

18,500 REWARD IS NOW OFFERED

A Number of Bodies Found in Basement of Wrecked Times Building—Nineteen Lives Lost.

ARRESTS HAVE BEEN MADE. ONE THAT OF ANARCHIST

Theory That Explosive Was Bought from Giant Powder Company, Giant, Cal., Strengthened by Evidence Found.

LOS ANGELES, Oct. 3.—Pinned down by tons of twisted cables, a number of bodies were found early today, it is reported, by workmen engaged in removing the debris from the basement of the wrecked Times building. The situation was found to be such that it is impossible to make progress in recovering bodies. A total count must be used to lift the heavy material away. It is believed further investigation will bear out the theory of S. W. Frabill, proprietor of the company, that a number of bodies are in the bottom of the elevator shaft as he himself got out after falling down the shaft and being severely injured.

By last night the horse, James, of workmen, after drenching for 30 hours into the debris of the building, had unearthed five of the 19 bodies supposed to be buried in the ruins. The police are guarding the home of General Harrison Gray, president of the Times, and of Manager Harry Chandler, guards are also watching over the plants of several concerns recently involved in strikes.

Arrests Are Made.

Three arrests have been made since the explosion. One of the suspects is an alleged anarchist, Martin...

While a search for the termination to assist in the search for the criminals, raises the total amount of rewards to \$18,500.

TRAIN PURCHASE OF DYNAMITE

San Francisco, Oct. 3.—The story of the Los Angeles police that explosives used in the Times building were purchased from the Great Powder works of Giant, Cal., is strengthened by investigations. The strongest circumstance in this connection is that the dynamite found at the residence of S. W. Frabill, president of the Times, was of the same make as that used in the explosion. A party of the investigators, who were sent only the day after the explosion, found a special order for 200 pounds of the same dynamite at the residence of Frabill. These were the only records of the transaction of the San Francisco office.

ARRANGEMENTS MADE TO HANDLE THE CROWDS

Southern Expect Heavy Movement to Waynesville Fair—Very Low Rate Is Made

The Asheville office of the Southern Railway company, in a statement issued this afternoon, says that 14,000 passengers are expected to attend the World's Championship Series at Waynesville, Oct. 10 to 15. It is stated that the best of accommodations will be furnished. The railway company has placed on the line a special train for the purpose of terminating points and every precaution will be taken to prevent overcrowding of coaches.

Indications are that great crowds of people will leave Asheville and intermediate points tomorrow morning for Waynesville to attend the opening day and that during the week other crowds will attend the big Waynesville show. Splendid schedules are operative between Asheville and intermediate points and Waynesville. People may go out in the morning and return to Asheville either on the 1:20 in the evening. Either trip will give a nice stay at Waynesville and ample time to visit at the fair grounds. The balloon ascension will be "pulled off" in the morning after the arrival of the Asheville train at Waynesville, and the horse racing in the afternoon.

The Southern is offering an exceptionally low rate from Asheville and intermediate points to Waynesville on account of the fair. The round-trip rate from Asheville is \$1.

THE WEATHER.

For Asheville and vicinity. Partly cloudy weather tonight and Tuesday. Nor North Carolina: Fair tonight and possibly Tuesday; not much change in temperature.
