

OWES HER LIFE TO

Lydia E. Pinkham's Vegetable Compound

Chicago, Ill.—"I was troubled with falling and inflammation, and the doctors said I could not get well unless I had an operation. I knew I could not stand the strain of one, so I wrote to you sometime ago about my health and you told me what to do. After taking Lydia E. Pinkham's Vegetable Compound and Blood Purifier I am today a well woman."—Mrs. W. L. Adams, 155 West 31st St., Chicago, Ill.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no opiates or harmful drugs, and today is the standard for the largest number of female ailments. One in five women are afflicted with a variety of ailments, such as, pain in the stomach, irregularity of the bowels, headache, dizziness, nervousness, and general weakness. It is the only medicine that has been cured from almost every form of female complaint, inflammation, irregularity of the bowels, headache, dizziness, nervousness, and general weakness. It is the only medicine that has been cured from almost every form of female complaint, inflammation, irregularity of the bowels, headache, dizziness, nervousness, and general weakness.

CAPT. ROLLS ALSO A FLIER

Crosses the English Channel Twice Without Alighting Making Round Trip in 90 Minutes.

AMERICAN MACHINE AND ENGLISH AVIATOR

He Skimmed Through the Air at a Height of 800 Feet—A Great Crowd Saw the Show.

New York, June 2.—(City) Charles S. Rolls, the English aviator who flew across the English channel and back without a stop yesterday, will visit the United States next week, representing England in the international aviation contest.

Dover, England, June 2.—(London) Charles Stewart Rolls, captain in the London section of the army motor reserves, driving a Wright 40-horsepower, single-engine, biplane, landed Anglo-Saxon aeroplanes by crossing the English channel twice last evening without alighting. He made the round trip between Dover and Calais in 90 minutes.

While two Frenchmen, Louis Bleriot and Count de Lesseps, have crossed the channel in an aeroplane, it remained for an Englishman in an American machine to perform the feat. The distance across between the two points named is 23 miles, so that this over water flight of 42 miles without a stop establishes a new record.

Captain Rolls left Dover at 6:29 o'clock. The atmospheric conditions were excellent. He had no time in maneuvers, but after describing a circle headed towards the coast of France. In anticipation of the flight he had his motor started at full speed before the start, but the pace of the aeroplane was swift.

Captain Rolls sent his machine to a height of 800 feet, and at that altitude he skimmed through the air like a great bird. The motor worked perfectly. The crowd that watched the start enthusiastically awaited the return, and it was not long before the sleek machine, whose head telegraph spoke was an ornament on the French flag, appeared, crossing larger every minute.

When finally the aviator became visible to the naked eye, cheer after cheer arose from the enthusiastic spectators, and as he gracefully soared toward the landing place made famous by Bleriot he was given an ovation. He alighted at 8 o'clock at almost the same spot as Bleriot, showing little sign of the strain of his momentous flight.

HIGHER RATES; ELIMINATION OF PRIVILEGE

Eastern and Middle West Roads Give Notification of Many Proposed Increases in Freight.

ACTION BY SHIPPERS WAS TAKEN TOO LATE

Eastern Increases to Be Effective July 5, Those of Middle West Roads July 1—Time to Act.

Washington, June 2.—Indignant to the government's proceedings under the Sherman anti-trust act, by which a part of the proposed increase of freight rates in the territory west of the Mississippi river was suspended by injunction, railroads in the East and Middle West yesterday filed with the interstate commerce commission tariffs embodying increased rates.

Last night practically every railroad system in the North from the Atlantic to the Mississippi, had filed with the interstate-commerce commission legal notification of proposed increases in commodity rates. The increases filed range from three to 31 per cent.

The day started off by the filing of schedules of increases by the New York Central, the West Shore and the Delaware, Lackawanna & Western. Then the official proposal of the roads traversing the territory from Chicago and Milwaukee to Indianapolis and Ohio river ports, 23 in all, were brought into the commission. During the afternoon increased tariffs from the Atlantic Seaboard to Chicago, St. Paul and intermediate points were filed. The latter tariffs included those from the Pennsylvania, the B. & O., the New York, New Haven & Hartford, the Boston & Maine, the Erie, the Delaware & Hudson, the Lehigh Valley, the New Jersey Central, the New York, Ontario and Western and the Philadelphia & Reading.

The Baltimore & Ohio also filed with the commission a revised tariff of commodity rates from Chicago to the Eastern seaboard.

Three to 31 Per Cent.

The increases proposed by the roads in the middle West range from six to 31 per cent. Those from the St. Paul to the West varied from three to twenty per cent. The Baltimore & Ohio increase on rates from Chicago to the seaboard average about ten per cent. These increases were figured approximately. The time set for the increases to go into effect on the Eastern roads was generally July 1, on the roads in the middle West July 1 was the date fixed.

Before the revised tariffs began to pour into the office of the commission, Attorney General Wickersham was receiving telegrams from Western shippers, asking him to take action to have the injunction issued by the Federal court of Missouri extended to other commodities and especially wood. Replies were made that it was now too late. It was explained that the government intended in the bill such rates as had been called to its attention and that the failure of other rates to be included must be laid at the door of the shippers.

Immediate action is not necessary inasmuch as the rates are not to go into effect for about a month.

It is believed the railroads will lose no time in filing other tariffs on account of the probability of the expected early passage of the administration railroad rate bill.

The bill in its present form gives the interstate-commerce commission the power to investigate the reasonableness of proposed increases in rates and to suspend the going into operation as long as ten months.

That, Declares Former Gov. Folk of Missouri, Is the Fight Confronting Democracy.

A CRISIS REACHED IN NATION'S AFFAIRS

He Gives His Views at Meeting of Missourians Who Hope He'll Be the Presidential Nominee.

St. Louis, June 2.—Missouri democrats of all factions at a dinner last night heard former Governor Folk announce the principles on which, it is said, he will seek the presidential nomination in 1912. The dinner was in charge in men who have been promoting the boom of the premier governor.

"The doctrine of equal rights should be made a living, vital and controlling force in the government," said Mr. Folk after he had listened to demagogues from all over the state tell the guests that the former governor should be endorsed for the presidency.

"The democratic party," continued Mr. Folk, "should insist upon the stopping out of graft and corruption from every department of government, the eradication of all special favors, including bounties, subsidies and a tariff for any purpose other than revenue."

"We need the honest, sincere enforcement of the laws we already have and the regulation of public utility corporations upon a basis that justice must be done the people and a fair return for the amount actually invested be afforded."

On the subject of issues before the people the former governor said:

"The great issue before the people of this country is, shall there be government by privilege for a class, or government by the people for all? This is a question which parties as well as between parties. The republican party is dominated by special interests and operates with them upon a great sharing basis. We should not be so oblivious to the fact, however, that so long as Altriches and Cannon in our party and it is the duty of democrats to be seen their influence as much as possible. We cannot prevent some of them being in the party, but we should keep them from running the party."

"A crisis has been reached in the affairs of the nation. Pick up a newspaper any day and you will find accounts of thievery and graft. What does it mean? Is corruption becoming a national disease? Is there something in our system of government that encourages men to violate the commandment 'Thou shalt not steal'? Is not the government itself in a large sense a blame for this seeming general disposition? Has not the example which the government sets in enriching a few by taking from all by means of the protective tariff been an influence for corruption? 'With the example of the national government giving privileges to a few there is encouragement afforded all forms of graft, for all graft is based upon privilege. Officials are not bribed to give equal rights but to confer upon the few some privileges denied the many. The elimination of privilege is the fight confronting democracy.'

Nature's Gift from the Sunny South

Cottolene is the Original Pure Food Shortening

There are many imitations of Cottolene, but, like all imitations, they equal the original from which they are patterned only in claims.

Cottolene was the first pure substitute for unhealthy hog fat. It is still the best anti-lard product—in fact, the best and most healthful shortening you can buy today. Cottolene is a high-grade product, made from cotton seed oil refined by our exclusive process. Other products sold in place of Cottolene and claimed to be "just as good" are nothing more or less than cheap compounds, which always sell at from 1c to 2c a pound less than even hog lard.

Do not accept a substitute for Cottolene, for when you pay less you get less; even if Cottolene may cost you a few cents more than some other cooking fat, what does it amount to when you consider the difference in the two products from a health standpoint? Cottolene is the one and only dependable pure food shortening—it contains no hog fat, is always uniform, and makes pure, palatable, digestible, healthful food.

COTTOLENE is Guaranteed Your grocer is hereby authorized to refund your money in case you are not pleased, after having given Cottolene a fair test.

Never Sold in Bulk Cottolene is packed in pails with an air-tight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.
