

EVIDENCE OF FRAUD IS ACCUMULATING

Congressman Moody Here for Several Days' Consultation With His Attorneys Relative to the Evidence Already in Hand.

Congressman James M. Moody came to Asheville yesterday afternoon and is stopping at the Berkeley.

He will remain here for several days in consultation with his attorneys concerning the evidence of fraud already at hand and the search for further evidence to be used in the contest.

He says that a lot of evidence has already accumulated and good progress has been made in the preparation of his case.

CATHOLICS AT THE CAPITAL

Washington, Nov. 12.—The Catholic archbishops of the United States and a number of the prominent clergy are assembled in the city to attend the annual meeting of the board of trustees of the Catholic university and of the archbishops this week.

A BULL DOG

Is Easier to Shake Off Than the Coffee Grip.

A lady of St. Paul, Minn., never drank anything but cold water until she was married, and then commenced to drink coffee.

She says, 'About one year after our marriage, my husband began to complain of a distress in his stomach and I had such dizzy spells after each meal that we had to see a doctor. We drank coffee three times a day, but did not imagine that coffee was causing all this distress. The doctor said both our livers were out of order, gave us some medicine and told us that we ought to break off drinking coffee. In five years' time I lost a complexion that was faultless and gained a very bad stomach, and my husband's stomach was ruined. He thought he had cancer of the stomach, or something worse, but we had formed the habit of coffee drinking, and, like drunkards, found it no easy matter to break off, although we knew it was killing both of us.'

'We kept a grocery store at the time, and a lady called one day and asked for Postum Food Coffee, saying—'My children like it; will not drink anything else, and I know it is good for them, because they never have trouble with their stomachs.' This interested me, and I told her about my bad stomach. She told me to make Postum and we began its use ourselves. 'After drinking it three times a day for a week, I felt much better, and my husband declared that he felt like a new man. We have drunk Postum for four years and have never had one particle of stomach trouble since, and I have lost that sallow, yellow color I so much disliked, and the whites of my eyes are as clear as ever again. I know it is because we left off drinking coffee and drank Postum. I can eat anything and everything, and never know I have a stomach. My husband used to say I would ruin our coffee trade because I told all my friends what Postum had done for us.' Name given by Postum Co., Battle Creek, Mich.

In this country; that is, taking it out of its present status as a missionary country, has been much discussed of late, and it is expected that it will be brought prominently to the front at the present meeting. It is considered as unlikely that the Philippine question will be introduced, the archbishops being content to let the matter rest between Governor Taft and Mr. Guidi, apostolic delegate to the Philippines.

AFTER EQUINOX

The season has changed. Cold winds, damp air, coughs, colds, grippe, pneumonia—that's the order of events.

This is the time of year for those with weak lungs or a tendency to heavy colds to fortify themselves against exposure by taking Scott's Emulsion.

Regular doses give great protection to the throat and lungs. What's the use of staying near the edge when such easy treatment will keep you out of danger.

For obstinate colds, for old coughs, for catarrh and bronchitis Scott's Emulsion is a standard remedy. You can feel the effects of even a small bottle.

We'll send you a little to try, if you like. SCOTT & BOWNE, 409 Pearl Street, New York.

LABOR MEN GATHER IN NEW ORLEANS

New Orleans, La., Nov. 12.—More than a million and a half of working men and women throughout the country will watch with interest the opening of the twenty-second annual convention of the American Federation of Labor in Odd Fellows' hall tomorrow morning, and the work done there during the week will directly affect at least 800,000 persons.

Two delegates, Messrs. Edwards and Arrandale, from the working men of Great Britain and Ireland, are here and will attend the convention to aid with advice and experience and to tell the American working classes how the old and successful trades unions of England operate.

Much important business is to come before the convention. Of the questions to be discussed, the leaders of the labor movement who are already on the field deem most important those arising from the recent action of the National Association of Manufacturers, in which they advocated organization as a counter movement to the organization of labor in the demand on congress for an eight-hour law and an anti-injunction law.

Recognition of Union Labor will be the dominant note of the convention. It is quite probable that a memorial will be prepared for presentation to the labor committees of the house and senate, outlining more clearly the differences which have arisen between organized workmen and organized employers.

Of equal interest will be the discussion of the anthracite coal strike and the work of the arbitration commission. The United Mine Workers will urge the adoption of resolutions calling upon the commission to embody in its findings a recognition of the mine workers' union.

The convention will express dissatisfaction with the Chinese exclusion law passed by congress at the last session, and will ask resubmission of the exclusion measure originally presented.

Agitation for the bill requiring the branding of prison made goods that enter into interstate commerce will also be renewed. The convention will also be urged to enter heartily into the agitation against child labor in the south.

There is nothing to indicate opposition to the present administration of the federation's affairs and President Gompers and Secretary Morrison, together with nearly all the other officers and committeemen, will probably be re-elected by acclamation.

MADMAN'S STRUGGLE WITH HOSPITAL DOCTOR

New York, Nov. 12.—A terrific struggle, in which Dr. Hyde of Bellevue hospital was seriously injured, occurred in an ambulance while the vehicle was being driven rapidly through the streets of this city. The ambulance had picked up an almost unconscious man at Union market and started to the hospital. Dr. Hyde, the ambulance surgeon, was sitting alone near the door when the patient suddenly leaped to his feet and with a scream fell upon the doctor. The driver, fearing his team would run away if he came to the rescue, headed toward a police station, lashing his team into a wild run. Arriving there, it required the combined force of four men to unloose the hold of the madman upon the unfortunate surgeon. The latter's injuries were found to be severe, but not fatal.
