REVOLTING CRIME CHARGED TO BLACK

Man from Alexandria Jailed Here on Affidavits of His Wife and Daughter.

Joseph Black, who lives near Alexander, in French Broad township, was brought here today and committed to jail without bond by Justice of the Peace Zeb F. Vance on a warrant charging him with incest by force upon his own daughter, Dorcas Black, who is about 21 years of age. The warrant was issued upon the affidavits of Dorcas Black, the daughter, and Mrs. Celia Black, the wife of Joseph Black. In her affidavit, Dorcas Black sets forth that her father has had improper relations with her, at the time threatening her if she did not obey his will, and that her present condition is due to her father. The daughter further states that since she was ten years of age, her father has talked improperly with her.

Mrs. Black, the mother of the girl, sets forth that her husband, and the father of the girl, has had improper relations with the girl, and that he has made her bow to his will, with threats since she was ten years of age; and has talked improperly to all his daughters since the time they were ten years of age.

Black has been regarded as honest and "all right." The news has created a great deal of talk in the Alexander section and much feeling is manifested in the matter. The entire community seems greatly shocked that such a scandal could have happened in their neighborhood as is alleged in the warrant. Black is a man about 45 years of age. His son was here today and seemed astounded by the charges made against his father, and was not sure whether they are true or not.

The laws of North Carolina make the crime charged a felony and impose a sentence of not more than five years in the penitentiary.

Should the charge of force be proven, it is likely that the crime will become akin to that of criminal assault. In its every aspect, the charge is a grave one.

SENSE ABOUT FOOD

Facts About Food Worth Knowing.

It is a serious question sometimes to know just what to eat when a person's stomach is out of order and most foods cause trouble. Grape-Nuts food can be taken at any time with the certainty that it will digest. Actual experience of people is valuable to anyone interested in foods. A Terre Haute woman writes: "I had suffered with indigestion for about four years, ever since an attack of typhoid fever, and at times could eat nothing but the very lightest food, and then suffer such agony with my stomach I would wish I never had to eat anything. "I was urged to try Grape-Nuts and since using it I do not have to starve myself any more, but I can eat it at any time and feel nourished and satisfied, dyspepsia is a thing of the past, and I am now strong and well. "My husband also had an experience with Grape-Nuts. He was very weak and sickly in the spring. Could not attend to his work. He was put under the doctor's care but medicine did not seem to do him any good until he began to leave off ordinary food and use Grape-Nuts. It was positively surprising to see the change in him. He grew better right off, and naturally he has none but words of praise for Grape-Nuts. "Our boy thinks he cannot eat a meal without Grape-Nuts, and he learns so fast at school that his teacher and other scholars comment on it. I am satisfied that it is because of the great nourishing elements in Grape-Nuts. "There's a Reason." It contains the phosphate of potash from wheat and barley which combines with albumen to make the gray matter to daily renew the brain and nerve centers. It is a pity that people do not know what to feed their children. There are many mothers who give their youngsters almost any kind of food and when they become sick begin to pour the medicine down them. The real way is to stick to proper food and be healthy and get along without medicine and expense. Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

J. I. HODGES WANTED FOR FALSE PRETENSE

Requisition Papers Are Issued, and Officer Will Go to Morristown for Him.

Sheriff Hunter today received from Governor Kitchin requisition papers for J. I. Hodges, a Morristown, Tenn., man; a man who was in Asheville some months ago and who, it is alleged, owns a couple of bloodhounds now in the custody of Deputy Sheriff Mitchell, and which this week were attached for an alleged debt. The charge against the man Hodges causing the issuance of a warrant and the request for requisition papers, has to do with another thing, however, aside from the bloodhounds and the attachment for debt. It is alleged in the warrant that Hodges obtained money under false pretense. It is said that while here Hodges asked an Asheville man to cash a check or checks, for him, the check or checks being to the amount of about \$200. The checks were not paid. They went to protest and the Asheville man immediately wanted to know why. Hodges in the meantime had returned to Morristown. There was some correspondence between the Asheville man, the Asheville officers and the Tennessee authorities which was not entirely satisfactory, and upon the intimation that Hodges would not return to Asheville without requisition the governor was asked for the authority to bring Hodges back from an adjoining state. It is expected that Constable Mack Jones will go to Morristown this afternoon for the purpose of bringing Hodges here to answer the charge lodged against him.

At a meeting of football enthusiasts held last night at the Y. M. C. A., it was definitely decided to have an All-College football team in Asheville this season and to arrange a schedule of games with several strong teams throughout the state and adjoining states. There were a number of enthusiasts present representing colleges throughout the south, and incidentally men with records in the athletic world and on the gridiron. An organization was effected and B. S. Schoeff, a former student of the Asheville School, chosen manager for the season. A schedule of games is now being arranged, including a game already fixed for November 11 with the University of South Carolina. The first regular team practice of the All-College eleven will be held at Riverside park Monday afternoon at which time a captain for the team will be elected. It is certain that games will be arranged with Bingham, the Asheville School and probably with the leading state colleges and the University. The average weight of the team will be about 180 pounds, which will compare favorably with the weight of teams in this section.

BROCK'S BIRTHPLACE NEAR BREVARD'S SITE

Then Buncombe, Now Transylvania—Brock Was Probably Oldest Person in U. S.

Last Saturday The Gazette-News printed a dispatch from Waco, Texas, which told of the death there of Isaac Brock at the age of 121 years, six months and three days old, having been born in Buncombe county March 1, 1788. The Sylvan Valley News of Brevard, after copying the dispatch has this interesting information regarding Mr. Brock: "At the time of Mr. Brock's birth Buncombe county covered all of western North Carolina. As a matter of history he was born in what is now Transylvania county and lived for many years near Cherryfield creek. His old house place can still be seen between the old Billy Duckworth home and the railroad. His name is signed to several land deeds and other papers now in possession of the Duckworth family.

"His first wife, we are informed, was a sister of old Jimmie Simars, and he consequently has many relatives in this section who will be pained to learn of his death. He was probably the oldest person in the United States."

His Lucid Explanation.
