New York, Nov. 9 .- Cotton in Liverpool advanced 3-32d on spots and 5-64d on futures in anticipation of a killing frost, which was confirmed by wire this morning from Mississippi, Alabama, Georgia, Carolinas and Memphis. This market opened about 14 points higher and ruled active and firm for a brief period, then reacted sharply on realizing sales for local and southern account. Since noon there was a further improvement of about 6 points on further covering by shorts and new buying. The longs were the principal sellers. There was no disposition to take the short side of the market, fearing that the frost reports may stimulate speculation and the consumptive demand, particularly if the crops should be estimated at not over 10,000,000 bales.

CONVENTION AT ALL SOULS' CHURCH

CLOSED ITS SESSIONS YESTERDAY AND WILL MEET NEXT JUNE AT HENDERSONVULLE.

Attention Called to the Matter of Prison Reform.

Committee to Make Suggestion as to the Most Practicable Remedies and Invite Co-operation of Other Christian People.

The sessions of the convention of the Protestant Episcopal church at All Souls' church, Biltmore, closed yesterday. There was a celebration of the Holy Communion at 9 o'clock. At 10 o'clock Bishop Horner delivered nis

annual address. Rev. A. H. Stubbs, Rev. R. R. Swope, Charles McNamee and H. D. Child were elected members of the edu-

cational committee. Rev. Churchill Satterlee and Charles McNamee were elected deputies to the tri-ennial general convention of the church which meets next year, and the Rev. McNeely DuBose and Captain T. W. Patton were elected as alternates. Charles McNamee was elected as one of the trustees of the district. Rev. McNeely DuBose, John H. Pearson and Captain T. W. Patton were elected trustees of the University of the South at Sewamee. Tenn. land Rev. T.C. Wetmore and O. M. Royster as trustees of St. Mary's school, Raleigh.

The treasurer's report was adopted Captain T. W. Patton was re-elected treasurer. The report on the state of the church showed a gratifying increase in the offerings for district an l general missions. The reports of the missionary committee and education committee were read and referred to the committee on the state of the

The following resolution was carried by a rising vote: Resolved. That this convention has

learned with sorrow the great affliction which has come to the Rev. John A. Deal and his family, and that the secretary be requested to convey to Mr. and Mrs. Deal our loving sympathy and regret at his unavoidable absence from this meeting of the convention.

Votes of thanks to Rev. R. R. Swope for his generous services as secretary for the past year and to the All Souls' parish for its hospitable entertainment of the convention having been passed, the convention took a recess until 3 o'clock. In the interval the delegates were hospitably entertained at luncheon by the ladies of the

At the afternoon session a report from the woman's auxiliary was read and refererd to the committee on the state of the church. Various questions came up with reference to the convention Journal. It was proposed that instead of the descriptive matter about the parishes and missions that has heretofore taken up many pages of the journal, the essential information should be printed in tabulated form. This was adopted It was decided to publish five hundred copies of the journal.

The work of the session was not all of a routine mature. One matter was brought up whose interest transcends denominational lines and whose vital importance to the community cannot be easily overestimated. Capt. T. W. Faltton called attention to the condition of Buncombe county jail, and also of other jails in the district. He introduced the following resolutions, which were pass-

Besolved, That it is the sense of the convention that the condition of the common jails and other prisons in the several counties of this district as the same has been represented to this convention is such as to arouse the attention and interest of Christian people; that the clergy and laity of this district are urged ever to remember the words of our blessed Lord, "Inasmucn as ye have visited one of these" in prison "ye have visited me."

Resolved, That the bishop be requested to appoint a committee of three of which he shall be a member to aid him in presenting to the next convention such facts bearing on this subject as may be gathered during the intervening time, and to make suggestion as to the most practicable remedies, which committee shall be entitled "the

prison reform committee.' Resolved, That the committee above provided for shall co-operate with the prison reform association and invite the co-operation of any other Christian people in any measure of amendment that may be suggested and approved by the committee between this time and the meeting of the next convention to which it will make full report of its

It wit be seen from the resolutions that the committee is not merely to investigate and report, but also to invite the cooperation of other Christian people.

The question of a district paper was brought before the convention, the management of the Crusader that being prepared to carry on the work without some modification of present conditions. A committee consisting of Rev. Church-ill Satterlee Rev. R. R. Swope, and Charles McNamee together with Bishop Horner, was appointed with power to

act.
The time of meeting of the convention was changed to the second Wednesday in June and the district year is to end convention to hold its next meeting at St. James church, Hendersonville, and the invitation was accepted.

FIRE AT BIL XI

Hundreds Homeless-Churches and Business Houses Burned.

New Orleans, Nov. 9 .- Upward of 78 houses have been destroyed by fir at Biloxi the well known summer resort and business center on the Mississippi sound eight miles from New Orleans. The fire broke out hortly after midnight and a heavy gale blew the flames from the Louisville and Nashville depot to the beach. The small fire department was powerless to stay the flames and the houses had to be torn down in various parts of the city to

check the spread of the conflagration. The Catholic church, convent and schools, newspaper offices and many business houses and residences have been consumed. The fire was still burning furiously at daybreak. Hundreds have been rendered homeless.

The inhabitants were panic stricken when the last reports reached here from the stricken town. It is said the loss will exceed \$300,000.

PEI HO WILL FREEZE.

Vienna, Nov. 9.-A high Austrian naval officer now in service in the far east has written a letter to a friend here, in which he says that the troops in China can maintain connections with the fleet until the end of November, but after that date the Pei Ho will be frozen over and the flerce winter snewstorms will drive away the fleet. Thus before that time it will be absolutely necessary for the allied powers to have secured control of the railway between Shanghai and interior points. Otherwise the troops will be unable to get reinforcements in case the Chinese an awful winter try to repeat the catastrophe that overcame Naoleon at

TREACHEROUS LAKE ERIE.

Chicago, Nov. 9 .- The terrible storm on Lake Erie continues today with anabated fury. Last night there was much damage to shipping. The capof the passenger steamer City of Erie, which arrived early today from Buffalo, reports that he sighted the mast of a sunken vessel sticking out of the water, about 25 miles off this port.

There were no tidings this morning of the steamer Kaliyuga which was reported last night to be adrift and helpless 35 miles off Cleveland. When sighted she was laboring heavily.

NOT SOLD PORTLAND MINE

Colorado Springs, Colo., Nov. 9 .-The reported sale of the Portland mine for \$15,000,000 to an English syndicate is denied. F. W. Bradley, consulting engineer for the Exploration company of London, has made an examination of the property and reported favorably, but according to the officers of the Portland company no offer for the mine has yet been made.

TO RAISE THE MAINE.

Havana, Nov. 9 .- The captain of the port, Young, will shortly issue requests for offers to raise the battleship Maine.

EUROPEAN COAL CRISIS.

Continue for Some Time to Come.

It has remained for the French afbassador to London, M. Cambon, to furnish a new and more or less original reason for the demand in Europe of American coal. The reason is one that need not give American shippers iousness, Sour Stomach, any concern regarding the future of American coal contracts with the old country. If existing conditions in the everywhere, 25c. per box. coal trade of Europe have stimulated a demand for the American product under present conditions, they will continue to do so for some time to come. After discussing the rise in prices during the last two years, through which buyers of English coal everywhere have paid something like \$330. 000,000 above the prices charged prior to the crisis, the French ambassador announces that four causes which are held responsible for the increased dedemand for coal are not in reality those to which the prevalent scarcity should be charged; these are, the state of the mines, the South African war, excessive exportation and the ordinary requirements of trade.

M. Chambon declares, after careful investigation into all the causes assigned, that the real reason for the existing scarcity of coal in Europe is due to the general increase of trade and industry, which has not been accompanoutput.

Europe generally during the past two years and a half has experienced a commercial and industrial revival second only to that of the United States. There has been a corresponding increase in the demand for coal, which has not been supplied either by the collieries of England, Germany or France. The consequence was a rise in prices everywhere. Available stocks vanished and the market was forced to depend on the daily output of the mines, which had the effect of making the mine owners masters of the situation. They were unequal to the

This condition, according to the disinguished investigator, will continue for some time to come. The situation will continue in its present condition as long as prosperity continues to prevail in the industrial centres of Europe. This is entirely independent of industrial situations in the United States, and the demand for American coal is therefore liable to continue for in indefinite period.

MISS EMILY MARSHALL

"Lovliest Woman in All America"

'Margaret Fuller once expressed the willingness to exchange her fine intellect and all her accomplishments for the beauty and attractiveness of Emily Marshall" (who had been her schoolmate), writes William Perrine of "The Loveliest Weman in all America," in the November Ladies' Home Journal. "'Miss Warshall stood before us a reversion to that faultless type of struc-ture which artists have imagined in the past and to that ideal loveliness of disposition which poets have fancied in the golden age, was the verdict of forces should rally and in the midst of a Boston gallant, one of the fair beauty's neighbors. Y worded in after life when his judgmen wis unprejudice 1. Such was the homage which the people of Boston would sometimes bestow upon Miss Marshall that one night when Daniel ebster, when beginning his career in the United States senate, visited the Federal street theater the applause which the audience showered upon him was not greater than the cheers with which it welcomed the divine Emily. In New York she caused such a sensation that one morning 19 gentlemen at one time were seen in her escort, and 60 left their cards for her. When she went to such summer resorts as Saratoga the crowds at the hotel would form a lane through which she might pass as they waited to view her going to and from her coach, and it is a Philadelphia tradition that when she visited that city one of the schools was closed earlier than the usual hour to give the young girls a chance to see the famous belle. Indeed, women looked upon her with an admiration which

FOR THE SICK AND SUFFERING OF ASHEVILLE

What will the poor women do tomorrow when their children cry from the cold and hunger? Why go to the Flower Mission (the best known name for Asheville's associated charity) and get orders as in the dozen years of the past. They may expect a visit from the superintendent of their ward, who is out looking for cases of distress in times like these. But they will be disappointed. She will not go, and why? There are no funds in the treasury to supply even the most pressing wants. Even the sick must suffer unless the superintendent is able to help them from her private purse or enlist the sympathy of friends.

The office at the city hall will be crowded with needy applicants who must go away unrelieved, because there is nothing in the shape of food or clothing to be given, and it was resolved at the last monthly meeting that no orders should be issued, as even the expenditures of last month were unsettled.

Do you know what it means to be hungry and shiver with cold? If you do not try going without your breakfast and dinner and sit down in a cold and cheerless room. Probably you will not need such an experience to have your heart moved with compassion for the sick and suffering. If any induceied by a corresponding increase in (ment is needed to incline you to give relief read Psalm 41:1, 2, 3 verses.

Cash donations may be sent to Mrs. W. C. Carmichael, president of the Flower Mission, and food, fuel and clothing to the office, city hall, from 2 to 5 o'clock p. m.
