GOOD ATTENUANCE AT HICKORY MEET

Asheville-Salisbury Highway will Probably Be Begun at Early Date.

Some of the Asheville delegates to the good roads meeting at Hickory returned to the city early this morning and report a very successful meeting. The delegates are of the opinion that the road from Salisbury to Asheville is a sure thing and that is likely to be constructed within short while.

The exact location of the road was left to a committee, composed of one man from each township through which the road will pass, and this ommittee will meet at Hickory, November 12 and form a permanent or-ganization. In Buncombe county, the members of the committee are F. Stikeleather of Asheville township. Allen Coggins of Swannanoa and Dr. C. E. Cotton of Black Mountain.

The meeting was a very enthusiastic one, composed of about 400 people, coming from practically every township along the route. There quite a spirit of rivalry between the Statesville and Mooresville delegates as to whether the proposed route wil pass through their respective towns. It is highly probable that there will be a highway through both Moores and continuing thence Hickory way of Marion and Old Fort, acros the Blue Ridge mountains to Black Mountain and thence into Asheville

The meeting was presided over Dr. Avery of Morganton. The ad-dress of welcome was made by Mayor Eliott of Hickory. The afternoon see sion was addressed by Land and Iniustrial Agent M. V. Richards of the outhern rallway and by Capt. L. '

Nichols of the C. & N. W. railway Dr. C. P. Ambler made an enthu astic address in favor of good road nd assured the convention that Run ombe county was prepared to mee my and all roads which might com the county line.

One of the features of the media as a lecture at the night session by P. Thom, the highway engineer incombe county. His lecture was il strated with stereopticon howing the proper methods of road othusiastic address for good road ad believes that it will only natter of a short while until this high ray is completed. Each township delegation showed much interest the proposed route.

The Asheville delegates included Stikeleather, Dr. C. P. Ambler, Dr. L. H Fletcher, C. P. Thom and J. II
