

HOT-WEATHER CONSTIPATION

People should be very careful at this time of the year not to become constipated, and if they do become constipated to attend to it promptly. Many people have a special tendency to constipation in hot weather, owing to the sudden change in food and to the fact that the natural moisture of the body that in winter remains within and helps to digest the food, leaves the system in the summer in the form of perspiration. Constipation should be immediately relieved. The best way to do this is not, as some suppose, by eating themselves sick with fruit and making the matter worse, nor by taking salts and laxative waters, which, as all who have tried them know, give but temporary relief; but, on the contrary, you should use a tried-and-true remedy like Dr. Caldwell's Syrup Pepsin, which acts quickly but mildly and which relieves permanently so that a steady and lasting cure results. A bottle can be bought of any druggist, in sizes of 50 cents and \$1.00. Those who have not yet tried Dr. Caldwell's Syrup Pepsin, and would like to make a test of it, can do so FREE OF CHARGE by sending their address for a SAMPLE BOTTLE to DR. W. B. CALDWELL, 400 Caldwell Bldg., Monticello, Ill.

Social Happenings

Social Life at Toxaway Inn.
Toxaway Inn has been unusually gay this season, and many Asheville parties have wended their way to that fascinating resort to spend week-ends in fishing, horseback riding, picnics, dancing and launch rides.

The leaders in the social life at the inn this season are Miss Adelaide and Miss Fannie Mayo and Miss Hazel Hanley of Chicago, all unusually attractive debutantes. Last week was a very gay one at Toxaway. The German on Thursday evening was especially enjoyable, being filled with many pretty and original figures. Among the Asheville people dancing it were Miss Arney Robinson with Mr. Cranston of Augusta, Ga., Dr. and Mrs. Charles S. Jordan, Mrs. Fred Kent and Sidney Kehl.

Friday night Toxaway lake was the scene of a beautiful regatta, the illuminated and gayly decorated boats filled with pretty girls in dainty summer attire presenting a most attractive spectacle. The prize was won by the boat simulating a gondola, of which Mr. Camp of Atlanta was in charge, and in which rode Miss Adelaide Mayo, simply and charmingly gowned in white, with a white parasol bordered with tiny lighted Japanese lanterns.

Monday night an interesting entertainment was given at the inn by the special vaudeville artists.

An Interesting Booklet.
An interesting booklet in attractive form, being bound in forester's green with silver lettering, is the Biltmore Forest school's announcement for the term 1910-1911 just published by the Inland Press company. Besides much information regarding the school, it contains many half-tone illustrations, scenes at the Biltmore school, at camp in the forests of North Carolina, and in the Black Forest of Germany. These latter will be of particular interest, as last year was the first spent by this school in study in Germany, and the illustrations are from photographs taken at that time on one of the baronial estates near Darmstadt, where are found the oldest forest plantations in the world with a large variety of American tree species.

Little Miss Nellie Randall celebrated her 13th birthday yesterday afternoon, with a party of little girls. The children spent the time in games on the lawn and in the house, and late in the afternoon refreshments were served. The guests included Belle Clement, Nellie Whitehead, Jessie Cowgill, Ethel Henry, Edith Clarke, Katherine Bohanan, Nora Boling, Geneva Marks, Katie Lee, Mary Boling, and Metta Powell Northern.

Burnett Jordan has spent the past month in Berlin in earnest voice work, giving occasional recitals which have been so successful, and have proven so popular, that he may decide to return there and engage in permanent work after next season, which he has filled with engagements in New York, New Jersey, Ohio and Illinois.

Miss Sidney Roberts of Emma is entertaining Miss Kathleen Williams of Greenwood, S. C., at her home, "Hazel Terrace." Miss Williams, who is a graduate of Converse college, has been teaching at St. George, S. C., and will next year be principal of the High Point graded school in Hartsville, S. C.

Dr. Bradley of Salisbury is at Battery Park for a few days on professional business.

C. F. White and family of No. 79 Ashland avenue, have moved to 169 Cumberland avenue.

Miss Nellie Holmes Pierson of Salisbury is visiting her aunt, Mrs. C. Sawyer.

Mrs. May Birdsey is the guest of her sister, Mrs. Howard Chamblin Munroe, at her home "Woodstock" on the Swannanoa.

Dr. and Mrs. Richard H. Whitehead of Virginia are guests at the Battery Park hotel. Dr. Whitehead is head of Virginia are guests at the University of Virginia, and formerly occupied the same position at the University of North Carolina.

Umpire Stevenson, who umpired in Morristown last week, arrived in Asheville today to umpire the series of games for the next three days. Mr. Stevenson has given satisfaction wherever he has been.

After a visit to his parents at "Witchwood," R. C. Camp has returned to Jacksonville, Fla.

Mrs. Anna B. Hursey of Washington is the guest of her cousin, the Misses Hawkins, on Pearson drive.

Stevenson has given satisfaction wherever he has been.

MR. TAFT PLEASSED WITH NOMINATION

Candidate Harding Told President in February He Would Be Ohio's Next Governor.

Biddeford Pool, Me., July 28.—Wireless telegraphy brought to President Taft the news of the nomination of Warren G. Harding as the republican candidate for governor of Ohio yesterday. Mr. Taft spent all but the early forenoon hours at sea. The president came ashore here at 5 p. m. He was expected to disembark immediately after the Mayflower anchored at 2 o'clock, but there was a long delay on shipboard, due, it was said, to a break in the machinery of the president's power launch.

Mr. Taft seemed delighted over the outcome in Ohio. He seemed to take it for granted that everything had been harmonious. The president has a very high estimate of Mr. Harding. Mr. Taft gave every indication in his informal discussion of the situation today of looking upon Mr. Harding as the strongest man the convention could have selected. When he gets to Beverly Mr. Taft probably will send Mr. Harding a telegram of congratulation.

The president made it plain here that at no time had he opposed the nomination of James K. Garfield. Mr. Taft related in this connection an incident of last February when Mr. Harding called on him at the White House in Washington. Mr. Harding said he had come to the president because he had heard Mr. Taft had decided to support Mr. Garfield for the nomination. He said he was not interfering in the Ohio situation any way and was not.

"Then," said Mr. Harding enthusiastically, "I will be the next governor of Ohio."

Mr. Taft said the nomination of Mr. Harding was the most pleasing and he hoped the candidate's predictions as to his success would come through.

Friends of the administration say that one feature of the Ohio situation which particularly pleased the president was the fact that the Cox faction did not succeed in controlling the convention. The presidential yacht remained in Gasco bay until well into the forenoon today. Mr. Taft went ashore at Portland for an automobile ride.

Landing in the Mayflower's launch on a little float here yesterday, the president was met by a committee. The crowd welcomed the float down to such an extent that it began to go under when the president stepped aboard and his feet got quite wet. Some of the people were hurried ashore from the float and then the other members of the party landed. Mr. Taft enjoyed a drive about the pool, visited the cottage of Mrs. Louise T. Moore, one of Mrs. Taft's sisters, held an informal reception at the Abenaki station, and made a little informal speech.

GILBERT-HOPKINS TRIAL IS AGAIN IN PROGRESS

Juror Turner Able to Sit—Evidence Goes Back to Year 1854.

Juror Turner, one of the twelve men who are to determine the merits or demerits of the land suit of Gilbert Hopkins, now in progress of trial in United States Circuit court, and who was taken suddenly ill Tuesday afternoon, was able to be brought into court this morning and the hearing of the case was again resumed.

Evidence in the litigation goes back to 1854 when the grants were entered, while the administrator's sale under which the Hopkins' are claiming title occurred in 1881. The Gilberts claim that they at least as tenants in common in the 54,000 acres of Graham county lands, are entitled to an undivided one-half interest in the property. Many of the oldest inhabitants of Graham and Cherokee counties are here as witnesses in the case.

J. D. PENLAND & SON FORM CO-PARTNERSHIP

Has Established Convenient Quarters in Temple Court and Has Large List of Clients.

The real estate firm of J. D. Penland & Son is now established in convenient quarters at room No. 11 Temple court. The firm is composed of J. D. Penland and his son, J. C. Penland. The former is prominently identified with the real estate business here and is known as a most energetic and capable expert in realty. He was for years in partnership with S. D. Hall, and this partnership was dissolved only that Mr. Penland might establish his son in the real estate business. Mr. Penland commands a large list of clients and has a great list of property for sale.

SOCIETY GIRLS DIVE FOR PURSE

Los Angeles Examiner.
There is a new theme of interest for society people summering at Berkeley. They are diving. The diamond-studded purse of Mrs. C. O. G. Miller is the goal of their efforts. All of them are heirs or heiresses and a combined estimate of their incomes brings the total up to \$225,000 per hour.

Mrs. Miller was on the pleasure pier, watching her children in the water, when she dropped her gem-encrusted purse into the ocean. It was a gift about which hovered sentimental recollections, and, therefore, she was perturbed. So were her friends. That is why they have organized diving parties to search for the bauble.

The fact that it contained \$225 in gold does not matter to them. They are diving for glory and social perquisites.

Every morning they are out—no breasting the breakers, but combing the bottom with their manicured hands to grasp back this toll of the sea.

Tutoring in the Country.

Mathematics, French and German taught at my country residence near Tryon, N. C. Board and tuition \$50 per month. Accommodation for two pupils only. References given and required. Address "PROFESSOR," Gazette-News.

THREE-SQUAD SYSTEM EFFECTIVE NEXT WEEK

Captains Have Chosen Their Men—First Squad Goes on Duty at Midnight Sunday.

Next Sunday at midnight, the new system of working the police in three shifts, as arranged recently by the police commission, will go into effect.

The captains of the three squads met yesterday morning and chose their men, each one trying to get men whom he thought would suit his particular needs.

The squads were arranged as follows:

First: Captain D. K. Lyerly; B. H. Williams, W. R. Messer, J. E. Murock, W. E. Smith and F. L. Conder.

Second: Captain Ed Lyda; Fred Jones, E. C. McConnell, W. H. Centerfit, C. N. Snyder and O. W. McLean.

Third: Captain Lominae; Mark Sprouse, C. J. Lanning, John Herren, O. M. Davenport and C. E. Noel.

Captain Lyerly's squad will go on duty next Sunday at midnight and remain until 8 o'clock in the morning. Then comes Capt. Lyda's squad which stays on duty until 4 o'clock in the afternoon. The last shift will be filled by Captain Lominae's squad. After a week on one schedule, the squads will change shifts, filling out the whole round every three weeks.

The force is yet short one man, whose place will be filled to make two extra men for the night shift.

The arrangements for detailing the officers to the different beats have not yet been completed.

TAX INCREASE \$436,000 IN ASHEVILLE TOWNSHIP

These Figures Over Last Year's Assessment, as Compiled by Auditor Stokeley.

According to figures compiled from the tax assessments, by County Auditor R. J. Stokeley, there has been a considerable increase in taxable values on the property in this township. The greatest gain is in the city, where the increase is \$263,000 over last year's values, while outside the city limits the gain is about \$73,000, making a total gain in the value of real and personal property of about \$436,000, in the whole township.

This seems to be a very healthy growth and is all the more to be proud of since it is steady and not due to boom values, but entirely to the faith of the people in the future of the city; and a legitimate increase in values will very likely continue through the years to come.

In addition to the above figures are to be added the taxes on banks and corporations. Mr. Stokeley stated that he thought, with these corporation taxes, the increase would amount to about a half million dollars.

Being a good father is the only thing that saves many a man from being a bad husband.

WHITE and GRAY ENAMELED WARE

It has no equal for nice clean cooking provided you use the best unbleached goods.

The white costs nearly twice as much as the gray; it is no better, but it looks nicer and has made the kitchen look bright.

Importing these goods direct in jobbers quantities. I can give my customers the benefit of wholesale price—and ONLY THE VERY BEST, PERFECT GOODS.

J. H. LAW, 35 PATTON AVENUE.

NEW ARRIVALS

Tomatoes, Bell Peppers, Hot Peppers, Okra, Canteloupes, Alberta Peaches.

Supplied in small quantities or by the crate.

Ownbey's 25 Montford Ave. Phone 56.

The Blackberry

Has long been highly esteemed as a remedy for Summer complaint and various bowel disorders. We can supply the Ironquint Blackberry Wine, Brandy and Cordial, but only on a physician's prescription. These goods are pure, wholesome and palatable and well-known to physicians everywhere. "Everything in Drugs and Seeds."

GRANT'S PHARMACY, "Agency for Wood's Seeds."

Your Canvas Pumps

How about them? We have quite a few in the latest styles. We also have a very neat calf pump for evening wear.

Boston Shoe Store Southern Coal Co. Phone 214.

Costly Errors in the Care of Your Metal Surfaces

The Wrong Kind of Cleaning and Polishing Does More Harm Than Good—Ammonia and Too Much Rubbing Are Most Injurious.

There are no surer signs of neatness, thrift and cleanliness in a home than for the silverware and brass and other metal trimmings and fixtures around the house to be in a bright and shiny condition. But many good housewives who spend hours in cleaning and polishing, fail to realize that, unless they are using the right kind of polish, they are doing more harm than good.

Many of the dry metal polishes on the market today, for instance, require so much rubbing and friction that they gradually wear away the silver plating or otherwise injure the fine surface of other metals.

To avoid this, many people use liquid polishes and it is true that liquid polishes require less time and less rubbing and are much easier to use. The danger in using liquid polishes is that a great many of these contain ammonia and there is nothing more harmful to a fine metal surface than this. It eats into the metal or silver plating very much the same as rust eats into iron. Fortunately ammonia betrays its presence as you can always tell if it is contained in a polish by smelling it.

There is one liquid polish, said to be the oldest metal polish on the market, which is made up from a secret formula that almost instantly cleans and polishes any kind of metal and that contains no ammonia. This polish is called BURNISHINE and for many years it has been on sale in stores all over the country.

Hundreds of fine homes in which there is a great deal of valuable silverware and other metal work have used BURNISHINE for generations. The most important metal polishing there is to be done in a home, the most it is realized that one cannot afford to experiment with polishes. Those who have once found out how perfectly harmless BURNISHINE is and how quickly and thoroughly it does its work, are never willing to try any other polish.

A storekeeper who knowingly offers you a polish that may injure your silverware is dishonest and not a safe man for you to deal with. It is necessary for the customer to insist on getting BURNISHINE to be on the safe side.

The shining brass rails and other metal work on the big battleships of our navy, as well as the metal trimmings in the Government Buildings in Washington, have all been polished with BURNISHINE for many years. It is also used by practically all of the big stores and hotels in the country to keep their brass rails, signs and show cases and other metal work bright and clean. There is undoubtedly more BURNISHINE sold today all over the country than any two or three other metal polishes combined.

A Leading Nebraska Judge Dead.

Omaha, July 28.—Judge George Baker Lake, one of the state's leading jurists died today, aged 84.

FOUGHT OVER A WOMAN; PISTOL SHOT IN HAND

Near-Tragedy in Colored Circle Described in the Police Court Today.

A shooting scrape, occurring on Livingston avenue in Victoria Monday night, when one Harry Johnson of color was shot in the hand by another negro named Bealer Pasour, was aired at some length before Judge Cocke in city police court this morning. There was some conflict of evidence, but it was apparent from the testimony that there was ill-feeling between the two negroes and that there was a "woman in the case." It seems that Bealer and Harry had a falling-out a few days ago and, according to the evidence, Harry said he would get even. There was a "social" at the negro church on Southside avenue Monday night and Bealer went home with a girl whom Harry also was apparently "fond of." Bealer said that he was cursed by Harry and that Harry had threatened to kill him before he left Victoria. At any rate Bealer was standing on the porch with his girl when Harry made some remark from the street and Bealer said: "You can see me now." Harry turned and Bealer began shooting; the girl ran. Several shots were fired, one of them taking effect in Harry's hand.

The affair created some excitement in that section, and the police being informed made investigation and arrested Pasour on two counts: assault with a deadly weapon, and carrying a concealed weapon. At the conclusion of the evidence this morning Judge Cocke fined Pasour \$75 and costs for the assault and suspended judgment upon payment of costs in the concealed weapon case.

Countdown in the Care of Your Metal Surfaces

The Wrong Kind of Cleaning and Polishing Does More Harm Than Good—Ammonia and Too Much Rubbing Are Most Injurious.
