

IS NO CHEAPER TO CONSUMERS

Meat is Reported to Be [Selling, in Chicago, at Lower Prices to Everybody Except Who Buy It to Eat.

PRICES IN PHILADELPHIA ARE RAISED TO RETAILERS

Wholesalers Angry at Statements of Packers That Price of Meat is Going Down, Saying That It Hurts Their Business.

CHICAGO, Nov. 12.—Meat is credibly reported to be cheaper to everybody except the man who buys the commodity to eat.

With stocks of beef, pork, lamb, mutton and other things laid in when the old high prices prevailed, the retailers could not see how they were able to mark off anything on quotations, and the restaurant and hotel bills of fare are likely to remain where they are for days to come.

To reporters the proprietors of meat markets quote figures that show a real descent from the schedule of a week or a month or six months ago.

Philadelphia, Nov. 18.—Wholesale meat dealers declare that there has been no decrease in the price of beef, that there would not be any in the near future, and most of them to emphasize this declaration raised the price of beef 50 cents a hundred pounds to the retailers.

Wholesalers were up in arms about the statements of the packers that the price of meat is going down, saying that it hurt their business.

The price of prime beef has been gradually going up for the last month. Pork, however, has gone down five cents a pound.

GAYNOR REORGANIZES POLICE DEPARTMENT

Changes Shift Entire Detective Force to New Footing—Scotland Yard System Adopted.

New York, Nov. 18.—The big shake-up in the police department that has been predicted ever since Mayor Gaynor took office came yesterday.

The changes made shift the entire detective force to a new footing. Beginning Saturday morning there will be no more branch detective bureaus in any of the boroughs except Brooklyn, which by geographical necessity has always been something of a law unto itself.

Detectives will be on part of the precinct command and will work independently of the uniformed police. This is the policy of the English detective force which works under Scotland Yard, a centralized control, and it is also in line with the policy of the secret service in this country.

When a crime is reported the complaint will be turned over to the lieutenant captain in charge of detectives for the precinct, and all transmitted for the department, and all transmitted for the department, and all transmitted for the department.

Seven Hundred Go on Strike. Ludlow, Mass., Nov. 18.—Seven hundred operatives in the big leather mills of the Ludlow Manufacturing association struck today.

HENDERSONVILLE MAY BE SELECTED

Good Chance to Be Next Meeting Place of Western N. Carolina Conference.

THE ASHEVILLE AND CHARLOTTE DISTRICT MEN ARE ALL PASSED

Mass Meeting to Be Held Tonight in Interest of Children's Home—Conference Notes.

Special to The Gazette-News. Winston-Salem, Nov. 18.—The place for holding the next session of the Western North Carolina Methodist conference is always anticipated with interest from year to year.

An invitation from Hendersonville was extended last year, but was withdrawn in favor of Winston-Salem on account of the special desire of the conference to be held in close touch with the children's home at this time.

The conference was held in Statesville in 1894, that having been the fifth annual session. Conference interest centered today in reception of the class into full connection.

Rev. J. W. Wheeler, who is attending this session of the conference, has spent 55 years in the ministry. He now resides in Charlotte, and his presence in a church service, conference or other meeting is always welcome, on account of the gentleness and strength of his Christian character.

The visit to the children's home yesterday afternoon interested a large number of the conference members and visitors.

A feature of the conference which proves especially enjoyable and helpful is the addresses which Bishop Hendrix delivers at the beginning of the session of each day.

Rev. W. L. Sherrill was re-elected secretary of the conference without opposition, and began his eighteenth session in that capacity.

There is already a good deal of guessing among the preachers as to who will be appointed presiding elder of the new district.

Rev. F. H. Wood has spent 51 years in the ministry and when he was speaking to the conference he said he knew he had lived a long time, but that he wanted to live longer.

This afternoon the conference will enjoy a recital in Memorial hall given under the direction of the music department of the Salem Female academy.

RALPH JOHNSTONE HURLED TO DEATH

Machine's Wing Crumpled up Like Piece of Paper and Daring Aviator Dropped 500 Feet.

FOUGHT GAMELY FOR HIS LIFE IN EFFORT TO RIGHT MACHINE

Johnstone Was Attempting His Famous Spiral Glide When the Accident Occurred.

Denver, Nov. 18.—Despite yesterday's accident, when Ralph Johnstone plunged to death in his aeroplane from a height of 800 feet, the aviation meet will continue. Walter Brooks leaves today for Kansas City with Johnstone's body.

With one wing tip of his machine crumpled like a piece of paper, Johnstone, the brilliant young aviator, holder of world's altitude record, dropped like a plummet into the enclosure at Overland park aviation field late yesterday afternoon and was instantly killed.

When the spectators crowded about the enclosure reached him his body lay beneath the engine of the biplane, with the white planes that had failed him in his time of need wrapped about it like a shroud.

He had gambled with death once too often, but he played the game to the end, fighting coolly to the last second to regain control of the broken machine.

In the first flight, when he was in the air with Hoxsey and Brooks, he had gone through his usual program of dips and glides with the machine apparently under perfect control.

Still ascending he swept back in a beautiful circle, and as he reached the north end of the enclosure he started his spiral glide. He was then at an altitude of about 800 feet.

Johnstone was thrown from his seat as the nose of the plane swung downward.

He caught on one of the wire stays and grasped one of the wooden braces of the upper plane with both hands.

Then working with hands and feet he fought by main strength to warp the plane so that their surfaces might catch the air and check his descent.

Scarcely had Johnstone hit the ground before mortid men and women swarmed over the wreckage, fighting with each other for souvenirs.

From the crowd tore away the canvas from over the body and even fought for the gloves that had protected Johnstone's hands from the cold.

Arch Hoxsey who, in a previous flight in the afternoon had reached an altitude of 2500 feet, had risen just before Johnstone began his fatal glide and was in the air when the accident took place.

MAY BE DONE BY DEMOCRATS

Reapportionment Will Probably Be Attempted by Present House, but Minority Are Likely to Block the Game.

THEN SIZE OF CONGRESS WOULD BE IN THEIR HANDS

Democrats Have Gained Nine Seats in Senate, Cutting Republican Majority to 9—Standpatners Lose Control.

New York Herald Syndicate. No. 1502 H. Street, N. W., Washington, N. C., Nov. 18. IF THINGS keep on happening as they have in the last few months in this country the expression "democratic good luck" is likely to become a byword in politics.

Not only has the cost of living begun to go down only a few days after a big democratic victory all over the country, but the democrats and republicans in Washington are now realizing the importance of the fact that the size of the membership of the house of representatives under the new census will be determined in all probability by a democratic congress and the reapportionment of congressional districts in several of the most important states accomplished by democratic legislatures.

The substitution provided for the first reapportionment, giving one representative for every 39,000 inhabitants. Since then the membership and ratio have been:

Table with 3 columns: Year, Mem. born, Ratio. Rows for 1800, 1810, 1820, 1830, 1840, 1850, 1860, 1870, 1880, 1890, 1900.

But it is the state legislatures that will do the redistributing, and the opportunity for favoring the democratic party in the important states of New York, New Jersey, Indiana and Ohio will be very great indeed.

With the official count of ballots in Montana giving the legislature to the democrats, who will name a successor to Senator Carter, the democrats have now gained nine seats in the United States senate.
