Life Savers Rescue Crew With Breeches Buoy

ASHORE IN BREECHES BUOY THE CARRIE A LANE, ASHORE NEAR SHINNECOCK HILLS.

RESCUED SEAMAN BEING TAKEN FROM BREECHES BUOY BY LIFE SAVERS.

New York, Sept. 4.—The tug and south and west of Shinnecock life saving station. The vessel was piloted by the Atlantic coast, the tug Carrie A. Lane, a four masted lumber drower, bound from Station, Miss. Her crew of two to Boston with railroad ties, a mile

Stratton, came ashore by breeches buoy. The work of the life savers was quickly accomplished, and admirable work was done with the breeches buoy in taking the crew ashore. The young daughters of Captain Stratton were the first to be safely landed, and they were much fatigued as a result of their thrilling experience.

DANISH BUDGET DEMANDS GREATER

Coming Parliament Expected to Make Political Changes in Systems of Tax and Suffrage.

NEW SOCIAL LAWS CALL FOR MORE MONEY

Old Age Support and Workingmen's Compensation, Higher Pay for Employees of State.

Copenhagen, Aug. 31.—The all absorbing topic here is the coming session of parliament, which is expected to make radical changes in the prevailing systems of taxation and suffrage. Some of the proposed tax legislation will be supplementary to the acts passed at the last session when taxes on theater and other amusement tickets, revenue dues and additional railroad rates were added to the budget.

The new taxation acts will include a higher impost on spirits, an increase of the property and income tax and probably a real estate values raising tax. The necessity for these measures to increase income of the state is due chiefly to the operation of the new social laws providing for old age support and workingmen's compensation. The budget for this purpose has already grown far beyond the original estimate. The burden has been increased further by the higher pay given civil and military officers. On the other hand the usual revenues have been decreased by the reduction in custom duties.

It is expected that the new taxation laws passed by the last session of parliament and the ones proposed for the coming sitting will give the state an additional income of 20 million Danish Kroner.

The position of the present government, already shaky on account of its taxation policy, may be made very uncomfortable, especially by the taxation of spirits which up to the present it has feared to touch.

Among the suffrage proposals will be an act making the franchise for the lower house of parliament universal. Both men and women over 25 years of age will be permitted to vote for the members of the lower house. It is also planned to do away with the restricted suffrage of the upper house whereby only highly taxed voters are allowed to vote for its members.

Among other acts to be proposed will be a law to compel beneficiaries of old age support to share in the expense of the plan. An act contemplating the reform of the present management of the elementary public schools will also be proposed by the government.

United States May Acquire Danish West Indies.

The official announcement that the Panama canal will be opened in 1915 has again given rise to the rumor that negotiations for the cession of the Danish West Indian islands to the United States have been opened. Dr. Maurice Egan, the American minister, refuses to discuss the matter, but his frequent interviews with business men interested in the islands has given some color to the rumor. It is known that Dr. Egan believes that the commercial growth of the islands would be facilitated by the proposed change in ownership, but evidently he is convinced that all overtures on the subject should emanate from the Danish government. The story that there has been a proposition broached to cede one of the Philippine islands to Denmark with the view of its later cession to Germany in exchange for Schleswig has been pronounced ridiculous by the American legation here.

Besides the opening of the canal and its possible effects on the Danish West Indies, the growing interest of the South American republics in Danish commerce is exciting interest here. This is due largely to the growth of exports from the United States to Denmark. A remarkable feature of the trade relations between the two countries is the fact that in spite of the lowering of the duties on hides by the United States the export of them from this country to America has almost ceased.

The plan to send a resident Cuban minister here is not meeting with much favor. Argentina will soon have a minister here and Brazil another in place of Senor Campista, who goes to Paris.

Although a year has passed since the death of the popular Princess Mary, her coffin still stands in the Holmens church. Every arrangement has been made to remove the body to the Royal tomb in Roskilde cathedral, but the husband of the late princess, Prince Waldemar, will not consent to the removal, preferring to have the coffin near his home where he can visit it frequently. Every day he goes several times to the church.

The gift of a number of Danish Americans of a large work of art for the decoration of the new Christianberg castle in Copenhagen has been received with keen pleasure here. The tribute to the mother country by her children who have become good citizens of another nation is received by all classes with admiring comment.

IMPORTANT TO MOTHERS

STRANGE BIRD

Country People See Bird of Peculiar Color—Bird Getting More Numerous. Several people living north of the city have told of seeing a strange bird recently that they never saw before. According to their description it is of such a peculiar color that it was hard to distinguish it from the tree in which it was seen. They say that most of its body is emerald green, with the top of its head a brilliant green, and the breast green and gray striped.

INDIGESTION GOES IN FIVE MINUTES

Heartburn, Dyspepsia, Gas and Other Stomach Misery Vanishes.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch Gas and Eructate sour, undigested food, or have a feeling of Dizziness, Heartburn, Flatulency, Nausea, Bad taste in mouth and stomach headache—this is Indigestion.

A full case of Pape's Diapepsin costs only 50 cents and will thoroughly cure your out-of-order stomach, and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or Indigestion. Ask your pharmacist to show you the formula plainly printed on these 50-cent cases, then you will understand why Dyspeptic trouble of all kinds must go, and why Diapepsin always relieves sour, out-of-order stomachs or Indigestion in five minutes. Diapepsin is harmless and tastes like candy, though each dose contains power sufficient to digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for Bloating or Constipation.

This city will have many Diapepsin drunks, as some people will call them, you will be cranky about this splendid stomach preparation, too, if you ever try a little for Indigestion or Gastritis or any other Stomach misery.

Get some Pape's Diapepsin now, this minute, and forever rid yourself of Stomach Trouble and Indigestion. It has a long sharp bill and in size it is only slightly larger than a humming bird. It was suggested that it may be a humming bird, but those who saw it say that it does not resemble a humming bird either in looks or in action, that it does not "hum." It hopped about the tree like any ordinary bird and when it was still it could hardly be discerned from its surroundings.

In this connection it is interesting to note that many people have remarked that birds of all kinds are more numerous here than they have seen for many years; since the English sparrow increased to such an extent. There are also those who think that the English sparrows are not so numerous as they used to be, and they think the other birds are coming back in this account.

NEW YORK POLICE CAPTURE "KING OF BOMB THROWERS" GIUSEPPI COSTABILE.

Captured in New York city with a "Black Hand" bomb under his arm, Giuseppe Costabile was taken to the Detective Bureau, where Inspector Hughes called the man "King of the Bomb Throwers" and said his arrest would effectually stop the series of bomb outrages which have reduced New York's Italian population to a state of terror. Costabile was arrested in the heart of the Italian district, and the infernal machine which he carried had been tested to see how well its fuse burned.

SWIMS ENGLISH CHANNEL AFTER 24-HOUR STRUGGLE.

T. W. Burgess, a Yorkshire man, after nine unsuccessful attempts, finally succeeded in swimming the English Channel from Dover to Cape Gris Nez. It took the plucky swimmer twenty-four hours to negotiate the narrow but dangerous span of water between the French and English coasts. Numerous attempts have been made to swim the Channel since 1875, when Captain Matthew Webb swam from Dover to Calais in twenty-one hours and forty-five minutes, but no one has been able to duplicate Captain Webb's feat until Burgess accomplished it.

13 COLLEGIANS WORK WAY ACROSS OCEAN AS STEWARDS.

University students, thirteen in number, served as stewards to work their way back to the United States on board the Adriatic, of the White Star line, which arrived at New York a few days ago. They were aboard for an educational jaunt. The plan of several to return through was a cruise was thwarted by the strike in London. The students said they enjoyed their trip on the Adriatic. The captain said their year's vacation was over.
