The latest contribution to the row is a letter from Mr. Lockhart printed in the Raleigh News and Observer in which the state senator charactorizes statements made by Gov. Kitchin in his reply to Editor Daniels "absurd and falsely absurd." Mr Lockhart in the course of his two column communication handles the gov ernor without gloves and boldly delares that the governor with the aid of his allies prevented the passage through the legislature of an antimeasure with teeth." He SAY that the most charitable explanation of the governor's letter is that "he is suffering from such a case of self-ag-grandized, exaggerated ego as to be grandized, exaggerated ego as to be unable to recall anything distinctly ex-cept his own glory." Mr. Lockhart says he wanted the governor to "send a hot anti-trust message and the gov-ernor didn't send any." Mr. Lock-hart's communication, and also a tele-gram from Zebulon Weaver of Ashevilie, former member of the general

"The president's defense of his in the Controller Bay affair shows how hard it is to make a good xcuse for a bad mistake."

Concluding Pinchot states: "It is infortunate that friends of conservation in their efforts to bring about the development of Alaska for the benefit of the people are continually obliged to expend their strength against men who ought to be protectors of the people's property. It looks like an unnecessary duplication of work when we must first fight off the policemen before we can get a chance to stop he looting."

didate for o makes no difference; neither shall 1 enter into a detailed defense of my record upon the Trust question. Any man who kept up with the work of the general assembly of 1909 knows that Mr. Nimocks and I fought in season and out of season to secure the adoption of an effective law, and the charge that we were willing to sur-render is absurd, and falsely absurd.

The Governor's memory is worse than I had even thought. I knew that he had forgotten the men who helped pledges and the issue upon which he was elected, but I did not know that he had forgotten the men who helped elect him, but he certainly has got me mixed with somebody else. I went to his office with Mr. Nimocks, as he mays, on only one occasion-this was on either the 14th or 15th day in Janwary, about \$:20 in the afternoon. We remained there about two hours We remained there about two hours Our object in going was to consult with him and see what bill should be introduced and whom he preferred to introduce H. We had then not drawn copied or introduced any bill. When we saw that he was opposed to any effective law, we left his office and went to the office of Mr. Josephu Daniels, where we told him of what had occurred, and consulted with him and some other gentlemen as to what hill we had best introduce, and we agreed that under the circumstances the Reid bill was the best that we could do. The next day 1 told Mr. Zeb. Weaver, representative from Huncombe, about the Governor's back-down, and asked him if he would in-Buncombe, about the Governor's nack-down, and asked him if he would in-troduce the measure in the House II I did in the Senate. He agreed. We went to the State Library, found the Reid bill, had Miss Ellington to make three copies of the bill, and on Janu-tre 15th. Mr. Weaver Inforduced the Reid bill, had Miss Eilington to make three copies of the bill, and on Jamu are 16th. Mr. Weaver introduced the measure in the House and I did in the remark. Mr. Daniels will doubtless re-call the fact thest I had introduced no bill when I told him of the Gov ornor's attitude and talked with him and Mr. Nimocks, and that afterwards it was agreed to make the first for the Reid bill. It would therefore have been impossible for me to have agreed to eliminate sections from a bill which I had not in my pessession, and when I had not decided what bill to intro-duce or who should introduce it. I would also have been impossible for many voles could be counted on.
