

BALDNESS

Baldness is the direct result of Germs. To prevent the hair from falling out, use

TO-BAC-TON

"The Greatest of All Hair Tonics"

This wonderful new remedy is specially prepared to destroy the germs which cause the hair to fall out. The nourishing, stimulating and antiseptic qualities of TO-BAC-TON are the results of the juice of the tobacco leaf and other beneficial ingredients used in the preparation of this Hair Tonic. It contains no grease or alcohol, and has a most delightful odor. TO-BAC-TON stimulates the growth of the hair, prevents baldness, cures dandruff and all scalp diseases.

Try a bottle at our risk. If you are not entirely satisfied, we refund your money. TO-BAC-TON is sold at all drug stores at 25c, 50c and \$1.00 a bottle and used by first-class barbers.

TO-BAC-TON MANUFACTURING COMPANY, Winston-Salem, N. C.

Distributor for Asheville, Dr. T. C. Smith, Wholesale Drug-gist.

Amusements.

The Famous Leader Of a Famous Band

LIEUT. WM. H. SANTELMANN, CONDUCTOR, UNITED STATES MARINE BAND.

William H. Santelmann, leader of the United States Marine band, was born in Offensen, Province Hanover, Germany, and comes from a long line of musical ancestors. He began the study of the violin when very young for which he showed a marked talent from the very beginning; when fourteen took up the study of harmony. As he progressed in the study of harmony he saw advantage in getting acquainted with the various instruments used in orchestra and band and consequently studied all the principal instruments which aided him greatly in advanced studies of harmony and composition.

Mr. Santelmann entered the military service at the age of 18, by enlisting as a volunteer in the band of the 12th Infantry regiment in Leipzig, the musical center in Germany. At the conclusion of his service in the army he pleaded with his father, who was desirous to have him stay in the military service, to let him take up the study of music again and perfect himself in his chosen profession. "For," he exclaimed, "after having heard the great masters and fine orchestras I am conscious of how little I know." Getting his father's consent he took up special studies on the violin, and in harmony and composition, and after nearly three years of zealous work in Leipzig he accepted an engagement to come to Philadelphia, concluding this engagement he had the refusal of two offers, one in New York and one to enter the Marine band in Washington. Being specially kind of military service he chose the latter and entered the Marine band in 1887, as the first violinist and baritone player.

Mr. Santelmann served for eight years when he severed his connection with the Marine band and organized an orchestra, which soon came into prominence in the capital city. When the Columbia theater was opened in 1896 he was chosen leader of that orchestra where he remained until called to head his old organization and was appointed leader of the Marine band, March 3, 1898.

In recognition of his efficient work as leader of the U. S. Marine band, Mr. Santelmann received the degree of Doctor of Music from the George Washington university of Washington in 1909. He also holds diplomas from the Transmississippi exposition at Omaha, Columbian Exposition at Buffalo and the Louisville Purchase exposition at St. Louis for efficient service rendered in connection with these exhibits.

Mr. Santelmann's compositions are many and varied, among the more prominent is the Overture "Pocahontas," written to an Apotheosis of the "Princess of the Forest by Randolph Kohn.

The band comes to Asheville soon under the joint auspices of the Y. M. C. A. and heard of trade. The latter's portion of the receipts is for the advertising fund.

"Polly of the Circus"

In the company appearing in Frederick Thompson's "Polly of the Circus," with pretty Miss Ida St. Leon in the

title role, which comes to the Auditorium on September 18th, for matinee and night performance, are, in addition to a score or more of well known actors, a number of circus people and circus acts which contribute not a little to the success of the play.

The big third act sawdust scene represents a three ring circus in actual operation—one of the most realistic stage pictures ever shown on a stage of a theater. Among the many features of "Polly of the Circus" is a trained horse called "Bingo," a thoroughbred Arabian animal that was brought to this country by Barnum & Bailey's circus and afterwards sold to the New York Hippodrome when Frederick Thompson was the managing director. During the summer months Bingo is one of the features of that amusement place, Luna Park, Coney Island, New York city. Miss Ida St. Leon and Bingo are great friends. That little actress says that her horse "can do almost anything" but talk.

The St. Leon family is one of the big features, with clowns, acrobats, bareback riders and ringmasters. Miss Elsie St. Leon, the greatest bareback rider in the world, does stunts from the back of a horse that are un-ward of, and to think of it, all on the stage of a theater. Tickets will go on sale at 9 a. m., Friday at Whitlock's clothing store.

HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rosebush which—despite the most beneficent environment of soil—of sunshine—and of atmosphere,—seemed never to achieve a healthy growth?

A ton of manure will not help a plant that has a canker eating out its heart.

You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vasoline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out.

Newbro's Herpicide destroys the germ, and healthy hair is the sure result.

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. One dollar bottles guaranteed. Smith's drug store, special agents.

A new pocket tool cleans insulation from electric wires as it is drawn along them and will separate without injury two wires which may be twisted together.

Digestion and Assimilation. It is not the quantity of food taken but the amount digested and assimilated that gives strength and vitality to the system. Chamberlain's Stomach and Liver Tablets invigorates the stomach and liver and enables them to perform their functions naturally. For sale by all dealers.

HAIR THAT FASCINATES

That's Why a Thankful Woman Recommends Parisian Sage.

Smith's drug store will sell you a fifty cent bottle of PARISIAN SAGE and guarantee it to banish dandruff, stop falling hair and itching scalp, or money back. It's a delightful hair dressing that makes hair lustrous and fascinating.

"In the spring I was recovering from a severe case of erysipelas, which left me virtually bald on the front of my head and next to my ears. The hair kept coming out rapidly and nothing I used stopped my getting entirely bald, until I used two bottles of PARISIAN SAGE. This tonic made my hair start to grow in and, in fact, grew me a good fair amount of hair, and it has entirely stopped my hair falling out.

It is with pleasure that I give a public recommendation to PARISIAN SAGE, which I know is a wonder." Mrs. Ella Gilchrist, W. Pitt street, Bedford, Pa.

RED CROSS FOUNDER ILL.

Miss Clara Barton, founder of the American Red Cross, is reported seriously ill at her summer home, Oxford, Mass. Miss Barton is ninety years old.

A Novel Cure for Hay Fever.

New York Times.

The strange actions of a gentleman afflicted with hay fever at the Hotel Breslin have attracted the attention of the patrons there for some days. Regularly every morning, even on the hottest days, he has rushed through the corridor in a heavy coat, to the freight elevator at the rear of the office deck, which leads to the basement regions. Just as regularly he reappears after half an hour or so, rubbing his hands, as if he had just been sleighing on a very cold day.

Yesterday shortly after this man had made his usual two trips going and returning, two young women in Persian lamb coats snatched jauntily

IMPORTANT TO MOTHERS

A record of sixty-five years continuous use of "Mrs. Winslow's Soothing Syrup" by mothers in all parts of the world, is the highest praise that any "medic" for "children teething" has ever received. Every year the young mother follows in the footsteps of her mother and feeds Mrs. Winslow's Soothing Syrup to be the favorite, and so it has gone on for a period of sixty-five years. Millions of mothers have used it for their children while nothing with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea, held by doctors as a useful and safe remedy.

PROGRESS BEING MADE IN RAISING LIVE STOCK

Exhibits at the Appalachian Exposition Will Show What South is Doing—A Fine Display.

The live stock exhibit of the Appalachian Exposition at Knoxville, Tenn., will take place Sept. 11 to 16, inclusive. Premiums amounting to \$15,000 will be distributed among different types of farm animals. The general classifications are: Open, southern Appalachian and East Tennessee. The southern Appalachian region includes Tennessee, Kentucky, Virginia, West Virginia, North Carolina, South Carolina, Georgia and Alabama. The show will be in charge of Dr. M. Jacob, of Knoxville.

The following will be judges: Horses and Ponies—Dr. C. W. Gay, University of Pennsylvania, and G. W. Balch, Rio and Ky. Mules and Jack Stock—John L. Jones, Columbia, Tenn. Beef Cattle—Prof. H. A. Morgan, University of Tennessee, Knoxville. Dairy Cattle—W. Getts, Athens, Tenn., and R. L. Wallace, Knoxville, Tenn.

Swine—J. S. Henderson, Kenton, Tenn., and J. M. Kiever, Bloomingburg, O. Sheep—Prof. M. F. Jarnigan, University of Georgia, Athens, Ga.

The southern Appalachian region constitutes a wonderful field for pure bred live stock. A greater relative interest is being shown throughout this section toward improved live stock than in any other section of the United States. It is a stock raising country, having all the natural essentials necessary to produce good quality. And again, the climatic condition are such that live stock can be raised at less cost than in any other section, and besides it is within easy access of the best markets of the country.

For all these reasons the live stock exhibit at the Appalachian Exposition offers an excellent opportunity to the producers of registered live stock to show and advertise their particular lines.

The southern Appalachian region has an established reputation for live stock. For instance, East Tennessee is noted for its high class mules, jack stock, dairy cattle, especially Jersey, and Berkshire, Duroc-Jersey, and Poland China hogs. In these particular classes as well as horses, the exhibits this year will surpass those of any other show.

In one class alone in 1910 forty stallions were shown. It was the only time throughout the entire show the classes varied in number from one to forty. Entries show that these horses will be far and away the best ever shown.

It is a fact that the exhibitors of this year will surpass those of any other show.
