## TWO BOYS ARRAINGED IN THE POLICE COURT

I want you to bring me a doll and The Court Chides Them for Acknowledged Misdeeds and They Promise to Be Good in Future.

> morning had a hard task to perform when the two small white boys, Fred Weaver and Violet Weaver, arrested yesterday charged with the larceny of chickens from Max Reiter, were convicted and called before the court for sentence. Judge Cocke, after the evidence was in, and after Mr. Reiter had a plea for the boys asking the court to deal leniently with them, called the boys before him and talked to them in plain and simple manner. He told the boys that they should realize that they had a duty to perform just as grown people have duties to perform; that among their little playnates they should do a work for good

rather than set a bad example. The court referred to the juvenile court work and particularly to Judge Lindsey's attitude in dealing with youthful offenders and to Rev. Dr. Campbell's recent paper on the juve-nile court and youthful criminals read before the Pen and Plate club. Judge Cocke intimated that his course in dealing with boys of tender age charged with offense would be with a view I am a little girl six years old and always and with the hope that they

exacted from the boys a solemn prom se that in future they would be good; that they would obey their mother and attend school and that they would not e found in police court again. With this promise the court suspended judgment upon the payment of costs.

The little fellows, standing before the court, not knowing whether the heart of the police judge would warm toward them, or whether they would be sent to the county chain gang to be thrown with hardened criminals, cried a bit as they told the court that they were sorry for their past misdeeds and that if they had but one more chance they would try hard to do that which mother says I have been very good, is right; one of the little fellows saying that in future he wouldn't even pick up a pin in the middle of the road. The court gave the boys another chance and it is now up to Fred and Violet to make good or else, continuing in their past misdeeds, ulti-mately land in the penitentiary.

> DR. HULTEN INTERESTS A GOOD SIZED AUDIENCE

Last night at the First Baptist church there was a good crowd present, notwithstanding the cold night. Dr. Hulten delivered a very interesting sermon on the conversion of Zaccheus. There will be the usual services tonight, beginning promptly at 7:30, and Dr. Hulten will remain over Sunday and fill the pulpit at all services. He will preach a sermon to the Sunday school Sunday morning at 10 o'clock, and at 11 o'clock he will deliver a special sermon. In the afternoon at 3:30 o'clock he will deliver a sermon and again at the evening service he will preach. Asheville has rarely ever had a more fluent earnest and eloquent speaker than this gifted minister and all who have heard him are charmed and pleased with his masterful discourses.

HABIT'S CHAIN

Certain Habits Unconsciously Formed Are Hard to Break.

An ingenious philosopher estimates that the amount of will power neces-sary to break a life-long habit would, if it could be transformed, life i

velight of many tons. It sometimes requires a higher degree of heroism to break the chains of a pernicious habit than to lead a fororn hope in a bloody battle. A lady writes from an Indiana town: "From my carliest childhood I was

Story Denied by Luis. Senor Luis Corea, minister from Nicaragua to Washington until recently, declares that he has no cre-dentials from President Zelaya to represent Nicaragua in Japan or any other country.

Evidence That Zelaya Intends to

Evidence is multiplying that Zelaya ntends to retire from the presidency of Nicaragua. Reports to this effec are general through that country and the American consular offices give credence to them. The latest news reached the state department morning, stating that Jose Madriz is mentioned as Zelaya's successor. the absence of definite information it is assumed that this suggestion comes from Zelaya's friends. For that reason his selection would be far from satisfactory to this government.

Madriz is said to be a men with ambition. It is, a question Central Americans here whether he could be wholly dominated by Zelaya, and they do not understand the rea sons for Madriz's candidacy for the presidency being urged by partisans. as president of Nicaragua would not be satisfactory to the United States.

Washington, Dec. 10 .- "A man has ome to the White House who has some idea of the value of money and the necessity of saving it," declared Representative Fitzgerald York, in the house today, adding that was the duty of the house to back up the president in his efforts to economize.

Mr. Fitzgerald referred to what h declared was the extravagance practiced under the administration of his old enemy, President Roosevelt. After a session lasting ten minutes the senate adjourned until Monday,

while the house adjourned until Tuesday after remaining in session an hour and a half. Both houses are waiting upon their committees.

Microbes Cause Baldness.

Professor Unna of Hamburg, Germany, and Dr. Sabourand of Paris, France, share the honor of having liscovered the hair microbe, Baldness is not caused through few weeks' work of these hair mi-

crobes, but is the result of conditions brought about by their presence. Baldness may not occur until years after the microbes began work, but it is certain to come sooner or later. The microbes cut off the blood sup-

ply. They feed on the fatty matter about the roots of the hair, through which the blood is absorbed. Finally the fatty matter is consumed, the food supply of the hair is gone and it starves and finally dies. Resorcin is one of the most effect

tive germ destroyers ever discovered. Beta Napthol is a most powerful, yet absolutely safe germicide and antiseptic, which prevents development of germ matter, and creates a clean, healthy condition. Pilocarpine, although not a color-

ing matter or dye, is an ingredient well established for its power to restore natural color to human hair when loss of color has been caused by a disease.

Borax, because of its well-defined softening and cleansing properties, is most useful in the treatment of scalp and hair diseases. Glycerine acts as a stimulant to the hair bulbs, and has a soothing, healing and nourish-ing influence.
