GREAT BRITAIN SUSPICIOUS

London Much Agitated Over the Proposals for Settlement in China.

Distrust of Russia and of Li Hung Chang.

Demand for Light and Leading From the Government.

United States' Position the Same as Announced July 3.

UNITED STATES MAY NOT WANT TO HEAR FROM ALL THE POWERS BEFORE WITHDRAWING ITS TROOPS FROM PEKIN.

London, Sept. 2.—Practically all preconceived ideas of what might be expected to happen as regards China in the immediate future have been upset by the publication of the Russo-American state papers. There is an insistent demand from the English press and public for light and leading from the government by all sides. Meanwhile in the absence of any lead Englishmen are confusingly formulating their own ideas, everything indicating an acute recrudescence of the spirit of Russophobia. The anxiety of a week ago as regards the attitude of Germany and Russia included the notion that they might possibly co-operate to forward their own special aims. Now apparently Russia, after supporting the kaiser over the appointment of Waldersee is taking a course calculated to stultify the German mission unless Germany and England co-operate to check matters in Russia. The majority of Englishmen intensely distrust Russia and Li Hung Chang, while the idea of abandoning Peking before some sort of movement is established with which it will be possible for the powers to deal is generally repugnant.

With the aspirations of the United States for a discovery of a solution insuring the integrity of China, coupled with the maintenance of treaty rights, equal trade, etc., there is hearty agreement here. England is opposed heartily and keenly to a treatment of the Chinese government which will render such a thing impossible but does not believe such a government obtainable by evacuating Peking and negotiating with Li Hung Chang. The American action is now generally ascribed to the political exigencies of the presidential election, combined with an over-trust in the fullness of Russia's bona fides.

NOT SIDING WITH RUSSIA.

Washington, Sept. 1.—There is much surprise expressed here at the apparent misunderstanding of the reply of the United States to Russia. The officials who framed it declare the answer is a complete disapproval of Russia's intentions. The United States decided to give full protection to American interests in China and will insist on the conditions of its note of July 3 being complied with and will act concurrently with other powers in attaining this result. The position of the United States on the occupation of Peking, however, is that the powers must be in perfect harmony on the question of occupying the capital.

In further elucidation of the answer of the United States a positive declaration is made by the officials here that the president and cabinet are opposed to Russia's proposition and have so notified not only Russia but the other powers.

One new point has developed today on the subject of withdrawal. It is that the United States may not wait to hear from all the powers before ordering Chaffee and the American troops to return to Tien Tsin. The receipt of a reply from any power stating definitely its intention to withdraw from Peking will result in immediate orders to Chaffee to do likewise.

BRYAN SPEAKS IN INDIANA.

Gives Especial Attention to His Paramount Issue.

South Bend, Ind., Sept. 1.—Bryan arrived here this afternoon. He was enthusiastically received both here and at LaPorte, where he spoke this afternoon. He spoke here tonight on the court house grounds. The speech consisted of a discussion of the issues of the campaign, but especial attention was given to imperialism. He said the truth was the republicans who inveighed against a double standard in money were trying to create a double standard in government. He declared they contended for democracy here and despotism in the isles of the sea.

KENTUCKY IN DOUBT.

Washington, Sept. 1.—Colonel W. H. Gentry, of Kentucky, a democrat and a member of Governor Beckham's staff, is out in an interview in an afternoon paper. He is quoted as saying that the electoral vote of Kentucky will be cast this fall for President McKinley. He told the president this morning that the democrats must look out for the interests of Governor Beckham, and see to it that he is elected, but when it came to the presidential ticket that was another thing. In an interview, after leaving the president, he said the people of Kentucky appreciated the course of the president with reference to the local difficulties there, when the president had been appealed to for federal interference, and that they were proud of the lofty Americanism of the administration. He said there was a good deal of feeling in Kentucky that Bryanism was not for the best and that the gold democrats generally would vote for McKinley.

POPULISTS ISSUE APPEAL FOR BRYAN AND STEVENSON

"Government by the People," in League With Red Shirt Party.

Lincoln, Sept. 1.—The populist national committee tonight issued an urgent appeal to the populist party voters of the United States. The appeal lauds the unselfishness of the party, and says in nominating Stevenson the party gave a sublime example of renunciation of partisanship. It expresses disappointment at the failure of the democrats to ratify the nomination of Towne, and says the populist party followed the only course left open to it by making both the standard bearers of the democratic party the standard bearers of the populists. It urges all populists to register on election day in favor of a government of the people and for the preservation of the republic.

AGAINST FURTHER AGITATION OF THE RACE QUESTION

Resolution Passed by the Piedmont Baptist Association

Greensboro, Sept. 1.—The Piedmont Baptist association, in session here this week, were addressed by Editor Bailey, of the Biblical Recorder; Rev. J. B. Boone, manager of the Thomasville orphanage, and others. The following was unanimously adopted:

Whereas the Baptists of North Carolina are making an earnest effort for the improvement of the religious condition of the colored people of the state, and

Whereas the discussion of the race question in political campaigns, by engendering prejudice and bitterness, is a hindrance to the work, we, as a Christian denomination, are doing among the negroes, and

Whereas we consider the race question settled politically in North Carolina and its further discussion unnecessary and harmful, therefore, be it

Resolved, That we most heartily commend the course of the editor of the Recorder in protesting against the discussion of the race question in the approaching campaign.

TERM OPENS SEPT. 19

Prospects for Term at Normal and Collegiate are Bright.

The Normal and Collegiate institute will open for the term of 1900-1901 September 19. There are splendid prospects for a very large attendance, and the corps of teachers this year is even more efficient than formerly. Two new teachers have been secured, one Miss Elizabeth Marshall, who will take the chair of latin, and the other, Miss Myrtle Bond, who will take the chair of mathematics. Miss Marshall is a graduate of the Worcester, Ohio, university, and an excellent teacher. Miss Bond is a graduate of the New York State normal at Potsdam, N. Y., and is an experienced worker.

The short hand, typewriting and bookkeeping department, under Miss Ford, is to be greatly enlarged and increased and entirely reorganized to make it as thorough a course in every way as can be secured. Miss Ford is a very capable teacher in this branch.

The remainder of Dr. Lawrence's corps of teachers are all efficient and instructed and consequently a most successful term may be expected.

Dr. Lawrence is developing a large spring which has the clearest and purest water in this locality. The spring will be lined with stone and the water pumped to the big reservoir. He will have abundance of the finest water to supply both schools now.

CHINESE TROOPS SAID TO BE MURDERING IMPERIAL OFFICIALS—GERMAN LEGATION TO BE ESTABLISHED AT SHANGHAI.

Paris, Sept. 1.—A despatch received here states that a Chinese force attacked the allies at Kang Chun and heavy losses were sustained by both sides. The despatch adds that a panic prevails at Amoy, the inhabitants fleeing. Everywhere machine guns of the Japanese dominate the city.

ENGLAND'S POSITION.

London, Sept. 1.—According to reports from Shanghai Great Britain has furnished Lieu Kuen Yih, the viceroy of Nankin and viceroy of Han Kow, with strong guarantees against the reported intention of the dowager empress to supersede him on account of alleged pro-foreign tendencies.

The imperial court, it is reported, remains at Tai Yuan Ku, capital of the province of Shan Si, afraid to move owing to stories of Chinese troops ravaging the country far and wide and even murdering imperial officials who have been trying to join the fugitive imperial court.

The foreign office here is apparently not yet ready to publicly declare Great Britain's position on the present situation, but all indications tend to confirm the belief that Lord Salisbury favors the principles contained in the American-Russian proposals, though possibly he may have some modification to suggest.

Besides the hearing of these cases a number of less important motions will be made.
