"We'll Carry the South for It" Declares Dr. Mann--Flood of Memorials.

SOME FOR, SOME AGAINST "WOMEN'S RIGHTS" IN CHURCH

Rules Committee Report Adopted--One of the Issues of Prominence Now That of Vanderbilt University Control--Delegations Nearly Complete.

There will be a meeting at the Auditorium tonight at 8 o'clock. There will be five or more speakers, who have not been announced.

PETITIONS, memorials and resolutions, proposing various changes in the form of the church government, concerning the Vanderbilt university question, petitions for and against the proposition to give the women of the church a voice in the annual conferences, equal to that of the men, featured the second day's session of the sixteenth quadrennial general conference of the Methodist Episcopal church, South.

Vanderbilt University Question. The Vanderbilt University question promises to be one of the chief issues that will come before this session of the conference. There are two opposing factions, one led by Bishop E. E. Hoss, while Chancellor Kirkland seems to lead the other side. The church side seems to wish to have complete control of the university. It seems that the other side wish to keep the board of visitors self-perpetuating.

The special order of the day was the address of Rev. J. W. Tarbox, a missionary of Brazil. He declared that there is great harmony among the workers of the various churches working in Brazil. Brazil covering about half of South America, he declared, could furnish homes for more than 4,000,000 people. He stated that Brazil is a great field for evangelization but there is a great need for more men and more money to carry on this work.

Dr. Collins Denny, chairman of the rules committee, submitted the report of that committee. The time of meeting was fixed from 9 a. m. to 1 p. m. Dr. E. G. B. Mann of Kentucky took the floor, and asked that the rules be suspended and the action of yesterday by which the name of the "temperance committee" was changed to committee on "moral and social matters" be reconsidered. He contended that the church could not afford to go before the world with the word temperance eliminated. He was out of order as the report of the rule committee was under consideration.
