All are cordially welcome to the services and to the reading room.

No More D---!?!?--X!Y!Z

It Isn't Necessary

Tire trouble—with its cost, annoyance, delays and, we fear (sometimes) profanity, need not worry you for another single week.

We can show you a way which thousands of owners of automobiles have proven by years on the road that will end your tire trouble right off short.

Standard Tire Protectors.

are the only practical solution of the tire question. With them you may come and go, day in and day out, without the least bit of anxiety. Your repair bills will take a sudden drop.

Sharp stones, glass or nails cannot penetrate these durable protectors, still they do not reduce the "life" of the tire nor affect its resiliency. Many people have driven for thousands of miles without a puncture or a blow-out. Many go for two years or more without giving a thought to their tires.

The protectors slip over the tread surface of the tire and are held firmly in place by the natural inflation pressure. There are no metal fastenings. Sand, gravel or water cannot get in. Impossible for them to work off, and no creeping takes place. For do they give your car a clumsy appearance.

Made for any size tire or wheel. Come in today and get our handsome booklet and see why "Standard Tire Protectors do protect." Read the letters we will show you from those who have used them. If you can't call—write.

OUR NEIGHBORS' IDEAS

CULLINGS FROM THE EDITORIAL EXPRESSIONS OF WESTERN CAROLINA JOURNALS

Hickory Democrat.
Restoring Capt. L. T. Nichols, general manager of the Carolina and Northwestern Railway, as he passed through the city Tuesday in his private car, was a large crowd of Hickory men who had torn themselves away from their business in order to beg him to move the shops here.

As the car stopped Mayor J. D. Elliott and President W. H. Nicholson, of the chamber of commerce, mounted the steps and handed him an envelope which contained the amount of Hickory's cash offer for these shops recently burned at Chester. Capt. Nichols put the envelope in his desk without opening and at once dismounted to shake hands with the benevolent mob around the car. It represented in a small way the intense enthusiasm of Hickory for the shops.

The enthusiasm has constantly grown since it was known that there was a possibility of getting the shops here. It is known that the general offices of the company will inevitably follow them. The pay-roll for both will be something like \$50,000 a year and as the road grows and pierces the mountains it will mean business to the future of the city.

Gastonia and Lincolnton are Hickory's two fiercest competitors for the shops. Gastonia's liberality is well known from what she did to get the court house there from Dallas. Lincolnton is no longer the sleepy little town it used to be and she gives a great deal of freight and as the shops were temporarily located there, the Piedmont shops believe in the town's good shooting. One man there has offered the employes free lots to build their homes on. He is a large land owner and if his offer is accepted it will enhance the value of what land he has left.

No tax has yet made public his offer of a cash bonus. Gastonia begged for an extension of the time till Thursday. Hickory went to work and made up her subscription in the time set by the railroad, which was Monday without begging for time. Of course, if she had known that anybody else was squalling, she could have got up twice as much as she did. There are about 400 names on the list of subscribers to the shops. Everybody, rich and poor, is interested. Men have walked all the way from the Piedmont shops in order to get their names on the list. We haven't got as much wealth as Gastonia but we have a gift from nearly every man in town.

When the digestion is all right, the action of the bowels regular, there is a natural craving and relish for food. When this is lacking you may know that you need a dose of Chamberlain's Stomach and Liver Tablets. They strengthen the digestive organs, improve the appetite and regulate the bowels. Sold by all druggists.

TAFT RUMMAGES INTO HIS FAMILY HISTORY
(Continued from page 1)
The president is related to Senator Nelson Wilmarth Aldrich of Rhode Island; that Secretary Charles Dyer Norton is also related to the senator from Rhode Island, and that the president is related to Governor Draper of Massachusetts.

Guest of Gov. Draper.
It was as the guest of Governor Draper that the president made his pilgrimage yesterday. He spent Thursday night at the governor's home in Hopdale and started in a drizzling rain on the ancestral trip yesterday morning. En route to Mendon J. R. Taft stopped for an hour to inspect the big cotton machinery manufacturing plant at Hopdale and the model tenements that surround it. The men in the factory gave him three cheers. It was while the president stood inspecting the tablet erected at Founders park in Mendon that the most interesting episode of the day occurred. No one in the town seemed to know Mr. Taft was coming but his presence soon was noised abroad and Tafts came from all directions. Mrs. Clarence Taft was one of the first to arrive and when she met the president she told him proudly that she was the mother of the youngest Taft in the vicinity, a son two weeks old. She also explained that he had not yet been given a name, and it was insisted that the president should select one. He agreed at once and the youngster was borne to the scene.

THE WINN SCHOOL FOR BOYS
Individual Attention to Individual Needs, James A. Winn, A. B., Principal, Asheville, N. C.
The tenth session of the Winn School for Boys will open on Thursday, September 8, 1910, at 135 Merrimon Avenue. The boarding department has been discontinued and hereafter the school will be conducted along the lines which have made it so successful in the past—as an Asheville school for Asheville boys. The school building has been thoroughly renovated; new desks and apparatus secured; and the equipment is now adequate for the requirements of thorough preparation for college and university. The large grounds offer abundant opportunity for exercise and recreation, and the central location of the school makes it convenient for pupils coming from every section of the city.

There have been enthusiastic chamber of commerce meetings and Monday night a mass meeting was held at which many subscribers doubled their donations after enthusiastic talks by Mayor Elliott, W. A. Self, E. B. Cline, A. A. Whitener, J. A. Campbell, M. A. Carpenter and many others.

Morganton Beacon.
The movement for an automobile highway from Asheville to Salisbury should have the earnest support of every resident along the line. When the great North and South road from New York to Atlanta is completed it will bring to this section thousands of tourists, many of whom will want to visit our Western mountains, whose attractions are becoming more widely known every year. Their traveling in a leisurely way, will undoubtedly stop over for a longer or a shorter time at such towns on the way as attract them, and this of course means that they will leave considerable amounts of money in pay for their entertainment. The road houses which will spring up along the way will furnish a market for the supplies produced by the farmers of the vicinity and altogether their coming will assure the benefit, directly or indirectly, of all classes in the community. It only needs for our attractions to become generally known to bring a large number of tourists to this section, and for this reason, if for no other, the great roadway should become an accomplished fact.

Haywood Herald.
Mr. Hall Johnston of Marion, N. C., who was reared in Clay county, was nominated for solicitor of his district some days ago. We are glad to claim him as one of our own boys and are glad to learn of this merited honor which has come to him. He is a brilliant young lawyer and will, no doubt, make an excellent solicitor. We note the Asheville papers claim Mr. Johnston as a Buncombe man—as usual. Our good Buncombe friends have never learned of North Carolina west of Asheville. To them the State ends there. They should refresh their recollection on their geography and take a look at the wide and attractive strip of and which extends 140 miles west of our beautiful western metropolis.

Glenn Alpine Correspondence of Morganton News-Herald.
When I was a boy my old nurse

IMPORTANT TO MOTHERS
A record of sixty-five years continuous use of "Mrs. Winslow's Soothing Syrup" by mothers in all parts of the world, is the highest praise that any remedy for "children teething" has received. Every year the young mother follows in the footsteps of her mother and finds Mrs. Winslow's Soothing Syrup to be the favorite, and so it has gone on for a period of sixty-five years. Millions of mothers had used it for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, diarrhoea, wind colic. Sold by druggists and medicine dealers in all parts of the known world. Twenty-five cents a bottle.

Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other.

Taft is engraved on the monument as one of the founders of that place, commonly known as the "Old Mother Town." Robert brought six stalwart sons with him from England. From Mendon park the president went to the old burying ground and was shown the ancient headpieces that mark the graves of a large number of his ancestors.

Then he visited the old church where they worshiped and the spot where Robert Taft built his home in 1680. All marks of the house are gone and the lot that surrounded it is now an orchard. The next spot of interest was the little home of Miss Sarah Taft, a delightful white-haired lady, who was completely taken by surprise when the president's big automobile stopped in front of her door and he and the governor of the commonwealth alighted. Miss Taft was not expecting visitors and, living quite alone, she kept her distinguished guests waiting with many apologies until she could change her frock. Then she extended a most hospitable welcome.

HOT-WEATHER CONSTIPATION

People should be very careful at this time of the year not to become constipated, and if they do become constipated to attend to it promptly. Many people have a special tendency to constipation in hot weather, owing to the sudden change in food and to the fact that the natural moisture of the body that remains within and helps to digest the food, leaves the system in the summer in the form of perspiration. Constipation should be immediately relieved. The best way to do this is not, as some suppose, by eating themselves sick with fruit and making the matter worse, nor by taking salts and laxative waters, which, as all who have tried them know, give but temporary relief; but, on the contrary, you should use a tried-and-true remedy like Dr. Caldwell's Syrup Pepsin, which acts quickly but mildly and which relieves permanently so that a steady and lasting cure results. A bottle can be bought of any druggist, in sizes of 50 cents and \$1.00. Those who have not yet tried Dr. Caldwell's Syrup Pepsin, and would like to make a test of it, can do so FREE OF CHARGE by sending their address for a SAMPLE BOTTLE to

DR. W. B. CALDWELL, 400 Caldwell Bldg., Monticello, Ill.

ALF TAYLOR WILL SUPPORT BENJ. HOOPER FOR GOVERNOR
Bristol, Tenn., Aug. 20.—Alfred Taylor, defeated for the republican nomination for governor of Tennessee, answering a rumor that he would not support Benjamin Hooper, the nominee of last Tuesday's republican state convention, today said:
"I never did bolt the nominee and it is too late for me to begin. I shall give Captain Hooper the same support he would have given me. There is not a man in the state I can vote for more cordially." Captain Hooper was given a rousing ovation when he reached his home at Newport today.
