

# Mrs. Frank Grosvenor,

No. 212 Twenty-first St., Galveston, Tex.  
GALVESTON, TEX.,  
March 18, 1902.

For three years after my marriage I felt peculiar bearing-down pains such as I had never experienced before. I tried different remedies but found it was only money wasted. I then consulted a physician who treated me for two months and then said my ovaries were diseased and that I would never get well unless I had an operation. I knew that would mean that I would never have a child and I dreaded the ordeal. I changed physicians but found this did not help me any, and I was in despair.

My sister-in-law then visited me and when I told her of my trouble she said: "If you had used common sense and Wine of Cardui, you would not have been in such a plight." She had used it in her own home and it had carried her through three times when she had children. I sent for some at once and took it faithfully and now find to my great joy that it was all she claimed for it. New strength and with it new hope came back to me and it seemed as if every dose gave me new life. Within three months I was changed from a dragged out mortal weary of life to a hearty, healthy woman full of ambition and life. No operation was needed and better than all I became the mother of a little girl, the pride and joy of the household. I have had two other children since without a particle of trouble. I am well and never take any medicine but Wine of Cardui. I only write that other poor sick women could know of this life-giving medicine and would take it without spending time and money on doctors, who don't cure.

Mrs. Frank Grosvenor,

WINE OF CARDUI, the simple remedy which Mrs. Grosvenor advises you to take has transformed her from a sick, discouraged woman to the bright, happy, healthy person you see in this portrait. Instead of languishing on a bed of sickness Mrs. Grosvenor is now equipped for any duty of womanhood. There are some chronic cases which no medicine can cure but nineteen out of every twenty sufferers today may have the health Mrs. Grosvenor has if they will only take the Wine of Cardui treatment as Mrs. Grosvenor took it. This vegetable Wine regulates the menstrual flow, making this important function both healthful and painless. The bearing-down pains which make life a torture stop when Wine of Cardui is used and

the terrible smarting pains and the inflammation cease. Though powerful in correcting the irregularities of menstruation, Wine of Cardui is a very mild medicine. Any woman may take it without a doctor's supervision, although doctors often give it to their patients when their own remedies fail. This Wine of Cardui treatment is taken quietly at home. No embarrassing private examinations or offensive operations are necessary. If you secure a bottle of Wine of Cardui and begin taking it today you will feel health returning before the month is up. Why not secure a dollar bottle of Wine of Cardui from your druggist at once? Do not accept any other medicine but the Wine of Cardui treatment which Mrs. Grosvenor writes about.

## WINE of CARDUI

### GEORGIA LEGISLATURE.

Important Measures Will Come Before House This Week.

Atlanta, Nov. 25.—The legislature, particularly the lower house, has a very busy week before it, and a resolution is pending with the rules committee looking to cut off leaves of absence except in providential cases, so that there may be a full house present for the transaction of business. While it is not thought that such a resolution will be passed, the chances are that the members will remain here except in cases where it is absolutely necessary that they be away.

Two special orders have been fixed for consideration by the house, and it is likely there will be a third. The police patrol bill, by Mr. Blackburn, of Fulton, comes up for consideration tomorrow morning immediately after the reading of the journal. This measure provides for a patrol of a captain and six men in each militia district so that the passage of this measure would put 11,172 additional police officers in the field. The bill provides that these officers shall patrol their respective districts at least once a week. It is their duty to arrest all idlers, vagrants and criminals, and for making such arrests they are to receive the same fees as are paid the sheriff. They are also relieved of road duty and a penalty of \$5 is fixed for failure or refusal to serve.

The child labor bill, by Mr. Houston of Fulton, will be the special order for Wednesday morning. This bill has the unanimously favorable report of the committee on education, and it is strongly supported in many quarters.

The bill provides that no child under 12 years of age shall work in any factory in the state unless a widowed mother or wholly invalid father is absolutely dependent upon it for support; that no child under 14 years of age shall work in any factory between 7 o'clock p. m. and 6 o'clock a. m., and at no time unless it can read simple sentences in the English language and write its own name, and that in all instances where the provisions of this law apply, parent or guardian of the child so working in a factory shall file with the factory authorities a certificate showing the child's age and condition.

Among other important bills toward the head of the calendar, and which will almost certainly be reached this week unless crowded out by the general tax and appropriation bill, is the bill by Mr. Hall, of Bibb, to require all railroads along or across any public road or which obstruct any public road in this state, to become incorporated under the laws of Georgia. The admitted object of this bill is to require the Southern Railway company to secure a charter in Georgia so that it can be sued in the state courts, instead of almost every case, as now, going to the United States courts.

### RICH DEPOSIT OF COPPER.

Wilkes County Mines Show Greatest Values of Any in the South.

Washington, Ga., Nov. 25.—The Seminoe Mining company, which is operating 12 miles east of Washington, has struck valuable deposits of copper. The shaft has been sunk to a depth of 250 feet and the deeper it goes the larger the quantity and the better the quality of copper ore.

One hundred and fifty tons of ore have been extracted, and is being run through a smelter, which the company has just completed. Mr. Buchmaster, of Columbia college, New York, is located at these mines for the purpose of testing the value of the metals. His tests show that the matter contains the following values per ton: Copper, \$120; gold, \$120; silver, \$14.50.

Wiley, Mitchell & Co., of New York, the principal owners of this valuable property, have spent recently some \$120,000 in equipping the mine with the necessary machinery.

### Boy On Trial For Murder.

Macon, Ga., Nov. 25.—The Bibb superior court opened today with another murder trial on the defendant being Bass Nash, a young negro boy. Several days ago Nash and a negro boy of his age went hunting. In the afternoon Nash returned to the city, stating that his gun had gone off as he was climbing a fence and that the contents of the barrel took the life of Joe Rockmore. No one saw the killing, but some doubt was thrown upon Nash's statement, and he was indicted by the grand jury for the murder. The evidence against the prisoner is purely circumstantial.

The arsenal grounds at Indianapolis, Ind., have been bought for a technical school for \$150,000.

Mussolini, the condemned Italian brigand, is starving himself to death.

### WILL DEVELOP RICH GOLD MINE.

Capital Stock of Pine Hill Company Increased by Directors.

Goldboro, N. C., Nov. 25.—F. A. Silver, of the Pine Hill Mining company has made public the fact that his board of directors this week at a meeting in St. Paul, Minn., decided to increase the capital stock of the Pine Hill gold mine in Randolph county to one million.

Mr. Silver, returning from St. Paul, came by New York and made a deal with a New York firm of underwriters for placing the stock. A two hundred thousand dollar plant with a capacity of one thousand tons per day will be installed.

James Cronan, of Spokane, and engineers from St. Paul and Duluth, say that the Pine Hill mine in the quantity of ore available and the scale of operations contemplated, will surpass anything they have ever seen. Members of the board of directors will come here Dec. 2 from St. Paul to arrange for further development of this wonderful mine.

### TENNETT LOMAX IS BURIED.

Secret Orders, Military, Sons of Veterans, Pay Tribute.

Montgomery, Ala., Nov. 25.—The funeral procession which followed the remains of Tennent Lomax to the grave was the largest ever known in Montgomery.

The Knights of Pythias, Odd Fellows and Red Men turned out in a body and the Blues military company formed the escort.

The Confederate Veterans' Camp Lomax furnished a delegation in uniform and the Sons of Veterans were out in force. The weather was ideal and there was a great outpouring of people, which overflowed the largest church in the city where the funeral services were held.

At the grave the Odd Fellows and Pythians added their burial rites to those of the church and the Blues fired a salute.

It is reported here tonight that Lomax left in his will a handsome bequest to the university.

### DEAD BOODY FOUND IN RIVER.

Missing Jeff Moore Was a Victim of Accident Near Greenville.

Greenville, S. C., Nov. 25.—The body of Jeff Moore, son of J. D. Moore, of Victor Mills, Greers county, was found Saturday afternoon by L. S. Brown, in Enoree river, about 2 miles above Pelham.

Young Moore, who was partially demented, had wandered from home three weeks ago, and despite efforts of anxious parents and many friends, no trace of the boy could be found.

The body was partially decomposed and there are no signs of foul play. The supposition is that the boy fell in the river while on his way to Pelham where relatives live.

### Suffering From Car Shortage.

Birmingham, Ala., Nov. 25.—The shortage of cars and locomotives with the railroads is still more pronounced, and greater inconvenience is being experienced by the industrial people of this district. Some of the railroads have proposed to relieve the situation by offering the use of box cars. The coal operators have tried to use these cars, however, with little success, as they find they are not suited to the chutes at the mines, and some other method will have to be invented. A prominent railroad agent stated that instead of slackening the demand for cars was steadily increasing. He stated that some of the cars which the railroads ordered months ago have now been delivered, but that they are coming very slowly and the railroad officials of the district are at their wits ends to relieve the situation.

### Lockout at New Rochelle.

New York, Nov. 25.—A lockout was declared today by the Builders and Contractors association of New Rochelle, which forced, all the building trades workmen in suburbs north of New York and Mt. Vernon, N. Y., to the Connecticut line to quit work. The number of men out is about 1,500. The trouble grew out of a recent strike caused by a disagreement between plumbers and their employers.

### NIP THEM IN THE BUD.

If you have loss of appetite, headache, constipation or biliousness take Electric Bitters. It cures or no pay. Only 50c. All druggists.

In 1901 there were completed in Tokyo, Japan, buildings costing \$50,000 to be used as a university exclusively for women. This university now has 550 pupils and 46 professors and instructors. Departments of Japanese and English literature and domestic science are included in the curriculum.

Almost any caller is a bore if he comes at the wrong time.
