited in the Pan-American exposition in Buffalo in 1901.

Clarence Cone, who has been one of the salesmen for the Cone Expert and Commission company here for nearly a year has been appointed secretary and treasurer of the Hucomuga mills at Greensboro and will leave tomorrow to take charge of the mills.

The excursion from Carlisle S. C., was due to leave yesterday at 2 o'clock, but did not leave until about 7. The manager had overloaded the coaches and the railway officials refused to let them return until he had paid for the proper number of coaches, with not more than sixty to a car, which is the contract number.

Donnan & Stevens have completed O. H. Henry's residence on Orange street. The building is a two-story one containing fourteen rooms with modern conveniences and the workmanship is of such character as to reflect credit on the contractors. Mr. Henry and family will return from Hendersonville today and occupy their new home.

### NEW SWITCHBOARD HERE.

Most Modern Board Built—Will be Installed at Once.

The new switchboard for the Asheville Telephone company arrived yesterday and will be installed as soon as possible, which will be about a week or ten days.

The board will weigh 8000 pounds and will take some time to put it in operation. It is the most improved switchboard in use today and is the most expensive ever brought south. It is the board which the Bell Telephone company has been using only in the larger cities. The frame work is all of steel and the wood work is all very fine.

The board has an immediate capacity of 1200 phones, and is wired already for 800, with an ultimate capacity of 1800. The conductors are wound with one wrapping of cotton and two of silk, the very best made. Every feature of the board is thoroughly up to date and the best that can be procured.

Each operator has every number in front of her in the space now required for only one section. She can attend her numbers without calling on another operator, with a consequent saving of time. When a subscriber rings, a key at the top falls on ringing off a different key falls. If a line is busy when called for the operator doesn't have to ask another if they are busy, but is notified by a click in her ear by what is called the "busy test" with no delay. The fact of saving the whole board in so small a space eliminates a great deal of lost current, as the operator uses only one pair of plugs and they are near together. The connections on the board are mechanically perfect, and when the company has it installed there will be fewer complaints of the service and they can put in all the telephones the public demand requires. No operator is obliged to wait for another to give connections; there are no "trunk lines" to be busy, and the perfection of the board will certainly give satisfaction.
