

# NO AGREEMENT TO QUIT FIELD

### Godwin Will Run in Sixth, but Bellamy May Oppose Him—Others May Be Opposed.

### THE REPUBLICANS, TOO, MAY HAVE BIG ROW

### Mr. Grant Would Like to Run Again—Contest May Be Over Committee Positions.

Asaette-News Bureau, The Hotel Raleigh, Raleigh, July 21.

Not only is there going to be a stiff fight in the senatorial race next year, with a possibility of many of the state offices being contested by other would-be office holders in the democratic party, but there come rumblings to Raleigh that some of the congressmen will have to fight for re-nomination, although little doubt is expressed that any will be renominated.

The first contest to come into the newspapers is the sixth district situation, where it will be recalled the democrats last year had a big split. It starts off by way of rumors that Congressman H. L. Godwin would retire and that already George H. Bellamy is grooming himself for the race. Mr. Godwin announces that he has not retired nor has he entered into any agreement to retire. Sixth district politicians are of the opinion that Mr. Bellamy may decide to run against Mr. Godwin.

There is a report current here that there may be an opponent to Representative Claude Kitchin in the second district, while there are several in the fourth district holding themselves in readiness in case Hon. E. W. Poirer should not desire to return. Major Stedman in the fifth district, it is said, will have no opposition, the democrats recognizing that he is entitled to another term, while the same may be said in regard to Hon. J. M. Gunder in the tenth district, and Hon. R. L. Doughton in the eighth district, all being first term men. Dr. Folsom in the third district also comes in that class.

There is a report current here that Speaker W. C. Dowd of Charlotte is seriously thinking of entering the race against Hon. E. Y. Webb of the Ninth.

Republicans May Also Have Big Fight There is very little talk in republican circles these days, except there seems no doubt that North Carolina will go for Taft for president. There are some things which indicate that there will be a fight in republican ranks next year equal in intensity perhaps to that in the democratic ranks. Of course the big fight will be not over whom this state will instruct for president but who shall be the delegates to the national convention. Then there are rumblings that the Morehead wing of the party will want to capture the place of national committeemen now held by E. C. Duncan. The republicans, however, are saying nothing at the present time but are watching with considerable interest the democratic fight over the position of the party on the tariff.

Grant Tires of Solidate. There has been little talk of possible nominees of the republicans for congress the coming year. Practically the only discussion of this subject is brought here from visitors to the Tenth district, who say that ex-Congressman John G. Grant, living of the solitude of Henderson county, would like to make the race for congress next year. It is either to let him run for congress or give him a good job of some kind, is said to be the way the Henderson county statesman expresses himself. There is apparently nothing doing in the way of a job at present. It is said that if Mr. Grant can be pacified then there is a big, strong chance of getting Third Assistant Postmaster General J. Brit to return to the Tenth district and carry the party's flag next year. Along with the Tenth district talk comes a rumor that the republicans are thinking of launching forth a newspaper in Asheville and that ex-Congressman Grant has tendered his services to organize the company. Little credence is put in this talk, since it has been heard at intervals for three or four years.

Recent Medicines Versus Pains. President Taft's recent message suggesting an amendment to the Pure Food and Drug law in its relation to Prepared Medicines, does not refer to such standard medicines as Foley's Honey and Tar Compound and Foley Kidney Pills, both of which are true medicines carefully compounded of ingredients whose medicinal qualities are recognized by the medical profession as the best known remedial agents for the diseases they are intended to counteract. For over three decades Foley's Honey and Tar Compound has been a standard remedy for coughs, colds and affections of the throat, chest and lungs for children and for grown persons, and shows all other preparations of its kind. Foley Kidney Pills are equally effective and medicinal. Sold by all druggists.

There seems to be a peculiar provision for everything but a peculiar one for that. "I'd like to know if you'd like to know for that."

## EARL IS BANKRUPT.

EARL OF YARMOUTH

The Earl of Yarmouth, former husband of Alice Thaw, of Pittsburg, has been declared a bankrupt. The Earl's father, Lord Hertford, has refused to come to his son's aid, and it is reported that the Earl's beautiful castle at Abbeyleigh, England, will soon go under the hammer to satisfy his creditors.

## LEWIS STRANG, MOTOR CAR DRIVER, IS DEAD

Turned Aside on Road to Avoid Team and Car Went Over Embankment.

Milwaukee, Wis., July 21.—Lewis Strang, well known automobile driver, who has driven in races in various sections of the United States, was instantly killed yesterday near Blue River, a village about 20 miles from Richland Center, while piloting the machine of the Wisconsin automobile association annual reliability run. The tour was from LaCrosse to Lancaster, a distance of about 125 miles. Early reports were to the effect that Strang was going at a good speed when in endeavoring to avoid a collision with a passing team, the car plunged over an embankment, plunging Strang to the ground. Later advice, however, indicate that the car was running at only about four miles an hour and the team was going in the same direction. Strang turned aside, but the bank suddenly gave way. The car slid down the embankment, turning turtle, and Strang reluctant to jump, went under to his death. The embankment was scarcely more than five feet high. The body of Strang was taken to Blue River. Strang broke an arm about the middle of June during a race in Kenosha and it is thought this weak arm may have contributed to a lack of control of the car.

Lewis Strang was 26 years old and was born in New York. He was the winner of the circular track mile at Birmingham, Ala., in 1907, and made a mile record in Nashville. He was a winner in 1908 at Savannah, Ga. In 1909 he won at Ormond Beach, making 100 miles in 84 minutes. In 1910 on the Indianapolis motor Speedway he drove a quarter mile record in 5 seconds, making 119 miles an hour; one kilometer two seconds, five miles in 3 minutes 17 seconds.

For every purpose of a flesh healing liniment for man or beast there is no remedy more powerful than DAREY'S PROPRIETARY FLUID. It is in addition to its effectiveness, on the flesh a wonderful internal remedy. It relieves Cramps, Colic, Dysentery, Sore Throat, Swollen Throat, and Sick Stomach. As a disinfectant for the sick room it is of extraordinary value. It destroys germs and purifies the air. Added to the water for bathing the face of a fever patient, it is not only refreshing, but it tends to allay the fever. Price 50 cents per bottle. Sold by all druggists.

OLD R. T. C.'S VICTORY WAS NOT A "FLASH IN THE PAN"

Delivery Horse Year Ago, He Won Two Rich Prizes on Kalamazoo Track.

Kalamazoo, Mich., July 21.—After winning one heat of the Paper Mills \$10,000 stake for 2:14 trotters at the Grand Circuit meet before rain put a stop to the program Wednesday, R. T. C. came back yesterday and proved conclusively that his victory was not a "flash in the pan," as many horse-fans had believed. Last year a delivery horse, R. T. C. again yesterday showed his heels to a high-class field, and never in the two heats necessary to decide the event was he in danger of defeat. Just as easy as he took the first heat Wednesday, Arvi won the first two heats of the 2:14 trot yesterday.

On June 21, driver of Peter Van Sumer, knocked in the first two heats of the 2:14 race, and refused to let his horse make the time the judges declared he should, he was suspended from the track for 30 days. Valentine claimed that the breaking of the horse's hobbles was the cause. All bets on the race and heat were also declared off. Peter J., which had won the second heat, sadly took the last two of the morning.

There seems to be a peculiar provision for everything but a peculiar one for that. "I'd like to know if you'd like to know for that."

## SHOULD NOT PESTER THE CORPORATIONS, HE SAYS

### Former Sugar Trust Counsel Thinks Government Should Have No Control.

New York, July 21.—In an academic discussion of governmental relations to corporations yesterday afternoon John E. Parsons, former president of the American Bar association and former counsel for the American Sugar Refining company, declared to the congressional committee investigating the sugar trust that the proposition of E. H. Gary, chairman of the United States Steel corporation, for government control of business combinations was socialistic. He added that in his opinion congress should place no restriction whatever on trade. "Government should permit commerce to take its course," he said. "A great corporation cannot be organized merely on the valuation in dollars and cents of its physical properties—the men behind it must be capitalized. They are worth something to the investor. The capitalist must be of the physical properties, the prospects of the business and the men who are to manage it. That is not water. If congress should pass a law conforming to Justice Harlan's dissenting opinion in the Standard Oil and Tobacco trust cases it would cause the country's greatest disaster. If Justice Harlan's opinion stood as the ruling opinion of the court our jails would be filled to overflowing with stockholders and officers of corporations. No two businesses could combine to increase their trade. Mr. Parsons was very positive that there should be no government control of corporations; that they should be permitted a free hand and that then the ultimate consumer should profit by it.

From One Who Suffered. Writing under date of May 18th, John Monaghan, Ex-Chief of Police, Fayetteville, N. C., writes: "It gives me pleasure to recommend your 'Regal Discovery' for indigestion. I have taken three bottles of your medicine and can truthfully say that I feel like a different man, and have no symptoms of indigestion. I heartily recommend it to those suffering with indigestion." REGAL DISCOVERY is the best medicine for indigestion and dyspepsia. Only a few doses will give relief in all cases. Five or six bottles, taking according to directions, will cure the most obstinate cases. For sale by all druggists and general merchants, and is guaranteed to benefit you or your money will be refunded. Try it and be convinced. Manufactured by the Regal Medicine Company, Fayetteville, N. C.

## AVIATOR LOSES LICENSE.

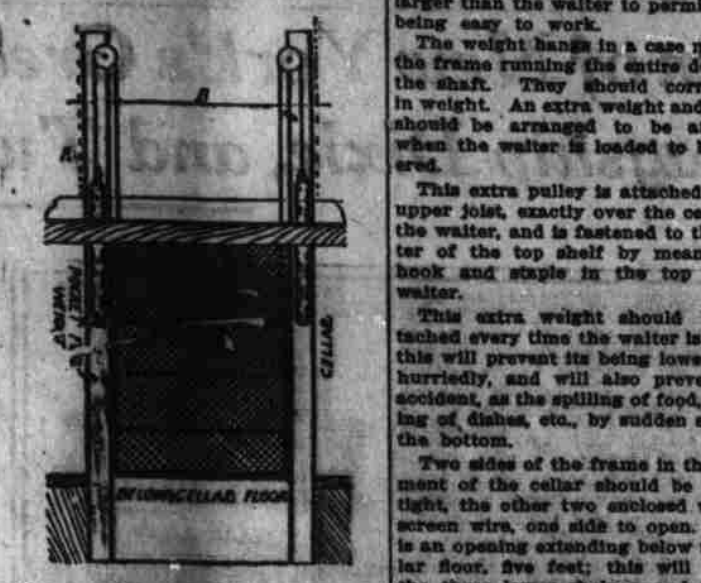

The Royal Aero Club of London, England, has suspended for one month the aviator's certificate of D. Graham Gilmore for being in a manner dangerous to public safety during the recent Henry regatta. This will prevent Mr. Gilmore's participation in the British circuit race for \$50,000, which will start from Brooklands on July 25.

## BELIEVE WOULD BE NEGRO MURDERER HAS SUICIDED

La Crosse, Wis., July 21.—That Edgar Robinette, the negro would-be murderer of Sylvia Price, a white girl with whom he was enamored, is dead by his own hand and that his body lies in the woods where the poison have been unable to find it, is the conclusion reached by the teachers. The following letter covered with blood was found: "Mrs. Mary Martin, 1111 Vine street, Kansas City. "Dear aunt—I drop these few lines to let you know I will be dead next time you hear from me. I am persecuted and can't get over it. I am going to kill the girl that has betrayed me. I am better off dead. Don't mourn for me. Good bye, Oh, Good bye. (Signed) "Edgar." The girl's condition has grown more serious but her recovery is still looked for.

## HANDY IN EVERY FARM HOUSE

In every house where the kitchen is located over the cellar a wonderful saving of steps, may be secured with a small outlay by means of a dumb waiter, which may be placed in any convenient corner out of the way.

For the ordinary family the water for two feet square, shaves one foot apart (four of them) counting the top as one. The water is raised with two sides up and two solid. The openings, see into the kitchen and the other into the dining-room. The closed sides have strips, one on each side that moves in a groove in a case; these are in the center, just opposite the place where the cords are fastened. The case in which the water ascends and descends is made one-fourth inch larger than the water to permit of its being easy to work. The weight hangs in a case made in the frame running the entire depth of the shaft. They should correspond in weight. An extra weight and pulley should be arranged to be attached when the water is loaded to be lowered. This extra pulley is attached to the upper joint, exactly over the center of the water, and is fastened to the center of the top shelf by means of a hook and staple in the top of the water. This extra weight should be attached every time the water is raised, this will prevent its being lowered too hurriedly, and will also prevent any accident, as the spilling of food, breaking of dishes, etc., by sudden stops at the bottom. Two sides of the frame in the basement of the cellar should be framed tight, the other two enclosed with fly screen wire, one side to open. There is an opening extending below the cellar floor, five feet; this will enclose the three lower shelves, and the top shelf will answer for a top to exclude the light when the water is below. This lower compartment does away with all loes and loe boxes. The upper doors, being opening into the rooms above should be hung so as to work up and down on cords and weights—J. W. Griffin.

## STATE OPTICIANS ELECT OFFICERS AND ADJOURN

### C. H. Honess, Asheville, Vice-President—Charlotte Next Meeting Place.

The fourth annual convention of the North Carolina State Optical society closed at the Battery Park hotel late yesterday afternoon with the election of officers and the selection of Charlotte as the next place of meeting. Asheville was honored in the selection of officers by the election of C. H. Honess first vice president. The new officers of the society are: President—J. D. Hathaway of Elizabeth City. First vice president—C. H. Honess of Asheville. Second vice president—Odell Sullivan of Charlotte. Secretary—W. S. Granger of Goldsboro. Treasurer—F. M. Jolly of Raleigh. The fourth annual meeting of the state opticians was well attended and perhaps the most pleasant since the organization of the society. The afternoon session yesterday, prior to the election of officers, was devoted to addresses and discussion of subjects pertaining to the optical profession. H. Z. Cook of Knoxville, ex-president of the American Optical society, delivered an interesting and instructive lecture on "Dynamic Skiascopy." Other speakers during the afternoon were Dr. Sam Levy of Charlotte, F. N. Day, J. D. Hathaway and J. W. Taylor.

## THE WEATHER

Table with columns: TEMPERATURE, Location, Low, High, Prevailing. Locations include Asheville, Atlanta, Boston, Charleston, Jacksonville, Key West, Knoxville, Mobile, New Orleans, New York, Raleigh, Savannah, Washington, and Wilmington.

## WEEK-END EXCURSIONS

Table listing excursion routes and fares. Columns: FROM, TO, FARE. Includes routes to Lake Toxaway, Hendersonville, Brydard, Swannanoa, Black Mountain, Tarrell, and Old Fort.

## Now Is The Time To Buy The Prices are Lower than Ever

We are rapidly effecting a clean sweep clearance of our summer stocks. Every summer garment in the house bears a liberal price reduction and this means a whole lot, when you stop to consider, that our regular prices are moderate, considering the class of goods we handle.

Summer Apparel for Women, Misses and Children. Styles exclusive and desirable, prices the lowest that it has been our pleasure to quote.

The offering includes practically everything that you may need to complete your summer wardrobe—beautiful evening gowns, street costumes, dancing frocks, house dresses, wash suits, tailored suits, skirts, shirt waists, summer coats, opera capes, etc.

Mail orders promptly attended to the same day received. You can shop carefully in the large cities but this store is offering you values that you cannot duplicate elsewhere.

## PEERLESS-FASHION CO. 51 Patton Ave.

## ALL WATER MOVED FROM ABOUT BATTLESHIP MAINE

### Vessel Now Lies in Many Feet of Mud Which Will Be Sucked Out of Cofferdam.

Havana, July 21.—All the water in the cofferdam surrounding the Maine has been removed, showing the wreck embedded in the mud from an estimated depth of 27 feet around the after part of the vessel to an indeterminate depth, and that portion of the ship immediately forward of the central superstructure which was demolished has completely disappeared except for some jagged pieces of crusted steel protruding above the slime. The engineers intend to begin today the work of drawing out the soft mud by suction. Simultaneously they will begin the work of dissecting the great confused masses of metal. A curious feature resulting from the total removal of water is that amidship main deck and central superstructure, remaining practically level constitute in effect a great cantilever, sustaining their own weight without any other direct support. All the structural members of the ship beneath this section have been destroyed and the cavity has been half filled with mud. Some fire scorched bones were discovered yesterday afternoon in the vicinity of the overturned conning tower, where the remains of probably four bodies were previously found. All of the men are believed to have perished instantly. From present indications three or four months will elapse before the mud surrounding the wreck is removed and all portions of the ship made visible.

Kidney Diseases are Curable under certain conditions. The right medicine must be taken before the disease has progressed too far. Mr. Perry A. Pittman, Dale, Tex., says: "I was down in bed for four months with kidney and bladder trouble and gall stones. One bottle of Foley's Kidney Remedy cured me well and sound." Ask for it. For sale by all dealers.

"Is a fat man unnecessarily uncomfortable in warm weather?" "He is if he listens to all the remarks his friends make about him."—Washington Star.

## One Day and Week-End Excursions

Commencing Monday, June 12th, 1911, One-Day Excursion fares are authorized between stations, and on dates and conditions named below:

Table listing excursion routes and fares. Columns: FROM, TO, FARE. Includes routes to Flat Rock, Saluda, Tryon, Hot Springs, Lake Toxaway, Hendersonville, Brydard, Swannanoa, Black Mountain, Tarrell, and Old Fort.

## WEEK-END EXCURSIONS

Effective Saturday, May 27th, 1911, and continuing to and including Saturday, Sept. 3, 1911, Week-End Rates will be sold on Saturdays and for morning trains Sunday to the following points, with final limit Monday midnight following date of sale:

Table listing excursion routes and fares. Columns: FROM, TO, FARE. Includes routes to Anderson, Black Mountain, Brydard, Davidson River, Pritchard, Hendersonville, Hot Springs, Lake Toxaway, and Swannanoa.
