ATHLETICS POUND OUT VICTORY FOR THIRD TIME

Captured the Long Delayed Game Today By Bunching Hits Off Mathewson in the Fourth

New York Made a Terrific Start By Scoring Two in the First Inning, But That Ended It—Athletics Came Back in the Third, Making Three Runs—Mathewson Taken Out of the Box in the Eighth—Philadelphia Now Has One to Win to Capture World's Championship—Game Tomorrow in New York.

Philadelphia, Oct. 24.—Tens of thousands of baseball fans were happy today when they saw the clear weather for the much-postponed fourth game of the world's series. The bright weather brought out the fans early. Before 8 o'clock, several hundred were in line at Shibe Park, waiting for the bleachers to open. The line grew longer each minute. When the gates opened shortly after 9 o'clock about two thousand were about the entrances. Another capacity crowd filled the big grounds when play began at 2 o'clock. Both teams were in fit condition. The week's rest tuned up the men and enabled the pitchers to recover their strength after their strenuous box work. The playing field is somewhat heavy, but is in as good condition as a big squad of men could make it. The day was more fit for football than baseball. A brisk wind blew from the northwest and had a slight nip in it, making overcoats comfortable. Up to today's game the series stood two victories for Philadelphia and one for New York.

The batting order follows:
New York Philadelphia
Devore, 1 f. Lord, 1 f.
Doyle, 2b Oldring, c. f.
Snodgrass, c. f. Collins, 2b.
Murray, 1 f. Baker, 2b.
Merkle, 1b. Murphy, 1 f.
Herzog, 2b. Davis, 1 f.
Fletcher, s. a. Barry, s.
Meyers, c. Thomas, c.
Mathewson, p. Bender, p.

The batteries were announced as follows:
Mathewson and Meyers; Bender and Thomas.

Dineen umpire back of plate; Klem on bases; Connolly, in right field; Brennan, in left field.

First Inning.
Giants—Devore reached first on an infield single, Bender diverting the course of the ball, but was too late for Barry to handle. Doyle drove the first ball pitched to right center for a triple, scoring Devore. On Snodgrass' fly, Doyle scored. Murray was retired at first by Davis, unassisted. Merkle struck out. New York 2 runs.

Athletics—Lord lanned on three balls, the first being a foul. Oldring also struck out. Mathewson had struck both men out on seven pitched balls. Collins singled to center. Baker was given rousing cheer on coming to the bat. Mathewson and Meyers both a conference and it looked as though they intended to pass Baker. Baker struck out on a wide one. No runs; 1 hit; no errors.

Second Inning.
Giants—Herzog lifted a fly to Oldring. Fletcher drove a single over Barry's head, his first hit of the series. Meyers' high fly dropped safely between Baker, Bender and Thomas, but Fletcher was thrown out at second. Thomas to Collins. Mathewson was out on an easy grounder to Bender. No runs; 1 hit; no errors.

Athletics—Murphy drove the ball over the temporary fence in right field for two bases, his first hit during the series. Murphy took a long lead off second and Mathewson, attempting to catch him, made a wild throw to Fletcher, Murphy taking third. Davis dropped easy one in front of the plate and was thrown out at first, on a close play. Mathewson to Merkle. Murphy attempted to stand home, but Barry missed the ball and Murphy was caught and run down by Meyers. Barry made an infield single. The ball rolling along the left field base line, Mathewson and Herzog waiting for it to roll out, but it stopped on the line. On an attempted hit and run play, Thomas

fouled out to Meyers. No runs; 2 hits; 1 error.

Third Inning.
Giants—Devore lifted a fly to Oldring. Doyle went out on a high one to Baker. Snodgrass hit a grounder to Barry and out at first. No runs; no hits; no error.

Athletics—As Snodgrass rounded first he was hooted by the crowd. Bender was thrown out at first, Fletcher to Merkle. Lord hit the first ball to right field for single. Doyle got Oldring's grounder. Collins struck out on three pitched balls. No runs; 1 hit; no errors.

Fourth Inning.

INTEREST IS DEEP

In the South in Waterway Development, Declares Managing Director Dawe, of the Southern Commercial Congress, After a Survey of the Field—Visited North Carolina.

Washington, Oct. 23.—"I find throughout the Southern States, which I have just finished going over, covering 8,000 miles, and visiting twenty of the principal cities, an extraordinary interest in river and harbor improvement," said G. Grosvenor Dawe, of this city, managing director of the Southern Commercial Congress, who returned Monday from the long trip he summarized. The cities he visited are: Charleston, in South Carolina; Louisville, Nashville, Memphis and Chattanooga, in Tennessee; Little Rock, in Arkansas; New Orleans, Shreveport and Monroe, in Louisiana; Dallas, Houston, Fort Worth, El Paso, Antonio, Galveston, Port Arthur, Port Bolivar and Beaumont, in Texas; Vicksburg, Jackson and Meridian, in Mississippi; Mobile, Montgomery and Birmingham, in Alabama; Jacksonville and Pensacola, in Florida.

"These Southern cities, besides devoting themselves to such vitalizing questions as belong to home comforts, better streets, better sanitary conditions and more economical forms of local government, are earnestly moving toward the perfection of local ownership of harbor terminal facilities for shipping, and thus they are simply making way for an immensely greater development of their urban communities, which is bound to come in the near future."

Mr. Dawe was especially impressed with the lively concern manifested in the Texas coast and near-coast cities of Houston, Galveston, Port Arthur and Port Bolivar. "Houston," he said, "rather than be delayed by waiting upon the Government, or asking its aid, has spent \$1,250,000 to improve Buffalo Bayou. From Port Arthur I went on a boat over a canal 26 feet deep, which but a year ago was level and over which cattle roamed, a situation made real by aggressive local enterprise. At Port Bolivar, hard by Galveston, the most courageous local development is going forward with a view to the extension of the water front, and at Galveston I had the privilege of being in that once tempest-wrecked city, now raised 19 feet higher by local pluck and Government co-operation, at the opening of the grand Gulf front boulevard, just eleven years to the day after the storm.

"New Orleans is showing, if possible, even a greater interest in the improvement in all its phases of the great Mississippi river basin. Little Rock, Memphis, Nashville, Chattanooga and Knoxville are all evincing a wide-awake interest in all the possibilities of inland navigation, and especially in the solution of the problems of the utilization of the water power of the bold streams that are essential to the development of the Mississippi valley of navigation. Mobile is at this moment deep in the question of maintaining independent dock facilities; Pensacola, with its fine natural harbor, is getting ready for the arrival of three additional railroads and meeting the problem of terminal facilities in the best possible way for the port.

President Taft And the Judicial Vacancies

Will Not Name Successor of the Late Justice Harlan Until He Returns to Washington—President in Minnesota Today.

Glencoe, Minn., Oct. 24.—When President Taft returns to Washington next month, one of the biggest problems facing him will be filling the judicial vacancies created since Congress' adjournment in August. The President will probably devote much of his attention to the appointments. There is practically no chance now that the President will select a successor of the late Justice Harlan until he reaches Washington. It was stated that the President has given no consideration to Justice Harlan's successor. He has received many suggestions about filling the vacancy and many names, including Attorney General Wickersham, Solicitor General Lehmann, and others have been mentioned.
