**Jack Brown Probably Fatally Hurt Hear Hominy—Melton Cathey Alleged Assailant.**

Special to The Gazette-News.

Hominy, June 8.—Jack Brown, a young fellow connected with the Rose Kilian show, a small wagon circus aggregation, lies here at the Luther boarding house in a critical condition, his skull fractured by a stone, said to have been thrown by Melton Cathey, a native boy of this section.

The affair happened Saturday night, but on account of the search for young Cathey the news was kept quiet.

There are several conflicting stories as to how the light began. One is that Brown and several of the show boys persistently followed young Cathey with long poles. His efforts to stop them were of no avail until picking up a stone he dealt what may prove a fatal blow upon the head of Jack Brown. Cathey was last seen at church last Sunday morning. He is the son of Harry Cathey, a highly respected farmer in the north Hominy section.

**HE SAW COMET IN 1835 WHEN IT WAS A COMET**

**C. F. Jackson, Over 80 Years Young, Well Remembers the Visit of Halley's Show.**

This paper was today favored with a call by C. F. Jackson of Columbia, who is visiting his daughter, Mrs. M. B. Johnson. Mr. Jackson has for half a century been active in Masonic work, and has for 22 years held the position of treasurer for the Grand Chapter, Royal Arch Masons of his state.

Mr. Jackson is more than 80 years young, and knows all about a great many things the rest of us have read about. He remembers, as a small boy, watching the United States soldiers as they passed through Charleston on the way to fight the Indians in Indiana, and recalls vividly that night of terror in Charleston, in 1837, when a good part of the city was destroyed by fire. He likewise recalls—and this is the story under immediate consideration—the former visit of Halley's comet in 1835.

It is difficult to find eye-witnesses of that visit, but Mr. Jackson can tell all about it. He remembers getting out in the street and watching the vast sweep of the comet's tail, which was as bright as a star from one end to the other, if comets may be said to have an end. Mr. Jackson, after viewing the comet upon the occasion of that other visit, does not think much of the one now occupying so much newspaper space. He says it can in no wise be compared to the really brilliant and impressive spectacle of 75 years ago.

**YOUNG A. P. COURTNEY IS ADJUDGED INSANE**

**Evidently Became Suddenly Deranged, Very Recently—May Be Committed to Hospital.**

A. P. Courtney, the young white fellow who, yesterday morning in Police court created something of a sensation by hurling a New Testament at the heads of the police court justice and the court officers when called upon to plead to a charge of disorderly conduct, was this morning adjudged insane by City Physician L. H. McBrayer and efforts are now being made to have him admitted to the state hospital at Morganton.

Mr. Courtney is a son of former County Treasurer Courtney, one of the best known and most highly respected citizens of the county, and only a few days ago returned from Oklahoma, where he had made his home for several years.

The young man was all right, mentally when he arrived here, and evidently went suddenly deranged. He has a mania for throwing articles of almost any description at people. Just before his arrest Monday night he threw a handsome gold watch at the head of Mr. Coston while that gentleman was quietly seated in his automobile.

**Is Your Porch Useless Half The Day?**

**Vudor**

**Porch Shades**

will make the sunniest, breeziest porch an inviting all-day living room, where you can read, sew, play games, or take a nap in perfect comfort. At night, a protected sleeping place for those who sleep out-of-doors in pleasant weather.

**Vudor Porch Shades**

shut out all sun-glare and wind, but let in ample light and air

They give the *insider* plenty of outlook, but the *outsider* gets no inlook. They really add another room to your house, as secluded and private as any and unapproached for healthful enjoyment, at a cost so low that it will surprise you.

The way Vudor Porch Shades are made, accounts for their great superiority. The slats are of tough, straight-grained wood, stained (not painted) in pleasing colors. And the warp is of scine twine, such as is used for fishing nets. They have heavy strips top and bottom, and are supplied with the best possible fixtures. They last for years and do not frazzle out at the ends, nor warp out of shape, as do the cheap bamboo screens.

Anyone who has a screw-driver can quickly put them up. They are easily raised or lowered and may be fastened at any desired height.

The only place in Asheville where these shades can be bought is Green Bros., 45 Patton Ave. No extra charge for hanging in the city. Freight prepaid on three or more on out of town orders.
