

Soda crackers are more nutritive than any other flour food. Uneeda Biscuits are the perfect soda crackers. Therefore, Uneeda Biscuits.

Five cents spent for a package of Uneeda Biscuits is an investment—an investment in nourishment, in health, in good eating.

Though the cost is but five cents, Uneeda Biscuits are too good, too nourishing, too crisp, to be bought merely as an economy.

Buy them because of their freshness—buy them because of their crispness—buy them because of their goodness—buy them because of their nourishment.

Always 5 cents. Always fresh and crisp in the moisture-proof package. Never sold in bulk.

For sore throat, swollen tonsils, pimples on the tongue, gargle the throat or rinse the mouth with DABBY'S PROPYLENE FLUID diluted in a little water. It will quickly restore normal conditions. Baths the skin with it to reduce swellings, cure insect bites or stings, wash out lacerated wounds, old sores or barbed wire cuts. It disinfects the wound and heals the flesh. Price 25 cents per bottle. Sold by all druggists.

MEETING CALLED OF COTTON MEN

Raleigh Conference to Devise Means of Obtaining Fair Price for the Crop.

HUNDREDS OF FARMERS COMING FROM WEST

Large Number Have Settled in North Carolina in the Past Year.

Gazette-News Bureau, The Hotel Raleigh, Raleigh, Oct. 11.

Major W. A. Graham, commissioner of agriculture, and Dr. H. Q. Alexander of Charlotte, president of the North Carolina Farmers' union, have issued a joint call for a conference in Raleigh on Wednesday, October 18, as "to the best mode of selling the present cotton crop so as to procure and maintain a price that will be remunerative to the producer." All persons interested in the matter are requested to meet in Raleigh, October 18. The Wake County Farmers' union requested the call at a meeting held here some time ago. It is believed the cotton farmers will hold their crop for better prices. The Raleigh and county banks are co-operating with the producers. Would Collect from Veterans' Estate. If the state of North Carolina can help itself—and Auditor Wood thinks it can—it will collect from the estate of Dr. George W. Walker, a Pender county veteran, the sum of \$650 for board, lodging and clothing during the four years that Dr. Walker spent in the Soldiers' Home here. Dr. Walker left an estate valued at \$4,000 to the Baptist Theological Seminary and Wake Forest college. It is said that relatives will contest the will.

University Alumni Banquet. Wake county alumni of the university of North Carolina will this year send greetings to the university and will celebrate the 118th anniversary of the founding of the institution with a banquet at Giersch's cafe on the night of October 12, as has been the annual custom in Raleigh. J. B. Cheshire, chairman of the committee on arrangements, is preparing his program for the banquet and University Day will be fittingly observed by Wake county alumni. The committee held a meeting yesterday afternoon for the purpose of perfecting the plans for the banquet. The committee is composed of Mr. Cheshire, the chairman, and John Boushall and S. H. Farabee. Dr. Edwin Mimms, professor of English at the university, will be the guest of honor and will deliver the address.

Handsome Bulletin Issued. One of the handsomest bulletins yet issued by the North Carolina department of agriculture is just from the printers and is called "North Carolina, a Land of Opportunity." The cover design is in colors and shows a border of the long leaf pine and the corn growing in the trucking and farming sections. The booklet contains a variety of information that is not only interesting to North Carolina but to outsiders as well. It will be widely distributed throughout the northwest.

May Seek to Disqualify Players. According to a story in the Norfolk Virginian-Pilot, Bob Williams, assistant coach of the Virginia Polytechnic Institute baseball team, has said that the Techs will endeavor to have ruled off, as professionals, Captain Stafford, Scott and Robertson, members of the A. and H. team. There is little danger of any such thing being attempted, however, as the Techs and Aggies have practically the same rules and as neither institution disqualifies athletes for playing summer ball in the fall, they do not play on a team under the National Association Baseball league. These boys have not violated any of the rules of their college and it is not believed here that any objection to their playing will be offered when the two rivals line up at Norfolk for the annual game on Saturday.

Citrus Exchange Offers Reward. The state department of agriculture has received a telegram from the Florida Citrus exchange saying that several carloads of green and poisonous oranges have been or will be shipped from Florida within the next 30 days to northern markets and offering a reward of \$100 to the pure food inspector who shall seize the first car load of the stuff. The shipments, the telegram stated, would be contrary to the Florida pure food laws and would injure the honest growers and shippers.

Blind Tiger in Church's Shadow. Within 50 yards of a church, a blind tiger was raided by the local police. Only the cap and 75 half pints of rye liquor, abandoned by the tiger in his haste, were gathered up by the officers. The tiger was operating in Moore's square, commonly known as the Baptist grove, and in front of the Baptist Tabernacle church.

Farmers Return From Northwest. According to Major W. A. Graham, several hundred farmers from the northwestern section of the United States have settled in North Carolina during the year. Seven farmers who left Forsyth county 12 years ago announce their intention of returning. Major Graham says a few farmers in the mountain counties are selling their lands and buying cheaper farms in Virginia.

Bear Cubs Cut Curator. That the two little bear cubs secured by Curator H. H. Brimley of the museum are not possessed of good table manners is the declaration of Mr. Brimley himself and T. W. Adickes, the assistant curator. Mr. Brimley went into the large wooden cage to give the cubs some peas when one of them swiped him across the nose and face. Mr. Adickes thought the play was merely playful—howbeit the play was rather rough—and advised the curator to demonstrate the art of feeding bears, when he got a good boxing on his nose and face. Like Mr. Brimley he refrained from the cage a week and a wiser man. Both

gentlemen are taking their bruises philosophically, but no more so than they were administered by the solemn young cubs.

McCullers Sues Commissioners. Dr. J. L. McCullers, who was elected county health officer by the board of health, and who was not recognized as such by the board of county commissioners, has brought suit against the commissioners, the sheriff, jailer and other officers to compel them to admit him to the performance of his duties. The commissioners will be compelled, if Dr. McCullers has his way, to audit his accounts. The action, which is in the form of a mandamus, will be heard Monday, October 23, before Judge R. B. Peckham in the Raleigh District Court.

Convocation of Raleigh in Session. With a prayer service and sermon by Rev. Isaac W. Hughes of Henderson, the convocation of Raleigh, comprising the eastern section of the diocese of North Carolina, was well under way in Christ Episcopal church last night. The sessions will continue until Thursday night and many delegates are here for the meeting. The officers of the convocations are: The Rt. Rev. Joseph Blount Cheshire, chairman ex-officio; Rev. N. Colin Hughes, archdeacon; G. C. Lamb of Henderson, secretary; and W. L. Wall of Durham, treasurer.

Members of Raleigh Typographical Union, No. 54, the oldest of its kind in the state, are anticipating with pleasure the banquet to be held tonight at the Elks club to celebrate the fifty-first anniversary of the organization of the union.

Leaf Tobacco Sales. According to statistics gathered by the department of agriculture and made public yesterday, 12,328,637 pounds of leaf tobacco were sold on the various springs in North Carolina during the month of September. Greenville heads the list with over two million pounds. Kinston is a close second and Wilson comes third, these three markets being in a class with more than a million pounds sold.

For many springs stands well in the list with 144,198 and Apex has 94,066 to its credit.

NEW SAND-CLAY ROAD IS AN OBJECT OF PRIDE

J. F. Wells Tells of the Stretch in Sandy Mush Constructed the Past Summer.

J. Frank Wells of Sandy Mush was in Asheville yesterday and told of a road in that section which the people with the help of the county, built this summer and of which they are very proud. It is a sand-clay road and is about one and one-half miles in length, leading from Captain Moore's place in the direction of Big Sandy Mch.

Mr. Wells stated that it cost \$1100 to complete this stretch, which he thinks is about one-third the cost of Macadam. The county graded the bed and the sand-clay was laid by the local people and the county, each bearing half the expense.

It was begun in July and finished about a month later. The work was under the direction of Julius Caudle. Mr. Wells said that even now most of the road is well packed and he further said if the commissioners could see it he thought they would build more roads of this kind.

Why Oysters Are Obese. "Why are the oysters so fat this year?" asks the perplexed Baltimore American. Just haven't heard yet that the hippest figure is the fashionable style; that's all—Washington Post.

Strength Comes Not From What You Eat, But From What You Digest.

A Tablet Digests a Meal. Trial Package Free.

Most people eat most foods without discrimination—it matters little what. Few stop to think what that food does for them. This is the first turn on the road to dyspepsia. Reckless disregard of the proper choice of foods, rapid eating and improper mastication are the unquestioned causes of all stomach disorders from the slight ache to the malignant cancer.

There is nothing more revolting than a dyspeptic stomach—a very val for putrefaction, sending forth its noxious fumes through the entire system, depressing the brain, befouling the breath, souring the taste, deadening the muscles, incapacitating the liver and kidneys for their work, debilitating the heart, choking the lungs and clogging the bowels.

All of these disagreeable and dangerous conditions are due to the improper digestion of food and the consequent assimilation of poison. What else can be expected? If the food lies in the stomach, if the system is constipated, fermentation is the natural outcome. It shows itself in sour watery risings, belchings, heartburn and painful breathing.

There is only one way to remove this condition. If the stomach refuses to digest your food put something into it that will. Stuart's Dyspepsia Tablets are not a medicine. They work when the stomach will not.

Each tablet contains enough pepsin, diastase, golden seal and other digestive elements to reduce 3000 grains of ordinary food to the proper consistency for assimilation into the blood.

Stuart's Dyspepsia Tablets are absolutely pure. There is nothing harmful in them as shown in their endorsement by 40,000 physicians in the United States and Canada.

Ask your family physician his opinion of Stuart's Dyspepsia Tablets and if he is honest toward you he will state positively that they will cure your stomach trouble whatever it may be, unless you have waited too long and have allowed your disorder to develop into cancer.

Act today and begin to end your suffering. A free trial package will be sent to your address upon request. The 50-cent size contains 25 tablets at your druggist's or by mail from 150 Robert Bldg., New York, N. Y.

CERTAIN RESULTS

Many an Asheville Citizen Knows How Sure They Are.

Nothing uncertain about the work of Doan's Kidney Pills in Asheville. There is plenty of positive proof of this in the testimony of citizens. Such evidence should convince the most skeptical doubter. Read the following statement:

J. G. Cochran, 36 N. Main St., Asheville, N. C., says: "I was badly run down from kidney complaint and I grew discouraged. Every move caused pain and my back was so lame and sore that I was in no fit condition to work. The kidney secretions were irregular in passage, causing me no end of distress. I knew of two people who had been cured of kidney complaint by Doan's Kidney Pills and I decided to try this remedy. I was surprised by the results of its use. My health began to improve at once and kidney disease was quickly driven from my system. That happened two years ago and since then, I have been as free from kidney complaint as if I had never had it."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

STRIKERS ARE QUIET

It Seems Likely the Illinois Central Struggle Will Be Long-Drawn-Out.

New Orleans, Oct. 11.—The strike situation in this city is unchanged. Both the striking and the striking employees of the Harriman lines give evidence of preparations for a long-drawn-out struggle.

Extensive preparations for accommodating strikebreakers are being made by the Illinois Central officials. On the other hand strikers are receiving financial aid from union men of crafts not affected.

The first contribution to the strikers was \$200 from the local street car men's union.

Railroad Man Killed in Fall. Hot Springs, Va., Oct. 11.—Archer Harman, a prominent railroad man of New York and Ecuador, died yesterday from injuries sustained in a fall from his horse. Doctors Fisher, Finney and Thomas, of Johns Hopkins university, attending here by special train, performed an operation in a vain attempt to save Mr. Harman's life by relieving brain pressure from a fractured skull.

Mr. Harman was president of the Guayaquil and Quito railroad, Ecuador, and was prominently identified with other large enterprises.

Enjoy an hour at Theatro.

Normal today: Temperature 57 degrees. Precipitation .08.

Forecasts until 8 p. m. Thursday for Asheville and vicinity: Rain tonight; Thursday fair weather.

For North Carolina: Local rains tonight; Thursday generally fair; light northeast to east winds.

Summary of Conditions. The storm noted yesterday over Montana and Wyoming has advanced to western Kansas, with a marked decrease in intensity although its resultant rain area has overspread the country from the Rocky Mountains to the Atlantic coast. Excessive amounts of precipitation are reported (in inches and hundredths) as follows: Augusta, Ga., 3.85; Savannah, Ga., 1.79; Knoxville, Tenn., 1.54; Barrow, La., 1.44; Boise City, Idaho, 1.34; Helena, Mont., 1.32; Macon, Ga., 1.06.

The gradual subsidence of the disturbance will be favorable for rain in this vicinity tonight, followed by fair weather Thursday.

AFTER SCHOOL CLUB; ITS AIMS AND METHODS

Helps the Parent as Well as the Child—Some of the Affiliated Bodies.

Atlanta Constitution.

The betterment of the home and the bringing together more closely of the school and the home, are principles now which are not only influences hopefully evident in modern educational systems, but organizations having these same principles as their basic purpose. Schools for "grown-ups" are being organized in various ways both in the cities and in the rural communities. The great universities are fostering the same movement in their extension work, and there seems a place and a need for each succeeding movement along these lines.

The After-School Club of America with headquarters in Philadelphia, is an organization sending a good message out and sending it in organized, tangible form. Its principle is to educate; to help along the parent and the child at the same time, and to take the teacher in the compact. Literature bearing on matters related to the movement is diffused, correspondence between the members of the After-School Club and the heads of it, encouraged, and finally opportunities for acquisition of the best reading matter on various subjects, made possible for a reasonable expenditure.

The advisory board of the club in its home department includes Jane Adams, of Hull House; Mrs. Shepherd Barham, Los Angeles, president of the department of School Patron National Education association; Mrs. Edward W. Riddle, Carlisle, Pa., president State Federation of Pennsylvania Women; Miss Jane Brownlee, New York, lecturer and author of "Moral Education"; Mrs. Sarah Platt Decker, Denver, former president of the General Federation of Women's clubs; Miss Laura Drake Gill, Boston, president Association of Collegiate Alumnae; Miss Faby S. Hill, New York, Teachers' College, Columbia university; Mrs. Robert M. LaFollette, Madison, Wis., editor home education department of "The Nation" Magazine; Mrs. Philip N. Moore, St. Louis, president General Federation Women's clubs; Mrs. E. R. Weeks, Kansas City, president Mothers' Union; Mrs. Owen Winter, Philadelphia, chairman Pennsylvania civic committee; Mrs. Henry E. Woolley, South Hadley, Mass., president Mount Holyoke College; Miss Sophie B. Wright, New Orleans, principal Home Institute.

The most distinctive feature of the movement is a series of personal comradeship letters which are written by Nathaniel M. Dawson to boys and girls. "Uncle Nat," as he is called by the little men and women members of the club, writes very personal letters which are designed to develop the child's desires and queries, and to help him form ideals and ambitions. Since one of the events in a child's life is the arrival of a letter which is his very own, you can readily imagine the influence on a boy or girl of a fortnightly letter from a grown person of lofty ideals who instinctively reaches the child's own plane of thought and interest. Uncle Nat's letters to children and young people about fairies, birds, music, art, wonders of science and nature, animals, sports, ambitions, character in history, etc., are stimulating character builders. His letters to boys are written to meet a boy's point of view; the letters to girls show the more delicate feminine viewpoint, but both without exaggeration of sex differences. Mr. Dawson lays hold of every fact supplied by the parents, and supplements it with the revelations the children make of themselves in their own letters. He then deduces a systematic plan leading the child into such use of books as will strengthen the weak places in his taste, giving him direction in handicraft, in school work and in social life, as may seem best, and developing his love for animal life and the wonders of nature.

Affiliated Societies. The societies with which the After-School Club is either officially affiliated or working in sympathetic co-operation, are: American Academy of Political and Social Science; American Association for Labor Legislation; American Civic Association; American Home Economic Association; American Institute of Social Service; Big Brothers Movement; Chicago School of Civics; Child Conference for Research and Welfare; the Character Development League; Columbia University (Teachers' College); Clark University, department of child study; Federated Boys' clubs; the George Junior Republic Association; International Children's School Farm League; and National Anti-Cigarette League; National Association for the Study and Education of the Exceptional Children; National Christian League for the Promotion of Purity; University of Wisconsin, the Washington Society of Fine Arts; National Bureau of Education; National Municipal League; National Newsboys' Association; National Society for the Promotion of Industrial Education; National Woman's Christian Temperance Union; New York Society for the Prevention of Cruelty to Children; Philadelphia Society for the Prevention of Cruelty to Children; Philadelphia League of Home and School Associations; the People's Institute; Russell Sage Foundation; Department of Child Helping; Russell Sage Foundation, Department of Child Hygiene; Society of Arts and Crafts; Southern Association of College Women; the Vocation Bureau.
