## ASHEVILLE CHURCHES AND THEIR WORK.

### What the First Baptist Church is Doing—A Peoples Church—Its Phenomenal Growth.

The Baptist is the strongest denomination numerically in the South. Its membership south of Mason & Dixon's line is said to be larger than all other constitutions of this denomination combined. The first Baptist church of Asheville is one of the largest and most active organizations of the southern convocation. This church, which had its beginning on the first Sunday of May, 1829, numbers this first Sunday of May, 1901, nearly 700 members. Its first meeting house, a little log structure on Meloche hill, is replaced by one of the largest and finest church edifices in the South. The story of the discharge of the debt on this new church building is of too recent date to need detailed repetition. Suffice it to recall that the final \$20,000 were raised last year by strenuous efforts of the members, and the papers representing the debt were publicly burned in the church a short time ago.

The rapid growth of the membership in recent years had necessitated the erection of a new church home, and the desire to have the building free from debt has been a spur to the energies and an imperative demand upon the resources of the congregation. It is planned to have the dedication take place at an early date, probably in August when former pastors may be present to assist in the ceremonies and add to the pleasure of the occasion. The new building is none too large for the needs of the growing congregation. In the two and one-half years, since the Rev. W. M. Vines has been pastor, nearly 250 names have been added to the membership, and the attendance especially at evening services has grown in even greater proportion. Mr. Vines believes that revivals should not be limited to special seasons but should be continual, that a church body should be constantly receiving new life. Further he is opposed to the monastic conception of religion as a thing in any way apart from life but believes that religion should permeate the whole of life and appeal to every part of man's nature, to his mind and social instincts as well as to his deepest needs. He looks upon a church organization as an instrument to spread the fuller life offered by Christianity. His ideal of a church is the institutional one; that of an organization owning, not only a house of worship, but schools, library, lecture and concert and society rooms—all that pertains to the education and elevation of mankind. It is perhaps in accordance with this ideal that the church is entitled to all that appeal to the finer side of man's nature that the First Baptist church has recently purchased a \$4000 pipe organ and that this organ is presided over by Mr. Dunkley has been used for recitals as well as in the church services. A series of lectures given under the auspices of the finance committee of the church have served a double purpose by assisting to pay for the organ and by bringing here well known lecturers on ethical and educational subjects.

Besides the activities indicated above, the congregation raised about \$1000 last year for home and foreign missions. It maintains three local Sunday schools beside its own large one of which J. H. Tucker is superintendent. The first of these local schools is on N. Main street and is conducted by W. C. McConnell; the second, on Academy hill, by J. H. Campbell; and the third, at Chunn's cove, by W. B. Hand. The Ladies' Aid society with Mrs. G. A. Shuford as president, raised \$1000 last year; the Woman's Missionary society, Miss E. A. Draughan, president, and the Young People's society are active organizations. The Sunday school raised \$700, last year, and the church contributes its quota to the Flower Mission. An effort is now making to perfect a system of collection that is intended to make every member a regular contributor to home and foreign missions.

The First Baptist church is in close touch with Baptist churches of city and country. From it were developed the other Baptist churches of the city, either as missions or as off-shoots from its congregation. Mr. Vines visited most of the county churches and spoke from their pulpits during his October vacation.

Mr. Vines' declared aim is to make

## How to Prevent Consumption!

Every physician will tell you that this disease is caused by a germ life called Koch bacilli, which causes the lungs to decay. This germ was first discovered by Professor Koch, and can be killed by the Koch tubercule, a medicine also discovered by Dr. Koch of Berlin. It prevents consumption and cures catarrh in its worst form (which is often the cause of consumption). When breathed directly into the lungs it kills the poisonous germ, and the balm, oily vapors heal up the sore places in the lungs and actually cure consumption itself. Dr. Koch's process was endorsed by the International Congress of Physicians who assembled in Germany from every country of the world at Berlin, Professor Koch's home, last year, since which time this latest and newest treatment has cured thousands of cases in the hands of the original Koch Lung Cure Sanitarium, the home of the German-American company. This tubercule should be breathed directly into the lungs, and not injected, using only the new Koch Inhalation. It kills this poison. In fact, no form of germ can live when thoroughly under the influence of these antiseptic oily vapors as they are thrown from this wonderful invention. The Koch Inhalation is operated by the Koch Lung Cure, No. 5 W. Court square, Asheville, N. C. Dr. Edward Koch is the Medical Director of America. Consultation and the first treatment is given free, to prove its great power to heal up the diseased lung.

The First Baptist not only an evangelical church but a people's church, one for rich and poor alike. To this end the best effort of the organization is directed. This, considering the church in the light of a working body, may be said to be its distinctive position. It may perhaps be added with propriety that the First Baptist church is making every effort to bring the Southern Baptist convention here next May and has strong hopes of success in so doing. The convention numbers possibly 10,000 delegates and the expectation is that the Auditorium will be completed in time to accommodate this great assembly should it be induced to meet here.

### A Man Without Teeth.

Young Mr. Koupon had been left a great deal of money, but no tact. One day he was introduced to young Mr. Grinder, a newspaper man, who had a great deal of tact under most circumstances and very little money under any circumstances.

Mr. Koupon desired to inspect the newspaper office, and Mr. Grinder courteously spent half an hour conducting his guest from department to department and explaining the work that was done.

Finally they came to the editorial room in which Mr. Grinder toiled six days in a week. It was a very dark day, the room was unusually gloomy, and over each desk an incandescent light made work possible.

Glancing around the room from one to another of the toiling editors, young Mr. Koupon said contemptuously:

"Jove! I'd rather run a trolley car than do that!"

"Every man to his calling," the newspaper man said dryly. "Every man to his calling."—New York Herald.

### HE FOOLED THE SURGEONS.

All doctors told Renek Hamilton, of West Jefferson, O., after suffering 18 months from Rectal Fistula, he would die unless a costly operation was performed; but he cured himself with five boxes of Bucklen's Arnica Salve, the surest Pile cure on earth, and the best Salve in the world. 25 cents a box. Sold by all druggists.

Even cannibals draw the line at missionaries over fifty years of age.

### TORTURED A WITNESS.

Intense suffering was endured by witness T. L. Martin, of Dixie, Ky., before he gave this evidence: "I coughed every night until my throat was nearly raw; then tried Dr. King's New Discovery which gave instant relief. I have used it in my family for four years and recommend it as the greatest remedy for Coughs, Colds and all Throat, Chest and Lung troubles. It will stop the worst cough, and not only prevents but absolutely cures Consumption. Price 50c and \$1.00. Every bottle guaranteed. Trial bottles free at all drug stores.

### IT SAVED HIS LEG.

P. A. Danforth, of LaGrange, Ga., suffered for six months with a frightful running sore on his leg; but writes that Bucklen's Arnica Salve wholly cured it in five days. For Ulcers, Wounds, Piles, it's the best salve in the world. Cure guaranteed. Only 25c. Sold by all druggists.

### HE IS A WONDER.

All who see Mr. C. F. Collier, of Cherokee, Iowa, see the now, cheerful, erect, vigorous, without an ache, could hardly believe he is the same man who, a short time ago, had to sit in a chair, propped up by cushions, suffering intensely from an aching back, in agony he tried to stoop—all caused by chronic kidney trouble, that no medicine helped till he used Electric Bitters and was wholly cured by three bottles. Positively cures Backache, Nervousness, Loss of Appetite, all Kidney troubles. Only 50c at all drug stores.

### SKIN AFFECTIONS WILL READILY DISAPPEAR

by using DeWitt's Witch Hazel Salve. Look out for counterfeits. If you get DeWitt's you will get good results. It is the quickest positive cure for piles. At all druggists.

## The SKIN AN INDEX TO THE BLOOD

Millions of little glands or tubes connect the blood with the skin, and through these small drain pipes perspiration passes out, carrying with it the impurities that are thrown off by the blood. Should the pores of the skin be entirely closed for even a brief space of time, and the poisonous matter forced back into the circulation, instant death would result. In addition to the sweat glands, the skin is provided with certain others which pour out upon it an oily substance, keeping the skin pliable and soft and protecting it from heat and cold. The blood and skin are so closely related that whatever affects one seriously interferes with the functions of the other. Not only health, but life itself, depends upon perfect harmony between the blood and skin. When, therefore, the blood becomes poisoned from any cause, it quickly manifests itself upon the skin in the form of sores and ulcers, pimples and various eruptive diseases. By the character of the sore we are enabled to determine the nature of the poison or humor in the blood, as every disease originating in the blood has its own peculiar sore or pimple. The skin is not only affected by the poisons generated in the system, but poisons from without enter through the open glands or pores and quickly infect the blood. Mercury rubbed upon the skin will produce Rheumatism; and Poison Oak and Ivy and other wild plants gain easy access to the blood through the skin. As so-called skin diseases originate in the blood, the application of soap and washes can do no permanent good, but often do immense damage, by closing up the outlet for these little tubes and interfering with the natural action of the skin. The treatment must begin with the blood, and the acid or other poisons antidoted or neutralized. S. S. S. does this and purifies the circulation, builds up the blood and flushes the little glands or pores with pure, new blood, and restores healthy action to the skin. The use of cosmetics never yet brought health and beauty to a rough, red, pimply skin or sallow complexion. What is needed is rich, pure blood, such as S. S. S. makes. It not only relieves you of all disagreeing blackheads, blotches and irritating, itching eruptions, but improves your general health. S. S. S. contains no mercury, potash, arsenic or other mineral, but is a purely vegetable remedy and the safest and best in all blood and skin troubles. Write our physicians for advice or information; they have made a study of blood and skin diseases, and you can have the best medical advice without cost. Book on Blood and Skin Diseases free.
