Chicago Grain Market ADVANCES SCORED

IN EVERY QUARTER

Highest, Lowest and Closi Prices For Active Stocks Cotton Market Point.

New York, April 12.-The stock market opened active and feverish with des olines and advances in comparison with last night's figures about evenly divided. Little that was of interest bearing on the market appeared in this morning's news. As was the case yesterday interest centured largely around the probabilities of money market with some discussion regarding tomorrow's probable showing by the banks in their weekly statement. There was no confirmation of any of the rumors recently current which have been effective in shaping the movements in a large numa ber of stocks. Active features at the opening of business were Texas Pacific, the Eries, Burlington and Northern Pacific. Both Northern Pacific and Burlington were notwithstanding the absence of confirmation of reports linking those two companies. A further rather sharp decline appeared in St. Paul although subsequently the stock rallied materially. The Anthracite stocks generally were reactionary. Sugar, in the Industrial quarter, showed a sharp advance upon the opening. The United States Steel stocks continued to move within narrow limits with transactions in large volumes. The local traction issues were weak in sympathy with the general market but there was no particular news or guff. attending their course.

WHEAT.

New York, April 12.-The market opened quiet and a little lower locally but was steady at the west and soon turned strong and active with May wheat, however, showing decided strength compared with July. The near positions have recently developed good demand owing to the active trade in cash wheat and claim that exports will necessarily keep on buying for some time. Offerings were light. Cables were fairly steady. Argentine exports were less than half of last year and the Argentine visible decreased 320,000 bushels. The weather continues cloudy following rain at the west and there were some crop complaints, while receipts at the Northwest were small. The Chicago trade bulletin makes the world's visible 197,000,000 bushels against 204,000,000 bushels last month and 192,000,000 bushels last year. Wheat was very firm at midday on light offerings breaking sharply fate on small export interest and realizing closing easy.

CORN-Trade was unsettled with manipulation at the west rather against business. The continued cold weather delays farm work while recelipts today at Chicago were only 96 cars with 9 contract. Weather conditions have certainly favored the bull interests. Corn markets were quiet. Argentine exports were small but an Argentine cable reports the condition

at midday, but was quiet laite, closing

quiet. PROVISIONS-There was quiet BY TELEGRAPH trade, the market showing a fair degree of firmness, with steady live hogs at the interior and rather moderate re-

but steady tate.	13.	44. 4

CATHOLIC EDUCATION.

Dr. Conaty Points Out the Supposed Dangers that Threaten the Catholic Educational System.

Chicago, April 10 .- "Entering upon thi new century, the Catholic educationa system in America must be prepared to meet with difficulties that will test its strength to the utmost. The unification of education under state control has established a mighty machine of secularized instruction, which threatens to destroy all private effort either on the part of individuals or the church. It is important to meet unification by unification, to so strengthen the Catholic educational system that it may defend itself against all attacks and save the religious instruction, ligious instruction."

Intense enthusiasm greeted this signi cant declaration to-day at the opening of a conference of representatives of Catholic colleges throughout the United States. The speaker was Dr. Thomas J. Conaty, rector of the Catholic University at Washington, and president of the Nation-

al Association of Catholic Colleges. "Entering into a general view of the situation which presents itself," said Mgr. Conaty, "it is important to realize the meaning of the facts which face us. Among the facts must be reckoned with the State school system, with its rapidly increasing high school and even college development, the tendency to do away with colleges by uniting the high school to the university, the establishment of educational institutions of all sorts, endowed by private munificence of non-Catholics, and attracting Catholic students because these schools have not the character of State institutions, the tendency of the universities to control State schools, to dictate the examination o teachers and to demand the university degree or approval as a condition of ap-

Reference was made by the speaker to what he construed to be the efforts in this direction, as manifested in the schools of some of the large cities, and presented in the non-Catholic character of scientific publications, as also that of many of the aids to public instruction.

To offset these conditions, said Dr. Co naty, the Catholic Church spent last year in the United States the sum of \$25,000,000 on education, chiefly in parochial schools and exclusive of what was spent in acad emic, collegiate and university educa-

Notwithstanding the serious demand made upon her for church and charitable development she had under her educa tional training over one million pupils. O these about ten thousand have received collegiate instruction under her direction Monsignor Conaty contended that most important issue in the Catholic ed ucation work is in the development of the Catholic high schools, which are the necessary links between the parochia rchools and the Catholic colleges.

A communication was read from the pa val delegate, Archbishop Martinelli, expressing hearty sympathy with the purposes of the conference, especially th unification and co-ordination of Catholic of the men are from the North and educational work. The communication were not apprised of the Birmingham

"We live in times when natural value are appreciated first. Catholic education the peace, \$5.80 had been held back It is true, offers first and as a most important, supernatural value. This it musand shall always continue to do. But there is no reason why it should not of plant to shut down. Effort is being fer at the same time a natural value equa. to and surpassing that which non-Cathrlic education can possibly hope to offer My earnest prayer is that God may bless every effort made in this country to further the interests of truly Catholic educa

A message was received from Cardina' Gibbons, saying: "We cannot too much insist on the great advantages to be derived from concerted action on the part of our educational leaders. Above all mify your system and march with serried ranks in the great cause of Christian en

A Jury Decides that Henry Ivison, a Toulon. The Russian bands played the

Which He Lost Playing Roulette. New York, April 10 .- A jury before Justice Fitzsimmons in the City Court to-day decided that Henry Ivison, a broker, would have to pay notes for \$1000, which he gave to John Bradley, of St. Augustine, Fla. Ivison fought payment of the money on the plea that reach the diseased portion of the ear. the amount sued for represented There is only one way to cure d fness "markers," which he had lost playing and that is by constitutional remedies. roulette in a place kept by Bradley. The defendant went on the stand today. In answer to questions, he said that he was the maker of the notes, but he pleaded that they were given in payment of money lost by him to the plaintiff at roulette. Asked whether unless the inflammatio can be taken he would have taken Bradley's money if he had won, Ivison replied that he thought he would. In his charge to the jury, Justice Fitzsimmons called attention to the fact of Ivison's admission that he would have retained the money if he had won, and also that he had offered to settle the matter in a letter. In the letter, Justice Fitzsimmons said, Ivison made no claim that the money was lost in a gambling transaction.

Gleanings From the Columns of the Local Papers in Various Towns of State

The Tanboro, N. C., Southerner of last week says: "The effect of the rise in the price of cotton will probably be the end for a time at least of the tobacco market here. If some enterprising person can be found who will take these warehouses for manufacturing purposes, this community will be the gainer instead of the loser by the market for this article going down. They certainly can readily be adapted to such purposes, and can probably be had at rents so low as to be quite an inducement."

The incorporators of the electric road from Elkin to Sparta are having the route surveyed. This company, which secured a charter from the last legislature, embraces such public spirited citizens as Hugh Chatham, W. C. Fields and R. G. Doughton. It will be a blessing to this section and bring thousands to this portion of the mountains to spend the ummer .- Mt. Airy News.

We notice that Prof. A. J. Cooper, colored, of High Point, N. C., is soliciting funds for the establishment of a large school near Jamestown, N. C., for his race. It is proposed to erect a building 40x112 feet, four stories high, and to contain 40 rooms. Prof. Cooper says that he is meeting with success in of its people from the dangers of non-re- raising funds and expects considerable aid from the North .- Winston Republi-

> Dr. A. G. Carr of Durham, who is one of the best known physicians in the state, has suffered with a serious case of blood poisoning. The Herald of Durham says the condition of Dr. A. G. Carr was quite serious yesterday and last night. It is now said to be certain that he is suffering from blood poison. At an operation a few days ago in which he assisted, he had a small sore on one of his hands. It was from this sore that the poison set in.

> The school law enacted by the recent legislature provides for only two public examinations of teachers each year. These examinations will be held the second Thursday of July and October. There will be no publis examination in April of this year. The new law does not prohibit County superintendents at any time, charging a fee of one dollar for same.

> At the state experiment farm rose culture is being tried on a large scale, 15,000 being planted for Henderson & Co. At the farm the vegetables for the Agricultural and Mechanical college are grown, and there are also experiments on vegetables. The large college farm is now part of the experiment farm. The dairy is an important feature. It has now forty milch cows. The poultry experiment station has ten broods. The Leghorn and Plymouth Rock are found to be the best.-Raleigh Despatch.

THE POLL TAX CLOSES A BIG PLANT.

Birmingham, Ala., April 10.-The plant of the Dimmick Pipe Company at North Birmingham, employing 200 men, closed down yesterday because a deputy tax collector served garnishments on the employees for the nonpayment of poll tax. A large number system of paying poll tax until they found that, on notices from a justice of from their wages to pay the tax collector. The men became indignant and many of them quit work, causing the made to resume operations to-morrow

PRESIDENT LOUBET VISITS THE RUSSIAN FLEET.

Villefranche, April 10.-President Loubet to-day paid his promised visit to the Russian squadron, and during his visit decorated Admiral Birileff and two of his officers with the cross of the Legion of Honor. Admiral Birileff and his staff, contrary to usage, landed and conducted M. Loubet aboard the flagship. The whole squadron was dressed

President Loubet subsequently embarked on the St. Louis and sailed for Broker, Must Pay Notes for \$1000 Marseilles and their crews cheered, and both the French and Russian warships saluted as the St. Louis, with the President on board, passed out. The Russian fleet will remain here for a week.

> DEAFNESS CANNOT BE CURED by local applications, as they cannot Deafness is caused by an inflamed condition of the sou lining if the inflamed you have a rumbling sound or Eustachian Tube.
