

# AT The Ladies' Outfitter

## Tomorrow, Saturday

Special Sale on Ladies and Girl's Long Coats. 135 Long Coats will be placed on our counters, worth from \$12 to \$25, you may pick your choice tomorrow, special, at

**\$5.00**

Who will be the lucky buyers?

Next Wednesday we will have a Special Sale on Comforts. Make your arrangements to buy your Winter Comforts on that day. Next Wednesday, the 10th.

Remember our Millinery Department. All come, stop in front of our store.

The only Dry Goods Store on the Square.

## SURVEY OF STATE FROM THE CAPITAL

Continued From Page One.

of independence, declaring it to be the home of freedom, and said that the congress, which is the most representative body of farmers on this continent was glad to meet here.

The choral society sang the state song, "The Old North State," with extremely fine effect, under the direction of Wade E. Brown, the most admirable conductor in the state. The singing brought forth immense applause, and an encore which could not be refused another verse was sung. The governor and his party cheerfully joined most heartily in the singing. At the moment the song was concluded, Ambassador Bryce entered the great hall, the audience rose as he was escorted to the platform by President Hill. Mr. Bryce was greeted with cheers prolonged as he took the platform and was introduced to Gov. Kitchin, Hon. Hilary Herbert and others notable.

President Cameron in a very handsome way introduced Gov. Kitchin as his friend, and the friend of all North Carolina, and said Gov. Kitchin had in congress and elsewhere always done what he could to advance the cause of agriculture (applause). An ovation was given the governor, who made a speech which struck home to every heart in the audience. Western delegates said he reminded them very much of the late Gov. Johnson of Minnesota in appearance and manner, and Ohio delegates were very free to say the position he now holds is too small for him, and that he ought to be in the senate.

The governor touched upon the bookworm saying it would "surrender to the sharp shooter of science." His speech was received with unbounded applause and he has every reason to be delighted with the compliments showered upon him.

Dr. Paul Harringer. President Cameron next introduced Dr. Paul Harringer, the president of the Virginia Polytechnic Institute, who made one of the very best speeches of the occasion.

The next speaker was former secretary of the navy, Hilary Herbert, who was greeted with a volley of cheers, and who though 75 years of age spoke with all the fire of 40. He had been introduced as one of the cabinet under the wise administration of President Cleveland, and began by saying that, listening to the inspiring strains of "The Star Spangled Banner," he was proud to be here, to assist in welcoming this great congress to the south, representing all the glorious union. He said it was the farmer who brought about the union of the state, for the common interest. He referred in a very striking way to the things which led up to the Civil War and to the War itself. He said that the south had concluded that it could live without the north, but the north had concluded it could not live without the south. (applause).

It was 1:30 o'clock when Mr. Bryce concluded a not-to-be-forgotten address, and then the choral society sang the national anthem of this great western world of ours, following it with that of Mother England. "God Save the King," concluding with a verse which lends at once the aspirations and the prayers of the Mother and the Daughter countries. Ambassadors Bryce and Mr. Herbert stood side by side and sang together, quite near being Governor Kitchin, and Congressman J. Hampton Moore of Philadelphia, the president of the Deep Waterways association, both singing with all their might; a scene not to be forgotten.

Another notable visitor here is George H. Parkin, of London, who has charge of the Rhodes' scholarships at Oxford. He says four North Carolina boys have won scholarships there, and all have done well, and that he wants more of the cream of the youth of North Carolina.

Yet another visitor here is Dr. W. F. Massey, for many years professor of agriculture at the A and M college, now of Philadelphia. State Superintendent Joyner spoke today of Dr. Massey as the "Pioneer in agricultural improvement in this state."

The great corn show made in the state museum was completely arranged Wednesday. The judge is Mr. Heighes of Virginia, who for a number of years was a pomologist of the U. S. Agricultural Department.

Paul Elder W. A. Simkins bought the very fine farm of Mr. Howell Cobb, proprietor of the Yarbrough, this being a few miles south of Raleigh.

Mr. Nichols' Birthday. Next week United States Commissioner John Nichols, past grand master of Masons and editor of the Oxford Orphan's Friend, will celebrate his 75th birthday. He has for many years been a most efficient commissioner. His office on the third floor of the Federal building is to be fitted up as a jury room and he will have an office on the second floor. The rebuilding of the Federal court room is progressing with an entire re-arrangement. The folding seats, old and worn out, will be replaced by oak benches. Judge Connor, who was here yesterday, remarked that in future he would hear cases at chambers in the court room, instead of his private room.

Today another boy bitten by a mad dog arrived here for treatment at the State Laboratory of Hygiene. He is Roy Evans of Mt. Pleasant, Nash county, and was bitten by a shepherd dog owned by his father.

The Corn Show. There were no end of visitors to the State Museum yesterday and those from other states took great interest in the show of corn and other farm products, vegetables, etc. A farmer from San Marcus, Texas, admitted that he had never seen such corn before in his life, and never dreamed that North Carolina could grow it. There are a good many surprises in agriculture, and one of these is the official showing of the amount of corn grown on one acre, 15 miles south of Raleigh, by young Mr. Batts, who some years ago went there from Nash. He raised 225 bushels on an acre.

## MAKES STOMACH TROUBLE VANISH SIMONS CASE UP IN SUPERIOR COURT

Indigestion, Gas, Heartburn and Dyspepsia go and you will feel fine in five minutes.

Why not get some now—this moment, and forever rid yourself of stomach trouble and indigestion? A dieted stomach gets the blues and grumbles. Give it a good eat, then take Pape's Diapiesin to start the digestive juices working. There will be no dyspepsia of belching of gas or eructation of undigested food; no feeling like a lump of lead in the stomach or heartburn, sick headache and dizziness, and your food will not ferment and poison your breath with nauseous odors.

Pape's Diapiesin costs only 50 cents for a large case at any drug store here, and will relieve the most obstinate case of indigestion and upset stomach in five minutes.

There is nothing else in the market to take gas from stomach and cleanse the stomach and intestines, and, besides, one single dose will digest and prepare for assimilation into the blood all your food the same as a sound, healthy stomach would do it.

When Diapiesin works, your stomach rests—gets itself in order, cleans up—and then you feel like eating when you come to the table, and what you eat will do you good.

Absolute relief from all Stomach Misery is waiting for you as soon as you decide to take a little Diapiesin. Tell your druggist that you want Pape's Diapiesin, because you want to become thoroughly cured this time.

Remember, if your stomach feels out-of-order and uncomfortable now you can get relief in five minutes.

This is the most famous acre of corn ever grown in North Carolina. More farmers saw it growing than ever saw any other acre of corn in this part of the world, and it had done a great deal to educate Wake and other counties as to possibilities. This is the corn which Gov. Kitchin and most of the other state officers went specially to see. Some of the stalks have ten ears, and it makes a great show in the museum. It beats the record in the United States, upon official count. It is said that more was grown on an acre in Marlborough county, South Carolina, but that statement was not official. Think of it! North Carolina beating the west on corn. No wonder farmers from the west who are here are opening their eyes.

Raleigh to Have a Y. M. C. A. It looks like Raleigh is now to have a Y. M. C. A. A thousand signatures of endorsement of the plan have been obtained and next Saturday afternoon there will be a conference at the chamber of commerce here, at which there will be present every pastor and two representative laymen from each congregation. The effort was made a few years ago to secure a Y. M. C. A. building, which Raleigh has never had, strange to say, but it failed.

Then there seems to have come a most decided change in public sentiment. The preliminary meeting of conference will no doubt arrange for a great mass meeting. The women are showing very deep interest in the movement.

The Hall of History. Your correspondent spent an hour in the hall of history with Mr. Parkin of London and State Superintendent Joyner. Dr. Parkin was delighted to see so great a collection, and expressed the deepest regret that the state had failed so far to provide a fire-proof building for it. Superintendent Joyner cheered him somewhat by the declaration that the next legislature would provide a building proper to shelter and care for the greatest collection by far in the south. Dr. Parkin was shown the Confederate text book and there were tears in his eyes as he read that immortal message written to his father by the late Col. Isaac Erwin Avery of the Sixth Regiment North Carolina troops: "Tell my father I died with my face to the enemy. He said it was a message for the world to hear. While in the Hall of History with these gentlemen your correspondent installed the remarkable exhibit illustrating life on the old plantation, from "Palmira," the home of the Pattersons, the collection having just been received from Mrs. Lindsay Patterson of Winston-Salem, who is here to attend the annual meeting of the State Literary and Historical association, of which she is so honored a member. This collection is of great beauty, covers a wide range, and Dr. Parkin and Mr. Joyner said it would be appreciated by everyone who was so fortunate as to see it. Some of the articles came in one of the old fashioned hair trunks which were in use a century ago.

Over 60 Exhibitors. There are over 60 exhibitors of agricultural products, fruit, truck, etc., participating in the wonderfully fine show at the State Museum. The expert corn judge said the exhibits were equal to any he had ever seen anywhere. A delegate from Oklahoma to the congress said he had traveled 1695 miles to get here and that he considered himself already well paid for his trouble, for he had missed his dinner to see this corn show and in all his life he had never seen anything like it. He remarked that the farmers of Oklahoma did not know how to raise corn; that the best he had ever seen able to do was 48 bushels to an acre, but that next year he intended to get right at it. He was looking at the prize corn, from the acre on which 225 bushels had been grown this season. He remarked that he was going to buy corn from this show to take home for seed. As a matter of fact the members of the board of agriculture, who took a good look at the show this afternoon, are simply delighted with it and well they may be. The \$500 they put up for prizes has brought fine things from the mount, in to the sea. The industrial officials of the various railways are here and they are taking very keen interest in this show.

The judging of the corn went on all the afternoon and the experts said they would be occupied until after midnight, so the results would be announced at once in this state contest, and it will also be announced in this notable Wake county contest.

This is the Third Homicide Case to Be Called During the Present Term of Court.

In Superior court late yesterday afternoon the homicide case of State vs. Tom Simons—the third homicide case to be called at the present term of court—was taken up, a jury selected and the introduction of testimony commenced. The prosecution of the murder case is in the hands of Solicitor Brown, Judge Thos. A. Jones and R. B. Williams; the defense is being looked after by Hon. Locke Craiz, Frank Carter and J. H. Martin.

Simons is charged with the killing some time ago of Albert Murphy. The men were both negroes. The state alleges that Simons went to the home of a negro woman in the northwestern part of the town one night where Murphy was; that a quarrel ensued and that Simons shot and killed Murphy. The defendant pleads self-defense; the defense contending that Murphy attacked Simons with a pistol and that Simons shot in self-defense. The first witness called for the state was John Kennedy, an old negro man commonly referred to as "Uncle John."

Kennedy told how he was asleep across the street at the time of the shooting; that he was awakened by two shots; that he got up and went down stairs; told his wife who was lying that she had better go to bed; that she might get shot and then heard three or four more shots. Kennedy told about going out into the street and seeing Mollie Brooks, the "woman in the case"; and also Simons at the Brooks woman's house; that Murphy lay stretched on the ground with his right hand under him, his left arm outstretched and a revolver lying on the ground a few inches from the left hand.

Kennedy demonstrated to the court and the jury just how he found Murphy. At times the witness was amusing. He was handed a revolver and in demonstrating how he found Murphy handled the weapon very gingerly. Kennedy was put through a rather searching cross-examination by the defense, but held up fairly well, though at times he seemed a bit confused.

Court adjourned for the day after Kennedy had testified.

With the reconvening of court this morning several character witnesses were introduced to prove the good character of Kennedy. Mr. Nix was then called and testified to hearing the shooting; that two shots were fired "deliberate-like," then two or three more shots; a pause of one-quarter to one-half a minute and then three more shots.

The prosecution closed its case during the morning session and the defense introduced testimony. Simons, the defendant, was the star witness. He told about the shooting; how Murphy drew a pistol and shot at him and that he shot in self-defense. On cross-examination Judge Thos. A. Jones for the private prosecution put Simons through a severe cross-examination and brought out some rather damaging evidence.

MERCHANTS' DIRECTORS IN MONTHLY MEETING

Routine Business—Report on Auditorium Purchase—Parcels Check System.

At the regular monthly meeting of the board of directors of the Asheville Retail Merchants' association, held last night in the association rooms on Patton avenue, considerable routine business was transacted and a report made by the Auditorium committee to the effect that the city had purchased the Auditorium and that the matter was settled. The committee was discharged with a vote of thanks for the excellent service rendered.

The parcels checking system, having to do with checking packages for persons on the Weaverville line, came up again and the statement was made that all members of the association had not yet applied to the secretary for checks used in this system, made that these checks are ready at his office and all members are entitled to them. The checking is working fine, and is meeting with general approval. Any person buying an article at any of the stores which are members of the association may have the same checked free of charge and delivered at the check room of the Weaverville line. This is a matter of convenience as all parcels from the stores can be found there when the purchaser is ready to leave the city.

Hoarseness in a child subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given at once or even after the croupy cough has appeared, it will prevent the attack. Contains no poison.

Mabel Van Buren, who last season played the leading feminine role in "The Virginian," is now, in the same capacity, in the company playing "The Squaw Man."

Stuart's Dyspepsia Tablets. This complaint constitutes one of the most common forms of dyspepsia. It is the bane of those who ignore natural laws, and forget that the healthy action of the stomach is dependent on the condition of both body and mind. Those whose pursuits oblige them to pass much of their time within doors; men of letters, and of business, whose minds are seldom perfectly relaxed; administrators, speculators, financiers, and the various professional men fall ready victims to it.

Slow digestion occurs in persons of all temperaments and habits, but of those in those of irritable, or nervous disposition, and anxious aspect of countenance, who are popularly characterized as "dyspeptic looking." Eating too rapidly is a common, exciting cause of the disorder, as is also imperfect mastication of food from loss of teeth.

There is also a deficiency of the gastric juices, and an insufficiency of the motor and muscular, or churning movements of the stomach walls, and the food remains entirely too long in this organ, instead of being passed down into the small intestine at the proper time.

Even a dinner not exceeding the ordinary limits is followed at varying intervals, but usually within an hour, by a feeling of weight and oppression in the stomach. For several hours afterwards the person experiences decided discomfort, and should even a light supper be taken, horrible night-mare and troubled dreams are certain to result.

"I should be quite well, if it were not necessary to eat," is a common statement made by sufferers from this form of stomach complaint. Many of them actually dread the approach of meal time, knowing what disagreeable symptoms they are sure to experience after eating; and would doubtless discontinue the ingestion of food into their stomachs altogether if it were possible to live without eating.

There is really no necessity whatever for depriving one's self of the pleasures of the table, or to starve the rest of the system because the stomach is derelict in its duty, and does not digest the food as quickly or as thoroughly as it should.

Stuart's Dyspepsia Tablets compel the stomach to perform its functions properly and assist it very materially in the discharge of its duties, a single grain of the principal digestive ingredient of these tablets being sufficient to digest 3,000 grains of food. They not only digest the food, however, but also tone up and strengthen the peptic glands, and the motor function, so that the food will not remain in the stomach longer than necessary. Every case of slow digestion and all other forms of dyspepsia are readily curable by the use of these tablets, which make up the gastric deficiency, and supply the disordered stomach with exactly the same digestive juices that are found in a healthy, vigorous stomach.

Purchase a package of these wonderful digestors from your druggist today for 50 cents and cure yourself of your dyspepsia. Send us your name and address, and we will forward you a sample package free. Address: P. A. Stuart Company, 150 Stuart Building, Marshall, Mass.

## Constipation Cure Free

With the first signs of constipation you resort to the home methods of relief, such as hot or cold water on arising, lots of stewed fruit with your breakfast, etc., but what do you do when these fail?

The morbid then start on anits and purgative waters, then change to cathartic pills, etc. If you have gone through these various stages you know they were all useless, so far as permanent results go. Now you should try just once again, but try something practical and sensible, remedy made and intended for the purpose you are trying to accomplish. Such a remedy, as thousands can testify, is Dr. Caldwell's Syrup Pepsin, which is guaranteed to be permanent in its results. Its ingredients are such that by a brief use of it the stomach and bowel muscles are trained to again do their work normally, so that in the end you can do away with medicines of all kinds. That it will do for Mr. G. S. Dodson of Sanville, Va., will gladly attest, and so will Mrs. S. A. Hampton of Portage, O.

To those who are still skeptical there is a way to prove these assertions without a penny of expense. Simply send your name and address to Dr. Caldwell and obtain a free sample bottle. After using it, if you are then convinced it is the remedy you need, buy a fifty cent or one dollar bottle of Syrup Pepsin, and continue to use it for a brief time until cured. The directions are simple and the dose is small. It is pleasant to the taste and does not grip and is promptly effective, and these statements are guaranteed or money will be refunded.

This remedy is over a quarter of a century old and is personally taken by more druggists than any other similar remedy on the American market. Because of its effectiveness, purity and pleasant taste it is the ideal laxative remedy for children, women and old folks generally. Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels, absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, 1525 Caldwell building, Monticello, Va.

FOR SALE BY ALL DRUGGISTS.
