Tactfully Explained.

A lady who had recently moved to the suburbs was very fond of her first brood of chickens. Going out one afternoon she left the household in charge of her 8-year-old boy. Before her return a thunderstorm came on. The youngster forgot the chicks during the storm, and was dismayed after it passed to find that half of them had been drowned. Through fearing the wrath in coming he thought best to make a clean breast of the calamity, rather than leave it to be discovered. "Mamma," he said, contritely, when his mother had returned, "mamma, six of the chickens are dead."

"Dead!" cried the mother. "Six! How did they die?" "The boy saw his chance. "I think--I think they died happy," he said.--New York MAIL.

Mrs. Spottswood Weds Count

COUNTESS SCHONBRUN. Paris, Oct. 23.—Mrs. Landridge Spottswood was married yesterday to Count Schonbrun in the mayor's office of the sixteenth arrondissement of Paris. Countess Schonbrun was a granddaughter of Baron von Wulf and is the divorced wife of Dundridge Spottswood, an engineer of Virginia. The countess arrived here several weeks ago from Utrecht, where she had been, and her husband came from Hungary for the ceremony.

TAUNTS AND THREATS DRIVE COOK OFF STAGE

Almost a Riot When Explorer Attempts to Vindicate Himself in Copenhagen.

Copenhagen, Oct. 25.—Dr. Frederick A. Cook's theatrical attempt last night to vindicate his reputation by a lecture in the hall where two years ago he addressed the royal family and some of the most prominent people of Denmark under the auspices of the Geographical society on the occasion of his triumphal entrance into the capital, resulted in extremely riotous scenes. Dr. Cook finally was compelled to retire by the back door.

Ever since it was announced that Cook was returning here to lecture, the newspapers and the people have been strongly stirred, and threats of violence were freely circulated. Fifteen hundred persons in the hall and a great crowd outside greeted Dr. Cook with an uproar of insulting cries. He was escorted by police, however, and no violence was attempted.

The meeting within the hall was turbulent throughout. A small fraction of the audience supported Dr. Cook and applauded his efforts. Others hissed continually with the result that the two sides almost came to blows. The lecture, illustrated by means of lantern slides, was for the most part a repetition of his former talk.

Dr. Norman Hanson, the Danish explorer, who formerly supported Cook, started trouble by loudly denouncing Cook as a pure swindler. The climax was reached when an alleged picture of the north pole was thrown upon the screen. The audience was so hostile that Cook stopped his lecture and withdrew. He was escorted by a strong detachment of police to his hotel through the side streets.

ATTEMPTS TO SAW WAY THROUGH GUILDFORD JAIL

Purposed Delivery Thwarted—Vardaman Discussed Negro Question.—Other News.

Gazette-News Bureau, Daily News Building, Greensboro, Oct. 25. Roscoe Lane, one of the alleged mountain moonshiners in jail charged with a murderous assault on Revenue Officer Henry some weeks ago when the officer did battle with Lane and several others, made an unsuccessful attempt yesterday to saw his way out of the Guilford county jail. In some manner Lane became possessed of a hacksaw and during the daylight hours he worked away with his saw against the iron bars. This continued for several hours until finally the jailer made his rounds; discovered the effort of Lane again to gain his liberty and relieved the prisoner of his saw.

Vardaman Lectures. United States Senator-elect James K. Vardaman of Mississippi delighted a good-sized audience here Monday night with a lecture on American problems. In conversation with newspaper men Senator Vardaman reiterated his previous declaration that negroes should be educated only to work. Relative to the presidential situation, he declared that 1912 was yet some time off but that he believed the democrats would nominate either Wilson or Clark for president and that the republicans would certainly name Taft. He says that he thinks Senator LaFollette one of the really great men of the day and that "between two evils," he would rather see LaFollette in the white than "that poor, plastic, amiable golf-playing Judge Taft." He said, however, that Taft would certainly be nominated again and that either Wilson or Clark "will win in a walk," at the general election.

Negro A. and M. Row. There is a little new in the situation at the negro A. and M. Row, where the senior class and part of the juniors and sophomores went on strike last week. It appears that the trustees of the college are standing behind President Dudley of the institution and that Dudley has declared that the students involved in the "strike" must send in an apology before they return to college. Some of the negroes say they believe that they are in the right and that they will never apologize; it is said that others will send in an apology and that the matter will soon be straightened out.

Hurt by Runaway Horse. Frank Pritchard, a 15 years old boy was run over by a runaway horse on Elm street yesterday afternoon and seriously injured. It seems that the animal got from under control of its owner and made a mad dash down the street. Several people narrowly escaped being run down, while Pritchard was less fortunate than others and was struck. He was thrown violently to the pavement and severely bruised. It is not known whether he was injured internally. He is confined to his home and is being given medical attention.

Neither Helped Nor Hurt. Washington Post. The upward tendency in wheat and corn should not go so far of take on permanency. The defeat of reciprocity did not reduce the world's supply of wheat a single bushel. Both Canada and the United States are exporting countries and have nothing to say about the ruling prices. Their wheat is reckoned in with that of competing countries, the total put in comparison with the wants of the world, and the quotations arrived at accordingly, with the best Canadian wheat commanding the top price. No Canadian wheat had been coming to our markets, so that the mere continuation of existing conditions could not logically argue for a rise. Canada would need to be a source of supply in order to have reciprocity cut a figure as a basis of prices.

As a matter of fact, the Chicago speculators had discounted the sentimental effect of the ratification of the Canadian agreement by bidding prices down, and when the unexpected happened the market was not prepared for the shock. The same thing occurred last winter when reciprocity was suddenly thrust into the foreground, only that the swing was in the other direction. The decline at that time was 10 to 12 cents, whereas the advance on last Friday was 2 cents. The equilibrium was soon restored, and doubtless the present tendency will be of short duration.

KAFFIRS "HITTING THE PIPE" BY SUBWAY ROUTE.

KAFFIRS SMOKING OPIUM THROUGH AN UNDERGROUND TUBE. FROM THE ILLUSTRATED LONDON NEWS.

Kaffirs who have a craving for the curse of the East adopt a curious method of smoking their opium. Having made a hole in the ground, they insert in it a bottle with its neck and its bottom knocked off. The neck part of the bottle is left above ground, the lower part is buried. In the space between the end of the bottle and the bottom of the hole are placed, first live coals and then opium. A tube connects the bowl of the pipe and the "mouth-piece," passing underground to emerge two yards from the bowl. The kaffir draws at this curious pipe in turn.
