If ever there was a time when the light of reason should be brought to bear upon religious belief, that time is now. One cannot pick up a newspaper without seeing an account of some insane belief which has its followers. The man Dowie in Chicago is cheered to the echo by an audience of 3000 people when he announced himself a reincarnation of the prophet Elijah and John the Baptist. The "sanctificationists" in this State that the Pee Dee correspondent of the Rockingham Headlight accuses of exciting young women to burn themselves, thinking they are thus doing service to God, and who have succeeded in agitating the minds of some of the people to such a high pitch that they are on the verge of insanity. Faith has been defined as higher reason. A man's faith reaches beyond his reason, it must not be against his reason. There is such a thing as a reasonable faith. The belief in God is such, but the attempt to bring the substance of one's faith to the level of-one's pnderstanding is to arrogate to oneself an equality with omnisience. This intellectual arrogance rather than emotional excitement is the cause of the widespread religious insanity of tothe alienist calls folie de grandeur, that produces "prophets," "healers," "masters," "chelas" and other wonders who rehash ancient metaphysics and work hysterical prodigies for the mystification of their credulous followers. The prevalence of this sort of thing today shows unreasonable credulity rather than reasonable faith. Humanity sounds its "subconsciousness" not with the plummet of reason but dives headlong and loses itself in the depths. The humble individual who is willing to love and trust and hope while working out his human destiny and testing each move by reason, facts and experience is esteemed a poor body by these dabblers in mysticism and occultism; but at least he keeps this sanity in clinging to a "reasonable faith," a faith that does not attempt to explain God and God's thoughts and actions by the light of their feeble understanding. -000-

A Washington dispatch to the effect that "the director of the census has completed his preliminary report on the manufacturing interests of the State of North Carolina" and that "the report shows the value of the manufactured products of the State to be \$9,183,114, as against \$5,028,107 for 1890" has been going the rounds of the State papers. As North Carolina cotton manufacturers alone are worth more than \$50,- only one that can beat McLaurin. 000,000 and her total manufacturers ! the "preliminary report" and it was finally discovered that this dispatch referred to North Dakota instead of North Carolina.

Not only have the Americans practically exterminated yellow fever in Havana but about two-thirds of the large force heretofore employed in cleaning houses and other sanitary work have been transferred to the "mosquito brigade," and are now employed in cleaning out the various ditches and streams where stagnant water is found, and putting kerosene oil in all of these places." During April about 20,000 houses and premises were investigated and kerosene put in the cesspools and other breeding places. When the sanitary force finishes with Havana, it would be a fine thing in some of our own cities or seaside resorts. If the United States doesn't watch out its proteges will get ahead of it in more ways than one.

"Society young ladies" have danced for charity, run soda fountains, managed newspapers and otherwise exerted themselves in benevolent causes, but the latest departure in this line is that of conducting a street railway. A despatch from Jackson, Miss., says, "Today is trolley day in Jackson and the pas sengers have the pleasure of giving their fare to the pretty society young ladies of the city who are acting as conductors, the cars are turned over to the ladies of the city for a charitable Kid Gloves purpose and they are running them.

Pretty, smiling young women, dressed in white shirt waists and walking skirts, with a white linen cap and badge are going through the cars taking the fares. It is a novel experience for Jackson, and from the way the cars are patronized, she is enjoying it."

"Managers of hotels at summer re sorts are anticipating the most prosperous season of the past eight years," said Mr. K. L. Gregory, of Atlantic City to a Washington Post reporter a few days

POWER TO GOVERN

he Cabinet Decides that the Policy Hitherto Pursued and Announced in Regard to the Philippines Will be Continued-Sufficient Power Reposed in the President by the Spooner Act to Justify the Establishment of a Purely Civil Government of the Islands.

Washington, June 4.-The Cabinet to-day unanimously decided that existing conditions do not warrant the calling of an extra session of Congress this Summer. Secretary Root and Attorney-General Knox both rendered legal opinions to the effect that the authority to govern the Philippines vested in the President by the Spooner amendment was ample. These opinions were concurred in by all the members of the Cabinet.

The decision of the Cabinet was announced after the Cabinet meeting in

"The President has determined that existing conditions do not require or warfant calling Congress together during the present Summer or making any change in the policy hitherto pursued and announced in regard to the Philip-

About the first of next month, full civil government will be set up in the Philippine islands, exactly as projected by the Philippine commission. As soon change his politics five times in ten machinery can be ready for it, the new 16 is steadily growing in proportion. The Teller the right to change once in also following out the original plan number of delegates expected has risen thirty years," spitefully declared Sena formed before the announcement of the from one thousand to three thousand. tor Tillman at Gaffney. But the fact decisions of the Supreme Court last The attendance will include an excep- is that neither McLaurin or Teller have week. These determinations followed a tionally large proportion of prominent changed at all. Both stand where they careful study of the decisions of the men from all parts of the world. As to the legal status of the islands, the officials have nothing to say. They do not indicate whether the tenure is to be regarded as one purely military, or whether they have found in the devisions warrant for taking the Spooner act as quite sufficient in itself to justify the establishment of a purely civil government in the Philippines, accomville has, and has had for six or panied by the taxing power, as exhibit ed in tariff schedules. The general statement is made that the exercise of authority is to be by virtue of the supreme power reposed in the President; it may be either as commanderin-chief of the United States military establishment or by virtue of the special designation in the Spooner law; perhaps either would be sufficient.

The collector at San Francisco will to on taking up Dingley duties on imports from the Philippines for the Cabinet has assured itself that the practice is legal, or at any rate, they re not bound to otherwise declare in the absence of a decision by the highest judicial authority. The failure of the Court to announce a decision in the fourteen diamond rings case—the one involving the legality of the imposition asked either to give each fireman one of Dingley duties on goods coming warranting the belief that the Court the De Lima case.

The report of the Philippine Commission setting out in vast detail the complete scheme of civil government devised by them is now in Washington and, the legal difficulty being passed, aonsideration will now be given to this report. It would not be feasible to notify Judge Taft by mail of his appointment as the first civil governor of the Philippines in time for him to assume office July 1st, so this must be done by

BURGLARS IN HER ROOM Miss N. O. Body, Columbia, Cal., who

is stopping on Main street, saw something which she has been hunting for for years—a burglar under the bed About 8 p. m. she with a few friends went to the drug store to get some soda, and tarried a while. On returning to her room about 10 she heard someone swearing under her bed; looking under discovered a man. With presence of mind, she did not make an outcry but quietly going down stairs notified the policeman who was passing. Lon Jones was the offender. He had recently broken jail in Raleigh and is an old bird. He has been in Asheville for near ly a week. He said he went to the pantry and ate a biscuit and piece of cake which were so nice that he knew they were made with Rumford Baking Powder and could not hurt him, so be ate up all in sight then went up to Miss Body's room to hide so as to rob during the night. He will be taken back to Raleigh in the morning.
