From all accounts it promises to be one of the greatest we have ever had; the city of the West— the Camps, or members of Camps or Vet "City of Roses," as its friends are wont to call it, is making strenuous efforts to eclipse the cities heretofore having entertained us. Aside from what we may hope to see and enjoy there, the trip of itself will be a most interesting one, passing over and through, as it does, much territory over which a great many of us cam-paigned and fought over, in days a

Women who are passing through this critical period or who are suffering from any of those distressing ills peculiar to their sex should not lose sight of the fact that for thirty years Lydia E. The game was supposed to be seven innings but after the two teams had battled for 10 innings with the score 1 to 1 the game was called on account of darkness. There were sensational catches, beautiful stops and throws, daring base running and verything combined to make it an exsiting game from every standpoint triking out 19 men.
