MR. BEADLE'S PLAN IS NOW COMPLETE

Improvements of the E. W. Grove Park,
East of Charlotte Street, to Be
Begun at Once.

PLANS BESPEAK A TRIUMPH OF LANDSCAPE GARDENING

Park Management Inspired With the Determination to Make This the Most Beautiful Residence Location in the South.

Plans for the improvement of that portion of the E. W. Grove park lying east of Charlotte street have been completed by C. D. Beadle, the landscape architect, and preliminary operations will begin at once, W. F. Randolph of the Grove park office announces. This section of the park includes the Idlewild property and smaller tracts. Every foot of it has been plotted, and the design contemplates an elaborate system of wide macadam roads. The central idea is a parkway or vista straight to the eastern boundary of the property, back up on the mountain side, a distance of about 1900 feet from Charlotte street, at the point where the fish ponds were in the Idlewild property, purchased from the Deakes. This has already been filled in, the stream being carried beneath by a culvert.

The first section of this vista, from Charlotte street a distance of 600 feet, will be treated formally. Drives 40 feet in width, which from that point will traverse the whole section in curves to conform to the topography, will intersect with a parkway 70 feet wide, from Charlotte street on either side of this stretch of the vista, which will be 200 feet in width. The succeeding section of the vista, 200 feet wide and 600 feet in length, will be treated in contrasting manner, the drives still skirting it, but here swelling out in curves, this part the little stream will traverse, open its banks sloping down, with shrubbery, grass and contour practically as they now are. From the eastward extremity of this section, the vista is maintained on to the boundary of the property. Here and there will be series of steps, at the steeper points. Mr. Beadle's assistants are marking the trees that are to be cut on this entire section of the park, nothing will be touched by the workmen except such trees as are marked for the slaughter, nothing is left to chance. The map provided for six per cent. grades for the system of roads, from Charlotte street to Sunset drive. Every foot of this property is to be developed as planned. The grading of the park will be undertaken as soon as the trees are cut off the way, the roads of the E. W. Grove park, that, by the way, is its real name—are to be of macadam, finished with an asphalt "binder" to prevent dust. The park management expects to be in a position to guarantee to residents practically dustless roads. The roads in the new section will be from 20 to 25 feet in width.

Another large feature of this latest work of Mr. Beadle has to do with developments at the point where the trolley line leaves Charlotte street—opposite the entrance to the original section of the park. In the first place that is to be the entrance to Macon avenue, a thoroughfare 70 feet wide, following mainly the curvings of the railroad as at present, with the track in the center. The depressed road on the north line of Macon avenue, from Charlotte street to the street railway station at the foot of the mountain, will be graded into commanding lot fronts. Just north of the track and east of Charlotte street there is quite a depression, and on the south there is a hill of considerable size. Mr. Beadle cuts away the hill and fills up the depression.

The summit of this hill is to be lowered until one standing on Charlotte street can see clear across to where two trees mark the foot of the mountain proper. Anyone who has had occasion to add a cubic yard or two to his cellar room by excavation will be impressed with the size of this job, without going into actual facts and figures of engineers' estimates.

The archeologists on the Idlewild property, as it is to be, for the first of next January. Work on the entire project will be forwarded during the fall and winter as the weather permits. Road building and other work on the original park, to the west of Charlotte street, progresses steadily.

It is apparent from the maps and plans of the new work that Mr. Beadle has achieved a distinctive triumph in his art. The full extent of that triumph can only be known, of course, when the work has proceeded well into visible shape. He has had a magnificent basis upon which to work and his skill, added to what nature placed to his hand, should make this what Mr. Grove expects it to be, the most magnificent residence locality in the entire south. It might be said that this is not planned to be a rich man's park. Modest houses may be built in it. There will be little restriction as to architecture; but there is this general restriction: that home builders in the park must exercise thorough consideration for their neighbors. Certain rules will be laid down as to building lines, with reference to other folk's views, etc. There will be no fire traps allowed. Anyone who builds in the park may build a modest home, at a fixed minimum price, or a palace—as suits him.

THE WEATHER.
Forecasts until 8 p. m. Friday for Asheville and vicinity: Partly cloudy, with possibly showers tonight or Friday.

All Physicians

Must prescribe some of the ingredients that are contained in Hood's Sarsaparilla—for all troubles of the blood, stomach, kidneys and liver.
They include sarsaparilla, stillingia, yellow dock, gentian, wild cherry bark, mandrake, dandelion, juniper berries, pipsissewa, etc.
The combination and proportions are our own formula and give power to cure beyond the reach of any other prescription or substitute. That's why it is wise to get Hood's and only Hood's.

CITY NEWS

Clyde Mears is critically ill at his home, No. 26 Bartlett street.
Columbus James, colored, was arrested last night, charged with selling whiskey to Harper Styles. The case is set for tomorrow morning before Judge Cooke in city police court.

A fast and snappy football game was played yesterday afternoon at Riverside between Winn's school and the Junior Athletic club and so well matched were the teams that neither was able to score.

John Drake has accepted the challenge of William Ladue, a Canadian wrestler, for a match in the near future and arrangements will be made at once. The men will wrestle catch-as-catch-can, two best out of three falls.

Dr. Arthur E. Reeves, who recently returned from the Canal zone where he was engaged for two and one-half years in the hospital service there, has opened offices in the new Sandley building on Haywood street, and will practice medicine in Asheville.

The grading of the lot fronts along Edwin Place, the 40-foot street running from the Manor entrance on Charlotte street, was begun yesterday and is opening up a splendid view of the park on the west side toward Merrimon avenue.

J. I. Alexander, proprietor of the Battery Park hotel, has purchased from A. E. Noll that gentleman's handsome home property on Montford avenue. The purchase was made through the real estate agency of LaBarbe Meale & Childs and the price paid was \$45,000.

It is expected that there will be a good attendance at the illustrated lecture at the Y. M. C. A. tonight by Capt. Bouters of the salvation army. One of the features of the lecture will be the singing of Capt. and Mrs. Bouters while the pictures are thrown on the canvass. The proceeds of the lecture will go towards the Thanksgiving dinner for unfortunate children which the local branch of the army is preparing.

Dr. E. T. Meriwether was last night at the fifty-fourth biennial session of the Supreme council of the Scottish Rite Masons for the Southern district of the United States, in session at Washington, elected to the honorary thirty-third degree. Dr. Meriwether was the only one elected from North Carolina, and it is a very high honor. There are only few thirty-third degree Masons in North Carolina, among whom are Walter S. Liddell of Charlotte, and James Wakefield Cortlandt, inspector general for North Carolina, who divides his time between Baltimore and Asheville.

THE AFFIDAVIT WAS GRANT.
Continued From Page One.
Reed, which will include the letter which Mr. Grant says Mrs. Reed wrote to Chairman Adams. Mr. Grant admits that he filed the charges against Mrs. Reed and that his wife and daughter made similar affidavits. To quote Mr. Grant: "She then placed her hands on my daughter's shoulders and offered to bribe her to have herself retained in office."
Mrs. Reed enters a specific denial of this charge. She says she never thought of bribing her husband in any way, and merely remarked to Miss Grant, who was in the room, that she would appreciate her help, speaking to Miss Grant, she says, just as she would to her own sister. There would have been no reason, she points out, to have "bribed" the female members of Mr. Grant's family.

Dam Bursts; Many Drowned.
Constantinople, Oct. 21.—Twenty-five persons were drowned following the bursting of the dam at Lake Derkera, the lake that supplies water for the capital.
