MARKET APATHETIC.

Yesterday's Quotations on the New York Exchanges.

Cotton Market Pointers and Chicago Grain Prices.

STOCK LETTER. New York, June 7.-A condition nearly approaching actual stagnation obtained on the stock exchange this morning. In the first hour no transactions had been recorded even in a number of stocks ordinarily classed in the active list. The Railway trivial fluctuations that occurred did not call for special comment except simply as a matter of record. The failure of indications of an early settlement of the anthracite strike and uncertainty over extent of West Virginia soft coal strike and its probable consequences nullified the favorable crop news and railway and general business returns. The extreme dullness could also be attributed partly to lack of definite indications as to probable character of bank statement. Slight fractional gains occurred in M. K. T. preferred, U. S., and C. F. I. The last stock subsequently reacted nearly 1 per cent from highest. The bank statement failed to show any special change except a moderate decrease in loans and a loss in cash of about 1,250,000 whereas a small gain was expected. The net result was a moderate decrease in surplus reserve. The statement failed to cause any increase in interest and the market continued sluggish. The market closed apathetic but the tone might be described as steady. Government bonds unchanged and Railway bonds firm. Sales 55,500.

COTTON LETTER. New York, June 7.-The cotton market was without special feature. The Chronicle published some rather unsatisfactory reports but not enough to warrant any radical modification in private crop views which as a rule are of the most satisfactory character at the same time the crop has been doing so well that it can do no better and the only change can be for the worse hence | eral traffic manager of the road, who we expect to witness a more sensitive market for some weeks than is usually the case at this season of the year. No attention is being paid to the moveand Typewriting, Court Reporting, ment of old cotton and everything turns on the crop. Numerous first blooms are reported much earlier than last year and some much earlier than ever before which leads to bull announcements that an early crop does not necessarily indicate a heavy crop but quite the contrary. In the early market today prices moved up just a shade and nothing more. The market attracted very little attention and without fresh news is likely to keep in a rut. Liverpool bought more or less in this market which was a tame and uninteresting affair. One firm took no little of January but otherwise there was little or no feature and the market was of a

Montgomesy, Ala., June 7.—The supreme court has affirmed three murder cases brought up on appeal.

Ben Durrett, at Tuscaloosa, was convicted and sentenced to be hanged, in spite of an agreement between the solicitor and the defendant that he would plead guilty and accept life imprisonment. The court declares that such an agreement was not binding on the jury and was nothing more than a recommendation by the solicitor to the

TIE IN TENTH DISTRICT.

Both Fleming and Hardwick Have 14 Votes-Deadlock Result.

Sparta, Ga., June 7.—Hancock county goes for Fleming by a very small majority, which means a deadlock in the congressional convention in the Tenth district. The returns were consolidated here at noon today and showed Fleming to be slightly in the lead. The result in Hancock means that both Hardwick and Fleming will have 14 votes each in the convention. The result, therefore, is in doubt.

Hardwick has carried Washington with four votes, Jefferson with two votes, Glasscock with two votes, Warren with two votes and Lincoln with two votes-total, 14.

Fleming has carried Richmond with six votes, Columbia with two votes. Taliaferro with two votes, Wilkinson with two votes and Hancock with two votes-total, 14 votes.
