A Study in Mauve.

One of the Beautiful Gowns in the Trousseau of Charming Mrs. McKinley-Baer.

That interesting young woman, Mrs. Hermanus-Baer, formerly Miss Mabel McKinley and niece of President McKinley, is still the most talked about person in society at present, because of the beauty and elegance of her gowns.

A point that probably adds greatly to the interest of her toilettes is that Mrs. Baer designed them all herself and in doing so has displayed exceptional talent both as an artist and a modiste.

FOR THE PRESIDENT'S NIECE.

One of the daintiest of her house gowns is composed of pastel mauve crepe de chine with mauve mousseline de soie arranged in a shirred yoke above the bustline. The crepe de chine is embroidered in raised disc-shaped figures, tinted mauve. The skirt has an oddly fashioned tunic cut in deep points at the sides with only a single point at the back. This is bordered with mauve velvet appliqued with cream Russian lace. The tunic opens over a tucked-up crepe de chine band about two inches wide. The bodice is also trimmed with the velvet and is supported by shoulder straps of the same material appliqued with cream Russian lace. A single band of the velvet is fastened at the underarm seams and brought down below the beltline at the front, thus lending an indescribable air of chic to the figure.

A Prominent Memphian Writes.
Dr. H. Mozley, Atlanta.—Having been a great sufferer for three years from indigestion, and been treated by many physicians, who failed to give me any relief. Continuing to grow worse, my brother advised me to try Dr. Mozley's Lemon Elixir, which remedy he had used for several years. I commenced its use and must say that your Lemon Elixir is the greatest medicine on earth. I have never suffered a day since I commenced using Lemon Elixir.

The Oldest Shopkeeper.

A man who is old enough to have played at marbles with his compatriot Tom Moore; who was ten years old when news of the Reign of Terror in Paris first reached England, and who was earning his living before the cannon boomed at Trafalgar, has some title to be considered the oldest of Queen Victoria's subjects. This distinction Mr. Robert Taylor, of Scarva, county Down, adds those of being the oldest living postmaster and shopkeeper in the world. Ever since George IV. was King he has been responsible for His or Her Majesty's mails, and so exuberant is the old gentleman's loyalty that he floats the Union Jack triumphantly from his flag staff from January to December. His loyalty to the flag is just as pronounced to-day as when he fought under its folds 90 years ago. Mr. Taylor is an apostle of plain living if not of high thinking, and believes in occupation as the surest way to happiness as well as to length of days.

Dr. W. H. Lewis, Lawrenceville, Va., writes "I am using Kodol Dyspepsia Cure in my practice against severe cases of indigestion and find it an admirable remedy." Many hundreds of physicians depend on the use of Kodol Dyspepsia Cure in stomach troubles. It digests what you eat, and allows you to eat all the good food you need, providing you do not overload your stomach. Gives instant relief and a permanent cure. Dr. T. C. Smith.

You Can Change Their Colors.

Few people know what an extraordinary effect ammonia has on flowers. You can try it with an ordinary smelling bottle.
Blue and purple flowers turn green, red turn black, white generally yellow. The effect is very curious if you try the vapor on any flower which combines in itself many colors. The flowers, if placed in pure water, will retain their color for some hours, and then gradually return to their old ones. Aster flowers, in a state of nature inodorous, acquire a pleasant perfume under the influence of ammonia.

EA'E AND DISEASE.

A Short Lesson on the Meaning of a Familiar Word.

Disease is the deposit of case. Webster defines disease as "lack of ease, uneasiness, trouble, vexation, disquiet." It is a condition due to some derangement of the physical organism. A vast majority of the "dis-ease" from which people suffer is due to impure blood. Disease of this kind is cured by Hood's Sarsaparilla, which purifies, soothes and vitalizes the blood. Hood's Sarsaparilla cures scrofula, salt rheum, pimples and all eruptions. It tones the stomach and creates a good appetite, and it gives vigor and vitality to the whole body. It reverses the condition of things, giving health, comfort and ease in place of disease.

"MOTHER'S FRIEND"
(that marvelous liniment) is unique in relieving and relaxing all the strained tendons and muscles, as well as the distended organs. There is nothing like it.

"It was so easy!" I have had Mrs. LUCINA PASCHER, Lambert, Ark., prove the above statement when she says: "I have had six children and was always in labor from twenty-four to thirty hours. This time I used only one bottle of 'Mother's Friend' with my seventh child and was in labor only about four hours. 'Mother's Friend' is just what is recommended to be. I will never be without it again."
