WOMEN DRINKING

Neither Is Cigarette Smoking Among the Sex, Says the President of the National W. C. T. U.

Mrs, Stevens Discussed Federal Anti-Shipment Law, Women Suffrage, Anti-Canteen Law, Etc.

BALTIMORE, Nov. 12.—Drinking and cigarette smoking are not on the increase among the wo-men of America, according to Lilian M. N. Stevens, president of the National Women's Christian Temperance union. Addressing the annual conven-tion of the organization here today,

she said in part: "We are sometimes told that drink among women is on the increase. It can hardly be so among the outcasts and lower classes for it is largely drink which has brought them where they are. Alcoholic beverages cannot justly, even among women, be called a class drink, for alcohol in the costly wineglass is as deadly and dangerous

as it is in the dingy whiskey mug. We are sometimes told that there is much cigarette smoking among women. In the course of my travels in England and America i have never seen a women with a cigarette in her mouth, except in certain localities in New Mexico where the surroundings were not at all pleasant to contemplate. There is reason to believe that some women in England do smoke cigarettes and we are told that there are some in America of like habit. I have seen now and then a woman in a hovel smoking a pipe

"I am glad that the National and World's W. C. T. U. has a department, belleving that the number of women own battle and it promises to be a teach them that express wagons can or who smoke tobacco in any form in bitter one. Mrs. Stevens vigorously recommend ed an amendment to the federal con-stitution prohibiting polygamy and giving to congress power to enforce such prohibition by suitable legisla-She quoted a resolution to this end which has already been adopted by New York, West Virginia, Delaware, Missouri, Iowa, Maine, North Dakota, New Jersey, North Carolina, Pennsylvania, California, Minnesota and Washington, "We carnestly hope she added, "that the W. C. T. U. in the remaining states will make a determined effort to secure the adoption of this resolution. It can be introduced into either branch of the legisla-ture and if adopted concurrence given by the other branch."

The Jeffries-Johnson prize came in for its share of criticism and Mrs Stevens urged adoption of the fight pictures. Linking woman suffrage with the cause of temperance, she said:

Woman Suffrage "It is an encouraging sign of the times that many prominent newspa-pers and journals recently have printed so much that is favorable to woman's suffrage. Today as never before, women work in professions and occupations from which they were former ly debarred; and share with men in ed-ucational opportunities and honors. will be permanently maintained, not through the supremacy of either sex, but by equality and justice to all, irrespective of sex. This is the keyne
