STOCKS DECLINE FRACTIONALLY

Yesterday's Quotations on the New York Exchanges.

Cotton Market Pointers and Chicago Grain Prices.

STOCK LETTER.
New York, June 24.—The market today received a shock in the announcement of the King's illness. Before the stock market session got well under way however cable reported announcement that the operation upon the King had been successfully performed and there result was that prices as a rule declined only fractionally in early trading. Subsequently there was a disposition to recover and the Gould stocks displayed special strength. There was more or less feverishness throughout the day and London was moderate seller in spite of more reassuring report regarding condition of King Edward. In the last hour a general selling movement set in which carried prices to lowest of the day. The decline was inspired by the reports that King Edward was dead but which report was promptly denied and the market rallied somewhat. Net losses for the day nevertheless were fairly important especially in the international shares. In the industrial list C. P. I. continued weak as did Amalgamated Copper. Ice preferred rallied sharply on rumors that dividend may be paid after all. People's Gas lost ground on announcement of increased assessments by Chicago tax authorities. The market closed weak. Railroad bonds somewhat lower in sympathy with reaction in stock market. Sales \$59,900.

BUREAU REPORT.
Washington, June 24.—Week in cotton has experienced favorable conditions over the northern portion of central and western districts and generally throughout the eastern portion of the cotton belt. Ice are more extensively reported and some fields in South Carolina are grassy with very little rain in Texas and only scattered showers over the Southern portion of the central districts. The growth of cotton has been checked in Louisiana and Texas. Within the last named state shedding blooming tops and unsatisfactory fruiting is reported. Ice and boll weevil are disappearing.

COTTON LETTER.
New York, June 24.—No little surprise was occasioned this morning when the market for cotton rose 2 to 5 points and continued to advance until 10 points gain was shown. The early prices from Liverpool were puzzling as to prices but after their receipt came news of the King's illness and indefinite postponement of the coronation. This caused a temporary halt in the eagerness of bulls to buy on the Texas weather situation. No rain was reported in that State early in the day and moreover no rain was in sight while there was expectation of a bullish weekly crop report from Washington at noon. But regardless of other considerations the fact remains that the month of June is drawing to a close with a drought of severity in some sections of the State and the situation is fast approaching a serious one. Rains may yet help to make a big crop but the delay may reduce the yield decidedly and this is borne in mind. Shorts were covering and Liverpool was buying here but despite the early gain the market was dull. The weekly crop report from Washington made no reference to the drought in Texas and was on the whole favorable except for portions of Texas, Louisiana and South Carolina. Receipts at ports were 6000 against 19,000 last year.

GRAIN LETTER.
New York, June 24.—Wheat has been barely steady today except for July which has been bought in large quantities by local shorts and acted in a very erratic manner. The opening was lower throughout the entire day on good weather in wheat belt and responsive cables. Shortly after opening a good demand developed for July and this helped the further months but when the demand ceased the market declined only to strengthen again on big decrease in visible and an improvement in the cash situation. The close

was a little higher for July and lower for September and December. Corn has been fairly strong. July fluctuated widely and showing a good advance. December was in good demand by commission house while offerings of September were more liberal and resulted in a loss at the close of 1-4 cent. Provisions were strong again today but did not show the wildness of yesterday and offerings were freer, selling of ribs by brokers supposed to be acting for Cudahy was a feature of the market, outside liquidation was not iced in pork and lard, brokers bought and commission houses were on both sides of the market.

EARLY DESPATCHES ON THE KING'S ILLNESS

Churchill personally delivered to the mansion house, the official residence of the lord mayor, a message regarding his majesty's illness, and at this morning's rehearsal of the coronation ceremony at Westminster abbey, the bishop of London, Right Rev. A. F. Ingram, made a statement as follows: "I have to make a very sad announcement. The king is suffering from illness which made an operation necessary today. The coronation, therefore, will be postponed."

The bishop requested the congregation to join in the litany out of the coronation service and pray for the recovery of the king. During the afternoon Earl Marshall, Duke of Norfolk, issued the following notice: "Earl Marshall has received the king's commands to express his majesty's deep sorrow that owing to his serious illness the coronation ceremony must be postponed. The celebrations in London in consequence, will be likewise postponed, but the king's earnest hope is that the celebrations in the country shall be held as already arranged."

The king also expressed to the lord mayor his desire that his majesty's dinner to the poor of London should not be postponed. Nothing yet is decided regarding the movements of the foreign guests. The first intimation that Whitelaw Reid had of anything wrong, was obtained in a communication cancelling the state banquet which was to be held in Buckingham palace.

New York, June 24.—The disturbing effect of the illness of the king of England caused a downward swing to prices at the opening of Wall Street, but the decline did not exceed a point in the leading stocks.

London, June 24, 2:46 p. m.—The following bulletin is posted at Buckingham palace: "The operation has been successfully performed. The large abcess has been evacuated. The king has borne the operation well and is in a satisfactory condition."

It is understood, however, that the special ambassadors and royal guests will return to their respective countries as soon as definite news is received of the result of the operation. At the various palaces and hotels where foreign representatives are staying the news created the greatest dismay. Royal carriages were already drawn up in readiness to take the guests to the reception at the palace, but the moment the "tickers" announced his majesty's illness, all preparations ceased.

On the streets the change which came over the crowds was most pronounced. Traffic seems paralyzed and it was long before the full effect of the startling intelligence was felt. The streets, as the day wore on, became more and more congested, and the holiday concentrated into groups reading and rereading the extras. Most of the people seemingly felt dazed and scarcely appreciated the full report of what they read.

Work on the stands erected on all sides to enable the people to view the coronation procession was gradually discontinued. The lord mayor has instructed the workmen to demolish the stands in front of the mansion house. Those in Piccadilly will be taken down tomorrow.

The king treated the idea of an operation very lightly his great concern being for the disappointment of the people. "This, however," added the officer, "was entirely unavoidable, as up to the last moment the medical attendants confidently hoped that in any case the patient would be able to get through the more important of the coronation ceremonies. Many of the foreign representatives called at Buckingham palace this afternoon to make inquiries about the king's condition."

London, June 24.—In the house of commons, the government leader, Mr. Balfour, announced that an operation had been performed on the king, and that his majesty was progressing as well as possible. Balfour added that while the king's condition was undoubtedly grave, he did not intend to increase the public alarm by adjourning the house.

London, June 24.—Lord Salisbury, in the house of lords, said the surgeons entertained the most satisfactory view in regard to the progress of the distinguished patient.

FAST FLYING CAR CATCHES ON FIRE

At High Speed Trolley Is Enveloped In Flames.

PANIC AMONG THE PASSENGERS.
Fuse Burned Out and Explosion Followed—Many of the Occupants Were Badly Burned, One Fatally—Others Were Injured by Jumping.

New York, June 24.—While running at high rate of speed a Myrtle avenue trolley car in Brooklyn took fire, burning the motorman and five passengers, one probably fatally. Other passengers were badly injured, jumping to escape the flames which swept the full length of the car, being carried by the wind. Those injured were: Grace Von Birkland, 17 years of age, burned about the face, arms and legs; will die. Oscar Von Birkland, Mrs. Grace Von Birkland, Thomas Huff, motorman; Philip Ross, Jr., and Frank Loretto, all burned about face and hands.

The car was making a return trip to the Brooklyn bridge from the Ridge way picnic park. It was loaded to the utmost limit, the conductor's register showing 110 passengers, when there was a report that was heard three blocks in all directions, and which almost lifted the car from the track. A fuse had burned out, and a flame immediately caught the woodwork and also burst through the motor box. This flame was carried up over the front dashboard, and being caught by the draught, caused by the car's speed, swept back, burning all who were unable to throw themselves into the street. The motorman, although much injured, stuck bravely to his post and applied the brakes, bringing the car to a stop.

Miss Von Birkland received the full force of the flames, and was unconscious when the car was brought to a standstill. Her father and mother were so badly burned that for a time it was feared that they might not recover. The car was almost entirely destroyed.

TROLLEY CARS COLLIDE.

At Full Speed They Come Together Injuring Ten Persons.
Chicago, June 24.—Ten persons were hurt in a trolley car collision last night. The accident occurred at Clark and Twelfth streets, a south bound Twelfth street car meeting at the crossing. Each motorman thought he had the right of way and both cars were going at full speed.

The injured: Aronhouse, Louis, head severely cut. Cohn, Harry, severely bruised. Cotter, James, motorman, left arm broken. McLaughlin, Mrs. Anne, back severely wrenched. McLaughlin, M. L., side cut by splinters. McLaughlin, Duke, head bruised. Osterzeter, Bennie, severely bruised. Ridner, Lee, severely bruised. Schmidt, Miss Lena, badly bruised. Suher, Mrs. Jane, wrenched and seriously bruised. No arrests were made.

FOUR PICNICKERS DROWNED

Boys Were Riding in a Boat When It Capsized.
St. Louis, June 24.—Four boys were drowned by the capsizing of a boat at Fern Glen, a resort 15 miles from here. They are: Eddie Flynn, 17 years old. Robert Regan, 16 years old. Peter Larkin, 17 years old. Alphonse Kerns, 16 years old. The drowning occurred at the annual picnic of the St. Louis Turnverein.

Crazed by Cudahy Kidnaping Case.
Omaha, June 24.—Mrs. Kate Feeley, who became mentally deranged a year ago over the Cudahy kidnaping case, has been taken to the insane asylum at Clarinda, the commissioners having decided she was insane. She was brought here from Troy, N. Y., by Deputy Sheriff Askin, of that city. Shortly after the Cudahy kidnaping case Mrs. Feeley became seized with the hallucination that she had witnessed the perpetrators of the crime divide the \$25,000 paid by Mr. Cudahy for the return of his son and that in consequence they were following her with the intention of murdering her.

Big Gun Ready for Trial.
New York, June 24.—A 16-inch gun, the largest in the world, will be completed at Watervliet arsenal by Wednesday and sent to the United States government proving grounds at Sandy Hook. Its operations are expected to astonish the world. It is the most powerful weapon yet devised by man and is expected to revolutionize the art of gun making. The work upon this gun has been going on for years. Monster cranes have been constructed in order that the various parts of the record-breaking gun may be conveniently shifted.

Cold Snap in Iowa.
Des Moines, Iowa, June 24.—Unseasonably cold weather continues, and fires are being rendered necessary. The seriousness of the crop condition has been further augmented by an inch and a half of rainfall within 24 hours.

Gazette "wants" one cent a word.

SOUTHERN RAILWAY

In effect June 8th, 1902. This condensed schedule is published as information and is subject to change without notice to the public. (EASTERN TIME).

6:55 a. m.—No. 36, daily for Baltimore, Washington, and the East, connects at Salisbury, Greensboro and Danville, for Charlotte, Raleigh and Richmond.
