Conditions in Philippines
are Damnable and a
Disgrace.

Senator Platt Speaks in Favor
of Administration's Policy in
the Islands.

INAUGURATION DATE RESOLUTION PASSED

OLEOMARGARINE BILL AMENDED
BUT NOT YET BROUGHT TO A
VOTE IN THE HOUSE—DEBATE
ED FOR SIX HOURS.

Washington, Feb. 11.—"God have mercy
on the people of those islands and
God have mercy on the men who con-
tend that this statute was a just and
righteous law. I believe the conditions
there are damnable and a disgrace to
the American people."

These words were passionately ut-
tered in the senate today by Senator Tel-
ler in the course of his speech in op-
position to the Philippines tariff bill and
were uttered in denunciation of the
treason and sedition statute proclaimed
in the islands by the Philippines com-
mission. He scoffed at the idea that
the Americans were in the Philippines
by divine providence and said their
methods were such as would emanate
from the great god of evil and wicked-
ness. He further declared the statute
was a compendium of tyranny and in-
famy. He spoke for two and a half
hours and then begged to be excused
continuing his remarks until tomorrow,
saying he would refer later to an al-
leged order of the Philippines commis-
sion forbidding the reading of the de-
claration of independence at Manila on
the coming Fourth of July.

Teller was followed by Senator Platt,
who vigorously defended the present
administration in the Philippines. He
declared that the provisional govern-
ment established there was welcomed
as a blessing. He ended up with sol-
emnly expressing a belief that the
United States was providentially ap-
pointed to Christianize the world.

Senator Hoar closed the day's debate
by attacking existing conditions in the
islands. He contemptuously referred to
the free schools of the Philippines
which could not have the Filipino flag
over them and where no boy could read
the declaration of independence nor
Bruce's address to his army.

Washington, Feb. 11.—Upon the re-
quest of Mr. Hoar, the senate today
proceeded to the consideration of the
joint resolution proposing an amend-
ment to the construction of the United
States respecting the commencement
and termination of congress, changing
the date of the inauguration of the pre-
sident and vice president from March 4
to the last Thursday in April, at noon,
the commencement and termination of
congresses to occur at the same time.

Mr. Stewart protested against the
passage of the resolution, but by a vote
of the senate overruled the objection
and adopted the resolution by the neces-
sary two-thirds vote.

At 1 p. m. consideration of the Phil-
ippines tariff bill was resumed. Mr.
Heller, who had the floor when the sen-
ate adjourned yesterday, continued his
speech. He did not think the holding
of the islands ever would be profitable,
and he could see readily that it might
be dangerous. It was contrary to our
principles to hold any people in sub-
jection by force. Nobody, he said, was
likely to question the right of the
United States to hold the Philippines.
No nation would dare to raise such a
question. That question might be raised
in the American congress, but no-
where else. He felt that a profound

ENGLAND AND JAPAN FORM AN ALLIANCE

For Furthering and Protecting Their Interests in the Far
East--Will Join Their Forces if War is the Issue

---Treaty to be in Force Five Years.

London, Feb. 12.—Great Britain has
concluded a defensive alliance with
Japan in reference to a common policy
by both nations in the far east. The
agreement was concluded in London be-
tween Foreign Secretary Lansdowne
and the Japanese minister, and was
forwarded January 30 to the British
minister at Tokio.

The text of the treaty is lengthy. It
sets forth that the contracting govern-
ments were actuated solely by the de-
sire to maintain the status quo and
general peace in the extreme far east,
being especially interested in main-
taining the independence of the terri-
torial integrity of the Chinese empire and
the empire of Korea and in securing
equal opportunities in those countries
for the commerce and industry of all
nations, have entered into an alliance
for the purposes stated.

Both contracting powers declare they
are entirely uninfluenced in entering

mistake had been made in our early
treatment of the people of the Phil-
ippines, but the question had been passed
and it was now our duty to do what
was right. Nobody believed, he in-
sisted, that the United States could
force upon the Philippines our govern-
ment and our civilization.

"In the whole history of the world,"
said he, "no nation has ever elevated
the people of another race or nation
against the protest of the people whom
it was attempted to elevate. If people
are elevated, they must elevate them-
selves by their own efforts."

Referring to the assertion that the
United States was a creature of destiny
in its connection with the Phil-
ippines and that this government was
but carrying out the decrees of provid-
ence among the people of the archi-
pelago, Mr. Teller declared that he
should want a plain edict from the Al-
mighty—an edict that he would know
did not come from the evil one—before
he would be willing to accept the sup-
posed decree of destiny.

"If there is any reason why Amer-
icans should be in the Philippines, it
cannot be found in the command of the
Almighty."

In the House.

Washington, Feb. 11.—The house de-
voted the day to considering the oleo-
margarine bill, but after six hours de-
bate, contrary to expectation, the
house adjourned without disposing of
the bill.

Some routine business preceded the
(Continued on fourth page.)

NO ENGLISH ACTION IN 1898 ADVERSE TO UNITED STATES

London, Feb. 11.—Under Secretary of
Foreign Affairs Lord Cranborne, re-
plying to the House of Commons today to
the question from Henry Norman, Lib-
eral, who asked whether the govern-
ment's attention had been called to the
statement of the German press and al-
leged to have received official confirma-
tion from Berlin, to the effect that
Great Britain on April 14, 1898, through
the ambassador at Washington, pro-
posed a fresh note in which the pow-
ers should declare that Europe did not
regard armed intervention in the United
States in Cuba as justifiable and
that in consequence of Germany's re-
fusal to accept this proposal, the step
was abandoned, said:

"No, sir; her late majesty's govern-
ment never proposed through her ma-
jesty's ambassador or otherwise, any
declaration adverse to the action of the
United States in Cuba. On the con-
trary, her late majesty's government
declined to assent to any such propo-
sal."

AN AERIAL PERFORMER FALLS, BREAKING NECK

Newport, Feb. 11.—Eva Gilbert, pro-
fessionally known as Gibrette, while
doing an aerial act at the Powhattan
theater tonight, lost her hold and fell
to the floor, forty feet below, breaking
her neck and dying instantly. She
lived in New York.

the Philippines committee has finished
with me. Meanwhile, I am under or-
ders to say nothing about the Phil-
ippines situation."

Gov. Taft consented, however, to talk
about native education. He said:
"You will remember that it was pro-
posed to educate a few young Filipinos
at Yale as an experiment and perhaps
initiative. So far nothing has been
done. But I had a talk with President
Haley the other day in Washington
and I may run up to New Haven soon
as the matter is of importance. Of
course, the difficulty is that a native
cannot be suddenly imported to this
country and thrust into the higher edu-
cation. He must be caught young and
adequately prepared. Looking to this
end, we shall have high schools in the
islands that will be stepping stones to
our universities. But Mr. Atkinson,
superintendent of the schools, tells me
that high schools will not be possible
until next year at least. In the mean-
time he is pushing ahead with primary
schools."

BURNING SCHOONER SIGHTED WAS THE MARY E. GRAHAM

New York, Feb. 11.—The burning
schooner sighted off Cape May Mon-
day was the Mary E. Graham, lumber
laden, from Norfolk to New York.
Capt. Medley and the crew of the
schooner arrived here yesterday, aboard
the schooner J. C. Clifford, which took
them off the Graham Monday morning.
Captain Medley set his schooner on
fire previous to abandoning her. She
was waterlogged and helpless.

TO MAKE RAIN WITH DYNAMITE BOMBS

Richmond, Ind., Feb. 11.—Prof. John
E. Baldwin, the aeronaut, is preparing
to make an interesting experiment next
summer, the first time there is a drouth
in this section. His plan is to send up
1,000 balloons from different points
each to carry a dynamite bomb, the
same to be exploded as nearly simul-
taneously as possible, the object being
to produce rain. The balloons will be
sent up from Richmond, Centerville,
town, Muncie, Parker City, Winchester,
Hagerstown and Losantville. Several
men are backing Mr. Baldwin in mak-
ing the experiment.

WOMEN MAY ENTER NATIONAL UNIVERSITY

New York, Feb. 11.—In reply to in-
quiries as to whether women will be
allowed to enter competition for mem-
bership in the National university en-
dowed by Andrew Carnegie, Dr. Daniel
C. Gilman, of Baltimore, president of
the board of trustees of the university,
who is in this city, said:
"I think there is no doubt that sex
will have nothing to do with admission
to the new university."

REMINGTON SUCCESS

The popularity of the Remington
Typewriter is increasing each year—
1898, 1899, 1900 and 1901 was each a re-
cord breaker, and the sales for the
month of January, 1902, exceeded that
of any previous month in the history of
the Remington by 577 machines. It
would be impossible for the Remington
to maintain such a record if its repu-
tation was not deserved and the reward
of merit.

We have just made arrangements by
which we can sell Remington Typewrit-
ers on EASY MONTHLY PAYMENTS—
only a little more than the rental
price per month.

RECOVERY NOT YET ASSURED

Theodore Roosevelt, Jr., is
Still Very Dangerously
Ill.

His Condition, However, Rela-
tively Better Than on Mon-
day.

PHYSICIANS WATCHING UP TO A LATE HOUR

IF IMPROVEMENT IN HIS SON'S
CONDITION IS REAL AND CON-
TINUES PRESIDENT WILL LEAVE
GROTON THURSDAY OR FRIDAY.

Groton, Mass., Feb. 11.—Although at
a late hour tonight it was announced
that indications pointed to a good night
for young Roosevelt, it was also learn-
ed that the boy was not nearing recov-
ery by any means.

"He is still very dangerously ill,"
said Secretary Cortelyou. "There is
some fever which is fluctuating. The
crisis I do not know about. Neither
can I say when it is expected." Phy-
sicians were closely watching the boy
at a late hour. Dr. Lambert will re-
