bales of cotton were sold. In November 1899, the receipts were 3,475 bales. The price this year is 9 5-8 as against 7 5-8 last year. The total amount of cotton sold here from September 1 to December 1, 1899 was 9,785, and for the corresponding period this year, 11,235 bales.

It is stated that there will be a rush to engage in the whiskey business at Greensboro as soon as the dispensary shall have been abolished. Already two or three buildings have been leased by persons who expect to open saloons. It s the general opinion that license on saloons will be just double to what it was prior to the opening of the dispensary. The city license was formerly \$500 a year.

Dr. F. T. Foard of Jugtown, was in the city Monday. While here he showed us a fine specimen of lead which he has just discovered on his "upper farm" as he calls it. The specimen he showed us was plowed up with a two-horse plow. He has not dug any for it but says the indications are that there is an immense amount of it.-Hickory Times-Mercury.

Polkton is to have a spoke and handle factory. The machinery for the factory is now being placed and the manufacture of the fine lumber of Brown's creek swamps into spokes and handles will commence at an early date. The factory is being established by Messrs. H. C. Dockery & Co. Mr. John Dockery of Rockingham who is a son of Mr. H. C. Dockery, will superintend the work. It is probable that the company will also manufacture sash, doors and blinds later on .- Wadesboro Messenger

The Raleigh Ice and Electric company purchased some months ago the water power on Neuse river known as Milburnie, and are now engaged in erecting a complete modern electric generating plant to be operated by water power. The dam, which is 470 feet long is about completed. It is built of wood in the most substantial manner and rests on natural bed rock. The abutments on either end are solid masonry.

The white man, Jubal Gooch who was shot yesterday afternoon nine miles from here his 20-year-old son George died a few hours afterwards. His son was found at the house of a neighbor, a quarter of a mile away, and was brought here and jailed. The face of Jubal Gooch was literally blown to pieces by the two loads in a shot gun. Hef For sale by C. A. Rayser. Even the wads were in the head. The defense of George was protection to his mother, who was being cruelly beaten, George will be given a hearing tomor. row before a magistrate here.—Raleigh cor. Charlotte Observer.

Rev. T. H. Sutton informs us that he gave a nickel to several of his congregation here last year and asked them to invest it and make all they could for missionary purposes. One young lady invested her five cents and reported an increase of \$25 at the end of the year A good brother invested his nickel in cotton seed and planted them and sold the product for \$14. Another brother invested his in Irish potatoes which he sold for \$13. If this is not good business we do not know what is. Surely such increase in a year from the investment of five cents shows tact, energy and good business sense. It might not be amiss for the merchants and newspaper men of LaGrange to apply to these persons for a few lessons in business.-LaGrange Sentinel.

Yesterday morning about 9 o'clock George Gooch, a young man just about grown shot and perhaps fatally wounded his father, Jubal Gooch. The shooting took place near New Hope church about seven miles from Raleigh. From the accounts given of the affair, it beems that the wounded man, who was drunk, was beating his wife, and had knocked her down when he was shot by his son. There was a hog killing at the Gooch home and a number of the neighbors were present assisting in the work. Gooch went in the house, ostensibly to get a pail of lard, and in a few minutes the noise of a scuffle was heard. George Gooch went into the house and almost immediately there was the report of a gun. When the neighbors ran in Jubal Gooch was lying on the floor, the entire charge of small shot and the wadding having taken effect in the face and eyes. The boy went to a neighbor's, but made no that sufferers may test it a trial bettle resistance when later in the day he was given away. Write for it. Address moved until the arrival of a physician. It is said that Gooch, when drinking is a very disagreeable character. and that he has not only beaten his wife fre quently, but that he has attempted to shoot her. He is a plasterer by trade and about 56 years old. His son, who shot him is about 20 years old, and has always borne a fair reputation .- News and Observer.

Serving the Dinner.

It is not good style to pile the dinner plates before the carver's place and pass them from thence. A plate should be put at every place. The maid then takes the plate from the carver and hands it to the person, taking the plate at his place back to the carver. If there is no waitress, the full plate is passed and the place plate returned from hand to hand. If soup is served, the soup plate is set upon the place plate. There is, however, no plate under the salad plate. Correct serving requires a plate at every place except where the table is being cleared for the descert.
