### LONDON FAVORS PRINCE VISITING UNITED STATES

New York, April 7.—The suggestion that the Prince of Wales attend the dedication of the new home of the New York chamber of commerce excites the liveliest surprise here, coupled with satisfaction at the indication of good feeling on the part of the leading members of America's industrial community, cables the World's London correspondent.

It is hoped in political circles that the expected invitation will be accepted. Inquiries have elicited the fact that, in court and official circles it is recognized that there are certain obstacles in the way, but it is hoped that they may not prove insurmountable. In the first place, a court official of experience says, as the Prince of Wales represents the king it would be unusual for him to visit any foreign country officially except as the guest of that country's chief of state or its government. King Edward personally is said to be strongly favorable to such a visit, yet he may be slow to establish a precedent which hereafter might lead to trouble or misunderstanding.

The fact that other European royal heirs apparent and persons of eminence have been invited raises questions of etiquette which assume very serious dimensions in the eyes of royalty in court functionaries. It has been arranged already that the prince shall go to India next winter to make a tour of the empire and to attend the proclaiming of his father emperor of that dependency. The court official heretofore mentioned points out that unless the prince can visit New York on the way it will be too great a strain on him to cross the Atlantic and back, in the autumn especially, as heavy demands on his by no means robust constitution would be made by the coronation festivities. Anyway, it is a fact that such a visit would be extremely popular here, and it is believed in court circles that the king, who is well aware of the international advantages of such an interchange of courtesies, will do all in his power to accede to the New York chamber of commerce's hospitable invitation.

### BIG STRIKE OF COTTON MILL HANDS

Augusta, Ga., April 7.—Eight hundred hands employed in the King Cotton mills here went on strike this morning for a ten per cent. increase in wages. The strike is being conducted from Fall River by one of the national officers of the Textile Workers' association.

All other mills in the district will continue to run until Tuesday night. If, by that time, the trouble in the King mills is not settled, the manufacturers' association will close down every mill in Augusta, Aiken, Vaucluse, Graniteville, Warrenville, Bath, Langley and Clearwater, throwing 1000 people out of employment.

The strikers claim they will win in two weeks, because they waited until all mills had a large rush of orders on hand. The mill owners deny this. The best of order prevails.

### REVOLUTIONISTS TAKE A TOWN IN HAYTI

Port Au Prince, Hayti, April 7.—A number of revolutionists commanded by Gen. Nicolas Baptiste, attacked and captured Jacmet, a town on the south coast of Hayti, on Saturday, occupied that town for twentyfour hours, released the persons who had been imprisoned there and then retired to the hills, taking with them all the arms and ammunition they could obtain. During the fighting which proceeded the capture of Jacmet two men were killed and a number were wounded. The Haytian cruiser "Crete Crete" has started for Jacmet with arms and ammunition for that place, and the minister of war, V. Guillaume, has also left for Jacmet
