FOR BIG CANAL

(Continued from page 1)
out of business and thus acquire a
monopoly in themselves. That is
how our monopolies, or trusts as we
mildly and mistakenly call them. were all created."

Concerning docks and facilities for handling freight at the port of New York, Mayor Gaynor said there was no dock in the Borough of Manhat-tan long enough to receive the gigantic steamer Olympic. States government, he explained, refused to permit the existence of docks four years I was afflicted with kidney further into the North river and fa- trouble and I think it was caused by vorable points therefore were being located along the river for the extension of docks inshore. The borough of Brooklyn already has city docks and private docks long enough to re- was languid and nervous, had head-ceive any vessel likely to be built in aches and damy spells and tired easi-

future years, the Mayor said. The mayor strongly protested against the present railroad rate dis-crimination or differential against New York in favor of other cities. "The railroads charge three cents more the hundred pounds on ocean freight to New York than on ocean freight to Baltimore, Newport News and Norfolk, and two cents the hundred pounds more than to Philadelphia. make them in any size. Ours are pounds more than to Philadelphia superior to others. Write for catalogue. Oriental Rug Co., 1101 Ca- ic reason in this. It is one of those thedral St., Baltimore, Md. 161-781 artificial interferences with the naturic reason in this. It is one of those al course of commerce which always ARE YOU GOING AWAY and need have worked injury and mischief ina suit case, handbag or trunk? Call stead of benefit to commerce as was

"Will the statutes and court decisions of our generation which are trying to interfere with the natural ourse of commerce and business be prove eastern streams. He said: "We seen by the next generation to have have noticed the ease and grace with repairing. Work guaranteed. Prices been as futile and mischievous as which great men of the nation have those of past generations?" asked Mr. given their approval to the sixty three Gaynor. "Many among us who want to million water harvesting project of go even further with such artificial the Ohiq river while they have grave interferences have no doubt of their ty pondered over the 'expense' and

vision. President Moore's Address. pase year by reason of the activities tion to give them fair treatment, but, of the Atlantic Deep Waterways association, President J. ampton Moore of engineers have readily eased Philadelphia announced the the consciences with regard to vast ex-delegates of the association. While penditures that build up western and transportation.

As a startling presentment, which, contributes a third of the revenues of he said, demanded consideration at the government." the hands of the government, Mr. Moore quoted from the report of the ommittee on traffic appointed to collec data with reference to the coastwise trade in general. In its report it said: "One of the strongest arguments in favor of an inland route is the fact that in a single decade, from 1900 to 1909, there were over ,700 disasters to shipping on our At- M. C. A. begins tonight and today the lantic seaboard. Not all losses are alleys are being polished up and put reported, but these accidents are in fine condition. The management known to have destroyed \$40,500,000 has spent about \$100 in repairing the have caused the loss of over 2,200 they are now in top-top shape. Ther

Heavy Loss in Coastwise Trade. President Moore pointed out that build a ship canal across New Jersey from New York to the Delaware river. If doubled, the amount would be suf-600 miles and the addition of \$20,000.-999 would doubtless complete a serviceable waterway from New England to Florida's southernmost key. If the whole chain were to be constructed town associations and the best bowlat once-which is more than any ers in the tournament here will b reasonable waterway advocate asked chosen to represent the locals. About or expected—and the cost were fixed eight such tournaments were played at \$100,000,000, that amount would be last year and the locals were unusual anily half that already spent upon the dississippi, with its 4,509,000 tons of from the Lakes to the Gulf. It is only \$37,000,000 more than congress and ing happens to prevent it. he president have endorsed over to the Ohio river for a nine foot depth rom Pittsburg to Cairo, and it is only while your liver is torpid. It makes ne-fourth of the actual construction you an easy mark for the disease cost, to say nothing of the tremendous SIMMON'S RED Z LIVER REGULA-

After lauding the work on the Panama canal as complimentary to Price, large package, \$1.00; small american engineering skill and as size, 25c. Sold by all druggists. having brought laurels to the American national reputation for commerial philanthrophy, Mr. Moore asked whether it was not time to take an ccount of what Americans have ailed to do nearer home. "While we into this vast enterprise, which is to be maintained by the United States at ts own rink and for the benefit of the nations of the world," he said, "is it not fair to pause and take account of what we have failed to do 'a little closer to home' where the circulation of our fational apprepriations would uld domestic enterprises, encourage lemestic business, and profitably em-ploy the labor which is immediately

round about us?"
"It does not seem unreasonable." aid he, "that if the government is able to appropriate and spend ap-proximately four hundred millions raised from the masses of the Amerian people for the employment of both foreign and American labor in he construction of a canal at Panama, which must be of equal benefit to all other nations, as it is to the Unitod States, that it might still be able to spend the paltry fifteen or twenty millions that would be necessary to provide the people in our neighboring states with modern transportation fa-cilities between the Chesspeake and

cililies between the Chesapcake and Delaware bays.

Enormous Volume of Tonnage.

"The estimated tonnage of the Panama canal for the first fear being only about 4,509,000 it is certainly not unfair to insist that the time has come to give the people of the Atlantic seaboard better facilities for the 50,000,000 to 90,000,000 of tonnage between the Chesapcake and Delaware bays for their \$0,000,000 that reported as passing Port Judith cach reported as passing Port Judith cach year, or the 24,000,000 (190%) shown by the returns of the Delaware river sione. If the Panama Canal is to do no greater mixed business than is indicated it is not unfair in consideration of the money we have spent upon it and our worful lack of attention to American waterway, and canals that we should compare its commerce for the first year given at 4,500,000 tons with the 13,000,000 of the Arthur Kill, a fourteen missiream between Staten Island and New Jersey, is 1505, or ins port of
