DOCTORS RETURN FROM CONVENTION

Several of the physicians who attended the session of the North Carolina State Medical society at Wrightsville this week returned to the city this morning. Among the Asheville physicians who attended were Drs. E. B. Glenn, J. H. Williams, H. H. Briggs, Carl V. Reynolds, F. T. Meriwether, M. L. Stevens, H. Fletcher and C. S. Jordan. Dr. Poile of Rowan county was elected president; Dr. McGowan of Fayetteville vice president, and Dr. D. A. Stantley (re-elected) secretary and treasurer. Dr. M. L. Stevens was appointed councillor for the Tenth district.

Since the society had met last year in the west and this year in the east, it was decided to hold the next meeting at a central place, and Pinehurst was selected.

The banquet of the Alumni association of Jefferson Medical college was one of the social features of the convention. Following the banquet the annual election of officers took place. Dr. W. O. Spencer of Winston-Salem being elected president; Dr. W. W. McKenzie of Salisbury first vice president, Dr. Caldwell of Wilmington second vice president, Dr. W. P. Holt of Duke (re-elected) secretary and treasurer. The association was organized two years ago at Winston-Salem by Dr. E. B. Glenn, the retiring president, and Dr. Holt. There are over 100 physicians in the state who graduated at Jefferson. It is gratifying to the alumni to note that the three highest men in their examination before the state board were graduates of Jefferson and also that in a recent competitive examination in Philadelphia for hospital positions there were 136 applicants from the leading medical colleges of Pennsylvania for the places and 48 of the Jefferson graduates were given places; the Jefferson men making the highest grades before the examining board.

China Sale Continued Thru This Week. Finding it impossible to get out and display even nearly all goods we were anxious to dispose of—or to serve satisfactorily those who wished to buy them—we have decided to continue the sale during this week.

A great number of other items have been added. We are benefitted by this sale. In closing out a great deal of fine china we will not crary in the future. And our customers are benefitted in securing some fine goods at about half value.

As a leader and an item everybody wants, we have added forty dozen thin China, Richly Decorated Tea-Cups and Saucers. These are worth, and always sell for \$3.00 a dozen. Sale price 15c a pair.

DO DEALERS MEAN TO DECEIVE?

These Dealers Who Have the Best Interests of Their Customers in Mind, Do Not Intentionally Offer Inferior Goods—Metal Polishers Are a Good Illustration of This.

When you find that you have bought an inferior article that disappoints you and perhaps does more harm than good, you cannot help wondering if your dealer has been mean enough to deceive you for a few cents extra profit. If you have been dealing at his store for some time, he should regard you as one of his old customers and he ought to be wise enough to know that the best way to hold your friendship and patronage is to sell you only such articles as will please and satisfy you.

Most dry polishes for instance, require so much rubbing that they gradually wear away the silver plating or bright finish of other metals. Liquid polishes are free from these faults and they require less time and less work to clean and polish. A great many liquid polishes, however, depend upon ammonia to do the cleaning and there is nothing more harmful to a metal surface than ammonia. You can always tell if a polish contains ammonia by its odor.

There is a liquid polish called BURNISHINE which has been sold in most of the stores all over the country for a good many years, that contains no ammonia, and those who have used it for years have discovered that it never, in any way, is harmful or injurious to their silverware or other metal surfaces. This polish can be used not only on silverware, but on every other kind of metal.

In the Government Buildings in Washington and elsewhere as well as in the Army and on the United States Battleships, BURNISHINE has long been the standard polish. It is also used by most of the big hotels to keep brass railings, signs and show cases, as well as other metal work, bright and shining.

It has been used for generations in many of the finest homes in the country where it is realized that the question of the right kind of polish is too important a matter for experiment.

A YOUTH OF 18 MURDERS GIRL ABOUT SAME AGE

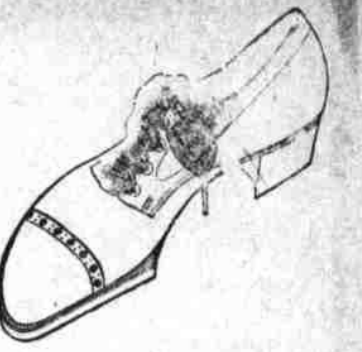

Found With Blood on Hands and Clothes, and Teeth Marks on Arms, He Makes Confession.

Cumberland, Md., June 23.—Harry C. Nolan, arrested on suspicion of having murdered Alice Brown Litten, 18 year old girl, whose body was found in the woods yesterday morning with her throat cut, has made a complete confession of murder, the police authorities stated today. The tragedy was a sequel of a quarrel.

The murdered girl was the daughter of J. A. Brown, and when she was 14 years old was married to Charles F. Litten with whom she is said to have lived but one day. Litten, who was a railroad employe, had not been seen in Cumberland for some time.

"Buck" Nolan, although but about 18 years of age, is of athletic build and weighs something like 150 pounds. The girl left the home of the latter about midnight. Blood stains were found on his clothing and his hands were bloody when he was arrested. In two places his arms showed the marks of teeth, from which it is inferred that the girl fought for her life. Earl Mudge and Loring Barringer, both young men, are held as witnesses in the case.
