

THE MARKETS BY TELEGRAPH Yesterday's Quotations on the New York Exchanges Chicago Grain Market

THE ERIE ISSUE CONSPICUOUS Highest, Lowest and Closing Prices For Active Stocks Cotton Market Point.

Reported by Murphy & Co. Brokers, 11 Church street, Asheville.

New York, March 22.—As might have been expected in view of the tremendous activity in those stocks in the later dealings of yesterday the Erie issues were the conspicuous features of this morning's market at the opening of business. Substantial advances were shown in all classes of these stocks and the bond issues of same capital were likewise exceedingly strong and strong features of the railway list were in St. L. and S. F. which was attended by reports that a dividend will strong features of the railway list were Burlington, the Wash issues and notably the Southern Railway shares. St. Paul and Rock Island were also in good demand. The industrial quarter was there being in sugar refining in which case the changes were limited. There were active dealings in B. R. T. and Manhattan with a sharp advance showing in the last named. London sent in a higher range of prices for American stocks and all divisions of the market there were reported very strong chiefly on account of the settlement of the Anglo-Russian dispute in China. Foreign houses were liberal buyers here at the opening of business. There was little novel presented for consideration in this morning's news.

COTTON. New York March 22.—Cotton advices from Liverpool today were much better than expected and Europe sent liberal orders to buy at opening. Liverpool spots 3-8-2 d. higher and futures advanced 9-64 d. near 10-64 for months and closed at best. Liverpool stood about 15 to 20 points higher for spring and summer months but it has ruled feverish and easier during the forenoon, owing to free offerings despite the stimulating advices from Liverpool and better outlook for politics in China.

CHICAGO Chicago March 22.—The trade in wheat was influenced again by disappointing cable and a little foreign selling. Prices dropping during the morning rather easily. The English markets were 3-8 to 3-4 d. lower and continental markets were dull and heavy while there was a little foreign selling. Just enough to discourage trade. Argentine exports were rather liberal, 2,016,000 bushels, making 11,235,000 bushels for the season or just half of last year's. The weather conditions west were not unfavorable and were generally clear throughout the west and northwest. Estimates of the viable pointed to another decrease on Monday. Wheat was dull and firm in the afternoon with reports of good export enquiry. Northwest stocks pointed to 150,000 bushels net increase and there was talk of larger spring movement. The close was steady. CORN: There was an easier feeling in the corn market with the trade a little inclined to heaviness following the decline in wheat and influenced by the heaviness in pork. May breaking to 15 90. Weather conditions were favor-

able for moving corn. Wheat was firm in the afternoon with light offerings and the close was steady. PROVISIONS: The trade in hog products was nervous and unsettled. Pork was out and that the trade was largely in the way of selling. Lard and ribs were light however, only 34,000 at the three points with prices about steady. Provisions were quiet in the afternoon partially recovering.

DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Dr. H. I. Catarrh Cure. Send for circular free. F. J. CHENEY & CO. Toledo, O. Sold by all druggists, 75c. Hall's Family Pills are the best.

Gleanings From the Columns of the Local Papers in Various Towns of State. Farm work has progressed more satisfactorily this month than either of the two previous ones. The contrast between the quality of work done this year and last should be vivid in the minds of all.—Tarboro Southern.

Mr. George Woodroffe, of the Mt. Airy Granite Works, was in the city Saturday afternoon on his way north. While in here he escorted a Record man to the Southern Railway yard and showed him an immense rectangular granite block, measuring 16 feet 8 inches, by 5 feet 6 inches, by 3 feet 6 inches, and weighing 53,000 pounds. After being dressed it will measure 16 feet 3 inches by 5 feet 4 inches, by 3 feet 3 inches. This block of granite is quite a record breaker, being by far the largest ever shipped from this State. Its place of destination is Philadelphia. It is what the quarry people call a mill block and will be used by a Philadelphia firm. The capacity of the large flat car it occupied is 60,000 pounds, but on account of this large stone being so bulky it takes the full capacity of the car. There were in the same train two or three more cars carrying blocks of granite measuring as much as half of this giant piece.—Greensboro Record.

Laundry Machinery. "Some idea of the variety in which laundry machinery is now made," said a dealer, "may be gained from the fact that in one catalogue of such appliances there are to be found about 300 numbers. One maker produces washing machines in 80 varieties. These include machines of different sizes, materials and weights adapted to all manner of uses. "Of ironing machines there are nowadays many, including machines specially designed for ironing particular parts, as bands, collars and cuffs, and then there are mangles in great variety, some of them big machines weighing many tons, made for the ironing of flat goods only, and so on. There is more or less hand laundry work in one branch and another, but there is now no work done in laundries for which machines cannot be had."—New York Sun.

He'd Sooner Walk. At a funeral some time ago two old men, after a long discussion on the good qualities of the deceased, turned their conversation to the dilapidated appearance of the horse which bore the remains of "poor Con Conway" to their last resting place. "Well, now, Mickey," said one to the other earnestly, "I wonder greatly at Biddy to put her husband in that old hearse." "Aye, troth, you're right there, Pat," answered his companion absentmindedly. "Sure, I'd sooner walk than be seen going to my grave in that old yoke."—London Spare Moments.

Hard Hit. "Say," said his little brother, "gimme a nickel?" "Why, Tommy," exclaimed her suitor, "are you in the habit of asking people for nickels?" "No; I generly ask for a penny, but I heard ma telling sis this afternoon that you didn't have a penny to your name."—Exchange.
