FIRST STRIKER PUT IN JAIL

Needs of Violence Committee Yesterday in Coal Region.

Hungarians Attack Men Returning From Work.

Union Presidents Take Headquarters at Wilkesbarre to Direct Strike.

Operators May Mass Men Who Are Willing to Work.

GIVE THEM PLENTY OF POLICE PROTECTION AND RUN A FEW COLLIERIES—EFFORTS DIRECTED AGAINST WEST END MINE TO FORCE MEN TO QUIT.

Wilkesbarre, Sept. 20.—The fight of the miners of the upper coal field is now directed against the West End mine. A force of organizers has been at Mocaqua since Sunday. Every effort has been made by the union to bring influence to bear on the workers at the mine but up to this evening they had induced only forty to quit. The colliery worked full time today with 430 men, and the operators say these cannot be induced to quit.

The presidents of the local unions today decided to make Wilkesbarre headquarters from which to direct the strike in the surrounding country and distribute funds and supplies.

Joseph Bogos, a Hungarian, was sent to jail today for compelling a miner to stop work, threatening to blow off his head if he didn't quit. He is the first striker to be imprisoned. The companies are still swearing in special policemen and placing them on guard at the collieries.

MAY TRY ANOTHER PLAN.

Scranton, Sept. 20.—The feature of the strike situation today was the closing down of the Barton colliery at Carbondale. The operators are about to play a strong card. It is not definitely known just what shape it will take but it is conjectured their scheme is to mass all the men willing to work at several collieries and put them in operation.

WORKERS MOBBED.

Hazleton, Sept. 2.—The most serious trouble yet in this vicinity occurred this evening when the men working at No. 40 mine of the Lehigh Valley company were waylaid on their way home by mobs numbering several hundreds and assaulted. Several men were badly beaten and will be laid up for some time. The police force was inadequate to protect the men.

HUNGARIANS MAKE ATTACKS.

Samokin, Sept. 20.—Near Green Ridge today Andrew Davis, a fire boss, was assaulted by Hungarians with coupling pins. He was seriously injured and his skull fractured. Later a party of Hungarians stopped a trolley car loaded with miners enroute to their work and chased them home. All but two collieries were idle in this section today.

PRESIDENT PREPARING A NOTE TO THE POWERS

Boxers Must be Punished—Teliu Destroyed by the Allies.

Washington, Sept. 20.—The president's return to Washington is to be marked by another step toward the settlement of the Chinese question. He is preparing a note to the powers which will reject Germany's proposal for punishment of the guilty leaders of the boxers, as a condition precedent to the beginning of peace negotiations. The note will probably favor the request of Prince Ching that Conger be instructed to begin negotiations for peace.

PLOT TO RECAPTURE PEKIN.

Peikin, Sept. 7.—A Chinaman who arrived from Shun Yi says forty-eight Mongol tribes with a number of boxers

are gathering at Shun Yi with the intention of recapturing Peikin. TELIU DESTROYED.

London, Sept. 20.—The secretary of state for India received a despatch from Tien Tsin, dated September 12, saying that the allies had occupied the boxers headquarters at Teliu Tenth. The enemy fled in the direction of Sheng Fang. Teliu was destroyed. Yokohama, Sept. 7, via Victoria, Sept. 20.—The country is tremendously stirred up by the discussion of Russia's proposition to withdraw from Pekin.

While there is no fear of Russia there is the deepest distrust of her diplomacy, and a conviction that an alliance exists between the Muscovite power and the empress dowager's government. The political situation here now hangs upon the outcome of the Russian question.

An account has just reached here of the straits to which the Pekin garrison was reduced from lack of ammunition during the last days of the siege. Every scrap of metal, no matter how valuable, was utilized, and it is said that the enemy was greatly encouraged when silver bullets were rained upon them, this being an intimation of the failure of the garrison's supply of ammunition.

LOOT FROM TIEN TSIN SEIZED. San Francisco, Sept. 20.—The revenue officers have brought down from Mare Island navy yard on a government tug 154 cases of rare oriental goods which had been smuggled into this country on the hospital ship Solace. The articles seized would net a small fortune. The duty is nearly 60 per cent of the value of the goods, and on this account most of the stuff which includes loot from Tien Tsin, will probably be abandoned to the government. The cases of silks and curios are addressed to persons all over the United States.

BOER ARMY SCATTERED, ACCORDING TO ROBERTS

Only a Few Marauding Bands Remain—Big Guns Destroyed.

London, Sept. 20.—Lord Roberts cabled from Neilspruit on the Pretoria-Delagoa Bay railroad, not far from Komatipoort, the frontier station under date of Wednesday, September 19, as follows:

Of the three thousand Boers who retreated from Komatipoort before the British advance from Machadorp seven hundred have entered Portuguese territory, others have deserted in various directions and the balance are reported to have crossed the Komati river and to be occupying spurs of the Lombo mountain south of the railway.

A general tumult seems to have occurred when they recognized the helplessness of their cause. Their long toms, field guns, have been destroyed, and nothing is left of the Boer army but a few marauding bands. Kelly-Kenny is dealing with one of these which occupies a position at Doornberg.

CRITICISES HOLLAND.

New York, Sept. 20.—The Standard commenting upon the statement that President Kruger has accepted an offer of the Dutch government to convey him to Europe on a warship, says that the Tribune's London correspondent, says that England has a right to expect that a country which is still diplomatically friendly shall not display officious and effusive patronage of an enemy of England. By adopting that line it makes itself its partisan and renders itself liable to be called on for explanations.

MARTIAL LAW CEASES AT NOON

Civil Authorities Will Assume Control of Municipal Affairs at Galveston.

Soldiers Will Remain Some Time Yet.

Shooting of the Ten Negro Looters Has Checked Criminals.

Labor at Premium and Orders Issued to Impress Every Able Man.

GALVESTON ETAOI TAOI CATHOLIC CHURCH SUSTAINED

PROPERTY LOSS OF \$326,000, BESIDE DEATH OF TEN SISTERS OF CHARITY, 30 ORPHANS AND 1100 COMMUNICANTS.

Galveston, Sept. 20.—Mayor Jones proclaimed that martial law will cease at noon tomorrow and the civil authorities will assume the direction of municipal affairs. This does not mean, however, the withdrawal of the military. They will be used as a check on criminals and will probably remain for the next twenty days. The shooting of the militiamen of the negro looters has had a good effect, but still there are cases of robbery daily reported, which are being dealt with severely.

Labor in Galveston is at a premium. Today orders will be issued to impress every able-bodied man for street cleaning. There are over 2,000 men engaged in the work but they are not sufficient. The work of removing the dead from the debris and burning the bodies continues.

The bishop of the Catholic church says the church has sustained a property loss of \$326,000 and ten Sisters of Charity, thirty orphans and 1,100 communicants perished.

TEXAS TOWNS NEEDING RELIEF.

Houston, Texas, Sept. 20.—Official reports of conditions at interior towns have begun to come in from the agents sent out by S. Talliferro, Governor Sawyer's agent for the relief of that section visited by the storm outside of Galveston and Harris county. Following are summaries of reports so far received showing the conditions at towns on the Santa Fe. There are probably fifty small towns which are in just as bad shape and from which reports have not yet been received, but which are being supplied with provisions, clothing and drugs from Houston by the committee.

Alvin—In the town of Alvin and vicinity there are probably six houses on blocks out of a total of 1,000. The population of Alvin now to be fed is about 1,500. Manvel, 250, Liverpool and surrounding country, about 2,500, making a total of 5,000 people under the supervision of the Alvin committee. The committee admits having a sufficient amount of clothing. They have received a cash subscription of about \$2,000, have spent \$400. Have received two cars of flour from Dallas, one car of meat from Dallas, one car of mixed goods from Tyler. Along the bay shore from Virginia point to Liverpool, for a space of six or eight miles from the bay front, there are many thousands of dead cattle that should be immediately cremated or properly looked after.

Arcadia—In the town there are 300 destitute people and those in the immediate vicinity will make the aggregate 500. Provisions already supplied sufficient for immediate needs only.

Hitchcock—In this town and immediate vicinity are more than 500 people destitute. Of about 300 houses only about ten are standing. A wave of salt water from 4 to 10 feet in depth covered this section; thirty-eight lives were lost; and for the time being it is feared that the soil has been seriously damaged by the effect of salt water. Supplies of provisions were sent them yesterday.

There are probably 10,000 dead cattle within a space of a few miles south and surrounding the town, and every house should be supplied for at least ten days with disinfectants. Fever is setting in here and Dr. J. L. Scott of Houston went there yesterday. An idea of the velocity of the wind and wave of salt water that swept over this im-

mediate section may be imagined when it is known that the Texas City dredge boat is now lying high and dry in a garden at this place, a distance of eight miles or more from its moorings. Alta Loma—This committee reports about 75 families of 300 persons to be cared for. Have received 530 rations. People have no money and their property destroyed.

In the neighborhood of 100 houses existed; 40 destroyed and about 20 untenable. There are about 4 houses now on blocks. Two lives were lost. The population is mainly of northern people. A shipment was made them of provisions and medicines but other things are not needed at once.

UTAH SENATOR APPOINTED DURING GOVERNOR'S ABSENCE

Judge O. W. Powers Given the Place by a Sharp Trick.

Chicago, Sept. 20.—A special to the Tribune from Salt Lake, Utah, says: While Governor Wells and Secretary of State Hammond were in Idaho last night to meet Governor Roosevelt and escort him to this city, Judge O. W. Powers, of Salt Lake, a democrat, was appointed United States senator.

The appointment was made by Aquila Nebecker, president of the senate, who is acting governor according to the constitution. It was signed a little while before midnight at which time the train bearing Governor Wells was expected to cross the line into Utah.

The last legislature was democratic although the state officers are republican. There was a bitter fight for the senatorship between A. W. McCune, of Salt Lake, and Congressman W. H. King. An adjournment was taken without breaking the deadlock. The seat has remained vacant. The demagogue discovered last night they had the acting governor. Mr. Nebecker consulted a lawyer and was told he had power to make the appointment. He accordingly did so. The state seal was locked up and could not be obtained, but Mr. Nebecker's legal advisers maintain his action was valid anyway.

The appointment was drawn carefully in legal form, signed and witnessed. A formal acceptance will be filed with the secretary of state.

DEWEY SPEAKS REGARDING HOBSON'S STATEMENT

Doesn't Think Lieutenant Meant to Say Anything Unkind.

Oakdale, L. I., Sept. 20.—Admiral Dewey, who is the guest of his brother-in-law, Admiral Ludlow, at the latter's home here, was interviewed today regarding Hobson's assertion that the shells of the American fleet did not sink the Spanish ships at Manila. Dewey said he hardly thought Hobson meant to say anything unkind. He added, "To be precise, I never said we sunk the ships. I reported that we destroyed them." He declared he saw with his own eyes an eight-inch shell destroy Admiral Montejó's flagship. Little damage he said, would be done to ships under the water line anyway.

WILL SUPPORT BLACKBURN

Eighth District Populist Committee Issues a Statement.

Buxton Represents Red Shirt Democracy.

Blackburn Stands for Human Liberty and a Free Ballot.

Self Respecting Populist Can't Support Bryan and Stevenson.

POPULISTS MAY SELECT THE BEST CANDIDATES OUT OF THE DIFFERENT PARTIES FOR PRESIDENT AND VOTE AS THEIR JUDGMENT DICTATES.

Morganton, N. C., Sept. 2.—The following address has been issued to the populists of the Eighth congressional district:

We, your executive committee, in meeting assembled at Lenoir, N. C., after careful consultation and deliberation, having the best interests of our party and the country at heart, do issue this our address to our brethren of this district and to all others who favor good government by a free ballot and fair count.

Twelve months ago, or even six months ago when it was understood that Mr. W. J. Brayn was to lead the great free silver forces of this nation to victory, and the party behind him in order to prove their good faith and combine all the forces and factions favoring this plank in the platform agreed to nominate as a running mate with Mr. Bryan a free silver republican or a true populist; but instead, and over the protest of our great leader, Marion Butler, chairman of the national executive committee of the people's party, they have put forward a candidate for vice president with Mr. Bryan, Adlai Stevenson, who was second in command in the Cleveland defunct administration; therefore no greater insult could be offered to any populist in the nation.

Further, we contend that no self-respecting populist in the state will or can support Bryan and Stevenson after the treatment that the populists in this state have received from the hands of the leading democrats and so-called champions of Bryan and Stevenson. "Truth crushed to earth will rise again." Drunken mobs, red shirts, rotten egg hoodlums, intimidation, fraud and ballot box stuffing cannot succeed long at a time in a state or nation; reaction will take place and the principles inculcated by the populist party are bound to succeed sooner or later. Under existing circumstances this year in this state it will not be considered disloyal for populists to select the best men among all the candidates out of the different parties for president and vote as their better judgment dictates, and to those populists who have burned the bridges behind them and have been in the middle of the road from the beginning it goes without saying that they will heartily support Wharton J. Barker, of Pennsylvania, for president, and Ignatius Donnelly for vice president, both standard bearers of the principles that underlie the grandest party that this nation has ever given birth to, namely the populist party.

Your committee heartily endorses the sentiment expressed in the leading editorial of the Caucasian of September 6, and trust that every populist will act accordingly. Who will we support for congress? Your committee has carefully sur-
