are the states to which a large immigration is now directed. You should take advantage of the opportunities, and the greatly reduced rates. This wonderful country fully and accurately described and illustrated in a new booklet with a large map, which will be mailed to any address upon receipt of six cents in postage by W. B. Kniskern, 22 Fifth

PROGRESS OF THE A. & M.

The state board of agriculture has just taken wonderful steps to improve and to strengthen the Agricultural and Mechanical college at Raleigh. They have raised the salary of the professor of agriculture to \$2,500, making it the most important chair in the college, and have resolved to find the best man in the country for it. They have established a professorship of animal industry and veterinary science at a salary, if neces-

sary, of \$2,500, and they are looking for a strong man for this chair. They have created 120 scholarships and appropriated \$2,000 to pay agricultural students for farm work, and thus not only teach them but help them to get an education. At the request of President Winston they have permitted him to devote his entire time to the emolument and development of the college and have appointed as director of the experiment station Prof. R. W. Kilgore, now chemist to the agricultural department and director of experiment work at the various test farms throughout the state.

Commissioner of Agriculture S. L. Patterson, President Winston of the college, Professor R. W. Kilgore of the experiment station and the board of agriculture are determined to develop the agricultural side of the college and to make it equal to any in the country. They want students from each county in the state. Here is a wonderful opportunity for young men.

St. John's day, which is usually celebrated at the Oxford Orphan Asylum on June 24th, will be observed this year on Saturday, June 22nd. The railroads of the state have been asked for reduced rates and we hope to have a large number of visitors present. About the usual program will be observed. The address of welcome will be made by Dr. B. K. Hays, with a response by Senior Grand Warden W. S. Liddell. Dr. Geo. T. Wilson, president of the A. & M. college at Raleigh, will be the speaker of the day. Concert by the children.

Here is the latest authenticated snake story: "John Rhode, an old recluse, who lived in a lonely hut near Nashville was recently found dead. There were evidences of foul play and the coroner and a number of citizens made an examination of the cabin, which resulted in the discovery of three big rattlesnakes coiled up in an empty barrel. The snakes were killed, and underneath a bed of leaves, where they had been sleeping, an old tobacco pouch was found half filled with money. In another barrel, two blacksnakes were found. It is believed that Rhode made the snakes his companions and that they guarded his money."

Charlotte has been very largely built up through the medium of the building and loan associations. It would be interesting to know what percentage of the homes in the city were secured by the owners through these associations. The figures would probably be over six per cent of all the houses in Charlotte. It is said that more than fifty per cent of the 258,686 houses in Philadelphia owned by persons who live in them have been acquired through these associations. In proportion, the Charlotte building and loan associations have a record equally as good, if not superior. These associations are home-builders and money-savers.—Charlotte Observer.
