MRS. MAYBRICK STILL IN PRISON. Rumor that She was Freed May 24 and Come to the United States Denied.

London, June 4.—Inquiry at the United States embassy regarding the statements published in the United States to the effect that Mrs. Florence Maybrick was released from Woking prison May 24th and that she sailed the following day for the United States under an assumed name show that nothing has been heard there of the release of Mrs. Maybrick. Subsequently inquiries made by the Associated Press definitely established the fact that there was no truth in the report of Mrs. Maybrick's release. London, June 4.—A have just learned on the most reliable authority that Mrs. Maybrick was released from Woking prison, on May 24th, and that she sailed the following day under an assumed name for the United States. The officials of the prison observe the strictest secrecy and refuse all information.

BALL & SHEPPARD, 16 Court Square, Any one wishing to put steam heat in their building could do so better than put in a HARRISBURG BOILER But you must have experienced workmen to do the work, and we are confident that we can please you. Ball & Sheppard. TELEPHONE NO. 83.

I learn also that Mrs. Maybrick's mother is the only person outside of the prison and the Home Office, except His Majesty, King Edward, acquainted with the facts of Mrs. Maybrick's release. She was sworn to secrecy months ago, and, of course, has kept her oath, as her violation of it might have interfered with the release of her daughter. The pardoning of Mrs. Maybrick is by King Edward's special clemency. Inquiries among the high officials of the Government neither confirm nor deny the rumor of the release. It is well-known, however, that His Majesty and the late Lord Russell both believed in Mrs. Maybrick's innocence, and that if the King had had his way the red tape of the Home Office in this connection would long ago have been broken. Lord Russell often made public declaration of his belief that the American woman was not guilty of the crime for which she has spent a good part of her lifetime in jail. He worked incessantly for her freedom, and one of the disappointments of his life was his lack of success in her behalf. Mrs. Maybrick for quite a long time has been in extremely delicate health, and this fact no doubt had much to do with the reported action of the King. Last February there was a rumor that Mrs. Maybrick had been released, but it was promptly contradicted by the Home Office officials.—Philadelphia North American.
